## THE CANADA LANCET.

## OSTEOPATHY IN BRITISH COLUMBIA.

The British Columbia Medical Bill before the Legislature of that Province provides for the practice of osteopathy as follows: Nothing in this Act shall prevent or prohibit any duly qualified osteopath from practising his profession for reward or gain within the Province of British Columbia from and after the passing of this Act: Provided that all practitioners of osteopathy within the meaning of this Act shall be duly qualified osteopaths of a recognized school or college of osteo pathy; and for the purpose of this Act, a recognized school or college of osteopathy shall be deemed to be an institution recognized by the American Osteopathic Association: Provided, further, that before any such osteopath shall be lawfully entitled to practise osteopathy within British Columbia, such osteopath shall take and successfully pass an examination satisfactory to the Council in the following subjects: Anatomy, physiology, chemistry, toxicology, pathology, bacteriology, histology neurology, physical diagnosis, obsterics, gynecology, minor practice surgery, hygiene, medical jurisprudence, principles and examof osteopathy: The Council, for the purpose of such under ination of applicants for registration as osteopaths prescribe this Act. shall appoint an osteopath. shall who printhe examination of such applicants the in relation to osteo ciples and practice of osteopathy: qualified any duly path who shall successfully pass such examination of the Council of the College: Provided that such osteopath shall be restricted and shall be entitled to be registered, under this Act, as a member of the college: Provided that such osteopath shall be restricted wholly to the practice of osteopathy.

## THE CANADIAN MEDICAL EXCHANGE.

This Exchange is conducted by Dr. Hamill, Medical Broker, for the purchase and sale of medical practices and properties. He states that besides having from 15 to 20 desirable practices for sale at the present time, he also has requests from over eight different villages without a doctor, where there are most inviting opportunities to work up a practice. These latter openings would suit young doctors, or any medical men who would be satisfied with making about \$2,000 per year.

Full particulars of the former or latter will be cheerfully given to any physician who cares to write Dr. Hamill, Janes Building, Toronto.
