

THE Question

of security will always arise in the mind of a person who has money to invest. The same security that a person has who invests his money in a private mortgage is offered by this Company. Our money is all lent on mortgage, and very great care is taken that the mortgage does not exceed more than 60% of the value of the property offered as security. The character and occupation of the borrower is always taken into consideration, and we must be satisfied that the moral hazard is good before a loan is made. Stock in a Company that offers such excellent security should undoubtedly be satisfactory and interesting to investors. Write us for particulars.
