Arabs Turning on Turks Retreat Becomes Rout

Latest News From Persian Gulf Emphasizes Im. portance of British Success-Enemy's Losses Six Thousand in Three Days.

LONDON, April 22.—(9.30 p.m.)—The following official communication was issued this evening:

"The latest telegrams from the Persian Gulf show that the defeat of the Turks at Shaiba was even more complete than had been hoped. Not only have they abandoned their motor cars and gun and ammunition wagons, but independent reports show that their retirement has been a rout, molested by turncoat Arab tribesmen. There are persistent rumors of the suicide of Suliman Askeri, the Turkish commander-in-chief.

"It is estimated that the enemy's casualties from April 12 to 15 reached 6000. The Purks in this direction are now all north of Khamieh, which is more than 90 miles from Basra."

LONDON, April 22.-It is believed that at last the big effort against Turkey is about to begin.

A despatch to the Havas Agency at Paris from Athens tonight says that the bombardment of Turkish positions on the Gallipoli peninsula continues

without interruption.

There is no longer any endeavor to hide the fact that a big Anglo-French force is prepared to go, as General d'Amade, the French commander, has said, "to any point where it is re-

duired."

A German report says that part of this force, which is under command of Gen. Sir Ian Hamilton, has been landed at Enos, a Turkish town near the Turco-Bulgarian border, on the northern side of the Gulf of Saros, under the support of the allied fleet. At the same time there is news of transports loaded with troops passing and of others being sighted off Smyrna, on the coast of Asia Minor. This makes uncertain where the blow is to be struck. Turks' Preparations. An earlier despatch to the Havas Agency stated that the Turks are strongly entrenched along the Gulf of Saros, and that a big Turkish army has been assembled to resist the impending land attack.

The minister, according to the correspondent, added that there exists a defensive alliance between Roumania and Italy and that Italy would not accept any offer from Austria without having received the sanction of Roumania.
