the canning of tomatoes will be a failure this season; stocks of canned lobsters are low and prices decidedly firm. Teas are very firm all round, and a good business is being done in all kinds, with the exception of low grade Hysons and Japans, of which there are none in the market. Coffees are all firm at present quotations, but sales are not yet of much account. Sugars are unchanged in prices, but from indications of the New York market an early advance may reasonably be expected. They are very firm at present quotations. Dried fruits are still on the advance; for sultana raisins we quote 12 to 14c. per lb. Prices of other lines are unaltered, but it is generally conceded values in all dried fruits must in all likelihood go up, which includes raisins, currants, figs, Bosnia prunes, etc.

HARDWARE AND METALS.—There is but little to be added to our report of last week. The general tone of the metals market is firm, and in some lines of tin plates and terne plates prices are higher.

HAY AND STRAW.—New hay is being brought into the city in ample supply for all wants, and is selling at \$9 to \$10 per ton. Straw is ruling high and cannot be bought under \$9 to \$10 per ton; the supply is not equal to the consumption. Baled straw is bringing \$5.50, and baled hay \$9.50 on track.

HIDES AND SKINS.—This market continues much in the same condition as for some time past. Prices are indeed higher, and if anything firmer. Cows' hides, green, are now quoted at 7c. per lb.; cured and inspected at 7½c. The market is bare of stock, and consignments do not equal demands. The same remarks apply to calfskins. In handling lambskins and sheep pelts there is no distinction made now. The prices quoted this week are 5c. higher, being now 75c.; they are really not worth this money, nor is the condition of the market at present normal. It is purely through local complications, which can only be temporary. Tallow is quiet, and unchanged, with no probable improvement in the near future.
