Aside from the fact that the "Safford" Radiators are unique because no bolts, rods or packing are used in their connections, the vital point is claimed (and guaranteed) that they will stand a pressure of 140 pounds to the square inch—about double the pressure that any other radiator is capable of bearing. They embody every single specification of all the leading architects of the country. They are SAFE beyond question. They are handsome—they are made in the shape of circles and in various angles—shapes to suit the various spaces where they are to be used. There are twenty-five different styles of
