

HORSE RACING IS BARRED "TRIALS OF SPEED" NOW

Three Acts Respecting Agricultural Shows Introduced by Hon. Mr. Monteith.

Hon. Nelson Monteith's bill respecting agricultural societies was read a first time yesterday. The old Agricultural and Arts Act is divided into three acts, one respecting horticultural societies, a third respecting provincial societies, a third respecting provincial societies. Heretofore agricultural societies were organized according to districts and townships. This system is done away with by the present act, which makes no distinction among societies. Each society will be known according to the place which is its headquarters and at which it holds its annual exhibition. The new act will make it impossible to organize a new society within twenty miles of the headquarters of an old society, except if it is established it will not interfere with the old society. Agricultural societies will be permitted to use their funds for combating insects and weeds should they become a pest in the section. The method of dividing the grant is changed. Heretofore district societies have drawn a grant of \$300 each, while the township societies in each district have divided among themselves the sum of \$400 in proportion to the number of paid-up members.

Grant Divided Pro Rata.
It is now provided that the entire grant of \$70,000 be divided pro rata among all the agricultural societies in proportion to the amount expended in the previous year for agricultural purposes. This is specified in the act as being for the holding of spring stallion shows, prizes for agricultural products, money spent for agricultural and horticultural periodicals, for the importation of pure bred stock, for plowing matches, for seed fairs, crop competitions and good farm competitions, for the destruction of noxious weeds and pernicious insects.

It will not include the running expenses of the society, officers' salaries, or any funds used in paying for special attractions. Information in regard to this expenditure must be set forth by affidavit on or before the first day of March. This will enable grants to be distributed earlier than formerly, so that societies will secure the money long before the shows are held. No society is to receive more than \$600 except in New Ontario, where grants shall be on the basis of double those of the organized counties.

Trials of Speed Allowed.
Regarding horse racing, there is no change, except that a clause provides in case there is a conviction under the act the society shall be debarred from receiving a grant in the following year. This means that "trials of speed" under the regulation of the officers of the society are permitted, but horse racing is prohibited, and any person guilty of a violation of the law is liable to a heavy fine.

Special Grants.
Another new feature is a provision dividing a sum not to exceed \$500 between the shows at Toronto, Ottawa and London, provided the financial returns are made to the minister and the provisions relating to gambling side shows, etc., are enforced. The act goes into force February 1, 1907.

DEFIED COUNCIL WITH PISTOL

Perrault, M. L. A., Determined to Say What He Had to Say.

Montreal, March 27.—An exciting scene took place in the Languet Council last night, when Maurice Perrault, M. L. A. for Charlevoix in the Quebec house of assembly, held the chief of police at bay with a revolver, and defied the mayor and council in his determination to discuss the tramway bill, which the council was considering.

It is claimed the member had no right to speak in the council meeting, and the mayor asked him to desist, and when he refused the chief of police was ordered to put him out.

At this stage he pulled a gun and held the meeting in suspense, and went on talking.

Funeral of George Richardson.
Kingston, March 27.—(Special).—The funeral of George Richardson took place from his residence this afternoon. It was one of the most largely attended funerals held in Kingston for years. The remains were borne to the hearse by six employees. The respect of the merchants in the city was shown by the closing of their stores during the hours of the funeral. St. Andrew's street Methodist Church, where public service was held, was crowded.

Theatre Burned.
Meriden, Conn., March 27.—The Meriden Theatre, the only playhouse in town, was burned to the ground as the result of a blaze which started in a shop of the Horton Printing Company early to-day.

Three firemen were caught under some falling timbers and injured.

A DEAL IN WHEAT.

Toronto Dealers Don't Trade on Understanding of Other Boards.

In a judgment given yesterday Chief Justice Falconbridge, states that although a certain thing may be such and such a thing in the grain trade in New York, Winnipeg, Chicago and Minneapolis, it did not mean it in Toronto. He dismissed the action of the Northern Elevator Company of Winnipeg against the Lake Huron and Manitoba Milling Company.

The action was based upon an alleged conversion by the defendants of 10,000 bushels of wheat, part of a cargo of 65,000 shipped in May by the plaintiff. The question was whether the shipment was made on the New York July wheat scale or on the price of a later date.

"In order that the plaintiff shall succeed," says the chief justice, it becomes necessary to read into this contract the alleged custom that in a sale such as this there is an implied term that the cash wheat must supply the July option. A custom to be binding must be universal. The alleged custom here is stated to be universal, but that expression was qualified by the statement that Mr. Crowe, manager of the Northern Elevator Company, meant New York, Winnipeg, Chicago and Minneapolis. It was not intended that it included Toronto, and in fact Mr. Crowe declined defendant's proposition to arbitrate at Toronto on the ground that the people there were not familiar with that class of trade.

The delegates visited the O. A. C. and inspected the facilities for testing wheat and flour.

JURYMAN WAS WITH WITNESS IS TAKEN OUT OF THE BOX

Conversation Was Not About Case, But Judge Anglin Took Safe Course—Damages Given.

Because he took a drink with one of the witnesses for the plaintiff, James Hoskin, a jurymen in the assizes yesterday afternoon, before Justice Anglin was told that his services were no longer required.

As soon as the court got into action after the adjournment for lunch, Lally McCarthy, counsel for the Toronto Railway Company, addressed the judge, stating that Hoskin had been seen going into a saloon with James McBurney, a witness for the plaintiff. He did not complain, but thought it was only right in the interests of his clients, that it should be known to the presiding officer.

"What have you to say?" asked Justice Anglin of Hoskin, who stood up in the jury box when he heard his name mentioned.

"Just this, your orship," answered the jurymen, "that I wanted to know some business over with Mr. McBurney, we took to the saloon in order to get out of the rain. I will swear that we did not talk of this case nor mention it one way or the other."

Justice Anglin said that perhaps nothing wrong had been done, but he discharged Hoskin from the jury and proceeded with the case with eleven jurymen.

Richard Stokes was suing the Toronto Railway Company for \$3000 damages for an accident which occurred on July 13 last. He was coming east on Queen-street, when a butcher wagon owned by James McBurney, driven by Ernest Atkins, was struck by a car and thrown against him.

The jury, after an absence of about an hour and a half, brought in a verdict for \$1500. The defendant company, in their opinion, had been guilty of negligence in running the car too fast, also in not reversing the car when the butcher wagon was seen to be close to the fence.

Dr. W. J. H. Emory is being sued for \$2500 by Mrs. M. G. Havistick and her husband, Ambrose H. Havistick. On Sept. 30, 1905, Mrs. Havistick was riding her bicycle east on College-street, when she was struck by Dr. Emory's car. She was knocked down, and claimed that she was permanently injured by being run over by the machine. It is stated by the defence that the cause of the accident was the fact that she was carrying a large bundle of laundry, and that it caused the bicycle to wobble so badly that the defendant was unable to pass.

TORREY CONVERTS POLITICIAN

Philadelphia Member of the "Gang" Sees Error of His Ways.

Philadelphia, March 27.—Dr. Torrey achieved the most sensational conversion of his present campaign to-day, when Magistrate James Briggs, one of the pillars of the minor judiciary, and long and familiarly known in downtown Philadelphia, announced that he had become a convert to the evangelists' views. This announcement was made at Bethany Presbyterian Church.

When ex-Postmaster-General John Wansmaker, who conducted the meetings, asked for testimonials, Mr. Briggs was among those who responded. The news of Magistrate Briggs' change of heart excited great interest when it was reported about among his many downtown friends. For many years he has been an active worker in Republican politics of the Twenty-sixth Ward, and has been a staunch adherent of the gang.

MILK CAN UNIFORMITY.
Wholesale Dealers Favor a Standard Can.

The meeting of the Toronto Milk Producers' Association at the Albion Hotel on Saturday emphasized most clearly the unanimity which prevails among the farmers with respect to a standard can. With a view to acquiring the opinions of the wholesalers in the city on the matter, The World yesterday sought out two or three gentlemen largely interested in the trade. "I am heart and soul in any movement," said S. J. Moore, "which tends to bring together in harmonious relations the producer and dealer. Whatever benefits one cannot fail to benefit the other. We personally furnish all our own cans," said Mr. Moore, "and guarantee their correctness. But there is no good reason why there should not be a standard can, stamped with the government seal. The department at Ottawa will have our cordial support."

A leading manufacturer of cans on King-street east and closely in touch with the situation, as applied to York County, declared that the whole trouble would be easily adjusted if the farmers would order and buy their cans instead of leaving the matter in the hands of the dealer. So far as we are concerned, said the manufacturer, we make the cans the way they are ordered. We cannot do otherwise. If they are larger than the ordinary size, which is eight gallons, why, the farmers stand by the larger size. The milk is imported from the United States, and afterward assembled in Canada. There is no good reason why there should not be a standard can instead of the haphazard plan at present in use.

Mr. Campbell, manager of Union Dairy Company, stated that his firm is opposed to the standard can, but would personally prefer to buy by weight as being fairer to all concerned.

TOLD TO REACH AGREEMENT

Port Hope and its Lighting Troubles—The Birkbeck Co. Assists.

In view of the intimate bearing which the question of the installation of a municipally owned electric light plant in Port Hope has upon the clash between the Port Hope Telephone Company and the rural lines that enter into the town, the application made to the private bills committee of the legislature yesterday had a double interest.

Mayor Chalk and councillors together with Ward M. P. explained that the Electric Light Company had retailed on the town for declining to give the low assessment rates, by turning off the lights.

The company's solicitor asserted that the company had since offered to light the streets, but the council would not agree.

The parties in dispute were advised to try to strike a bargain and to report to-day.

A statement as to what disposition would be made of the assets of the Birkbeck Loan Company of London, which is in liquidation, was made to the committee. It was said that 60 per cent on the dollar could be paid equally pro rata to all shareholders, and the non-proportion advanced, that all permanent shareholders pay up their stock in full, and that terminating shareholders of all classes pay up to the amount of their shares. Ward M. P. explained that the Electric Light Company had retailed on the town for declining to give the low assessment rates, by turning off the lights.

A full court of enquiry has been ordered to assemble, and all concerned will be given an opportunity to explain their share in the scandal.

Norman Mackenzie, the Regina lawyer brought over to defend Sinclair, objected to the charge being laid under the section 394 of the Criminal Code, but Magistrate Agnew told Mackenzie that, tho he was not a lawyer, he could proceed with the case in a common-sense way just as it was.

The Mackenzie wanted delay, Mr. Doak, for the Provincial Righters, desired that one material witness should be heard before the court rose. Then it was discovered that the man had been issued for the arrest of the witness, who is the fourth now who has disappeared.

You Need Not Pay Me a Cent
Until You Are Cured

Take my Electric Belt for what it will do for you. Wear it while you sleep at night or while you are resting after your work. You will find it a vitalizer, a tonic to your nerves, a rejuvenator of waning vitality. Use it for any ailment which drugs have failed to cure, and you will never cease praising it.

I claim that I can cure weak men; that I can pump new life into worn-out bodies; that I can cure your pains and aches, limber up your joints and make you feel as fit and vigorous as you ever did in your life. That's claiming a good deal, but I have got a good remedy, and know it well enough to take all the risk if you will pay me when you are cured. All I ask is reasonable security when you are wearing it.

No man can lose on this. If the cure is worth the price you don't have to pay for it until you get it. When you are ready to say you are a big, husky and frisky specimen of vigorous manhood; that you haven't got an ache or pain in your whole body, and that you feel better than you ever did in your life, I get paid. If you can't say it after using my belt for three months, then give me back my old belt and I won't ask a cent.

A short time ago I took a case that I couldn't cure, and I didn't see why, as I had cured hundreds like it. Anyway, my patient returned the Belt and said I hadn't done him any good. He said he thought I had treated him honestly and wanted to pay me the cost of the Belt because it couldn't be used again. I refused, and told him that I had made a contract to cure him or give nothing, and I wouldn't take a dollar I hadn't earned. It is a pleasure to wear

Dr. McLaughlin's Electric Belt
