EATON'S DAILY STORE NEWS

"EATON BRAND" for the Man's Best Suit of Black

Such a suit as a business or professional man would wear on dress or semi-dress occasions.

To meet this demand, "EATON BRAND" Clothing has been tailored of black materials.

Suits particularly suited to the requirements of men who must dress well, yet who practice economy in the matter of clothing expenditure-men who want the biggest money's worth possible in a high-grade suit of clothes.

The designers of these "EATON BRAND" Black Suits have aimed to give them a quiet dignity of style, and in this they have been most successful. The coats have been moulded and padded by hand to secure a snug, perfect fit about the collar and shoulders; the fronts are reinforced with haircloth the whole length; the pockets are constructed on a new system that eliminates possibility of their sagging, and the sewing has been done by hand wherever necessary to insure permanent shape. The materials and linings and the interlinings are all cold water shrunk.

"EATON BRAND" Clothing is 30 low in price because it carries no middleman's profit, and the maker's and retailer's profit, which we combine, we make a
