

## PROBE SYSTEM OF HARRIMAN

His Roads Thought To Be Operating Under Plan Like the Northern Securities.

Washington, Nov. 9.—A general investigation of what is known as the Harriman system of railroads, under the authority conferred by law, is one of the subjects that has been discussed by the inter-state commerce commission. Because of the pressure of work now before the commission and the great amount of labor and time involved in such an undertaking, the matter has thus far been considered only in an informal and tentative way and no final decision has been reached as to when the proposed inquiry shall begin or the methods to be followed in securing information.

The propriety of an investigation of the system has been talked by the members of the commission for some time and that body, it is said, really stands committed to an inquiry.

"We have been informed," a member of the commission said tonight, "that this system, in some of its features, is not unlike the Northern Securities Company, which was dissolved through the interposition of the Attorney-General of the United States."

Any steps which may be taken by the commission along the lines referred to will be, it is said, in accordance with the general powers of the commission conferred by law, and not because of any immediate specific complaint of a violation of the statutes. In January, if time permits, the commission will take up the complaint of the municipality of Spokane against the Northern Pacific, the Great Northern, the Chicago, Burlington and Quincy, the Union Pacific and the Oregon Short Line Railroads, involving alleged discrimination in charging a higher rate for a shorter than for a longer haul.

This complaint was the first filed with the commission under the amended inter-state commerce act. It is regarded as of considerable importance, as its disposition will logically have a bearing on the whole question of transportation in the west from the Canadian border to Mexico, and the Pacific coast. It is also of importance with the proposed investigation of the Harriman system, whose territory and connecting lines cover a large portion of the west.

## THE LORD'S DAY ALLIANCE

Annual Convention of the Organization Now Being Held at Toronto.

Toronto, Nov. 9.—With a good attendance of delegates the eleventh annual meeting of the Ontario Lord's Day Alliance opened today in Knox Church, Rev. George Orman conducting the devotional part.

The principal report was that of the executive, which had been drafted by Rev. T. Albert Moore, general secretary, and adopted by the committee yesterday. It contained a concise summary analyzing the new Dominion Lord's Day act so far as concerns new points affecting the Province of Ontario.

The important points which are said to be a decided gain over the former position of the Province include the following advantages:

That the great railway companies are for the first time put under the laws as to Sunday labor, traffic, and that the entire business of railway news agents on trains is prohibited on the Lord's Day.

Sunday excursions for the object of pleasure are absolutely prohibited.

The employers of lads for distribution of Sunday-imported papers are put under heavy penalties.

Those permitted to work on Sunday are given one full day off during the week.

Advertising anything prohibited by the act, such as theatricals or sports, even though the performances are given in another country.

Any prohibited work in loading or unloading freight vessels is limited to the close of navigation, and in the case of grain, coal, or ore carriers, work must be done before 7 in the morning and after 7 at night.

No freight vessel can start out on Sunday.

Livery hiring is restricted for the personal use of the hirer or his family. This will do away with the tally-ho, so often seen on the streets on Sunday.

Ferries can only operate when authorized by a competent authority to carry passengers on Sunday. This shuts out mere excursion traffic carried on by certain steamers under a ferry license.

The main prohibitory clause forbids not only working at one calling, but doing the work of another for gain. This applies to members of brass bands and singers. These can only perform on the Lord's Day in connection with divine worship or where they give their services free.

The last paragraph, which forbids any action or prosecution for a violation of this act without the leave of the Attorney-General for the Province is said to be not so satisfactory, but the alliance expressed a hope that this section would not seriously hinder the enforcement of the law.

Treasurer's Statement.

The treasurer, Dr. Chas. J. Copp, in his statement showed receipts to be \$6,941, and a balance of \$110 in cash, and \$275 in the bank. The reports of the several branches of the work which were of a detailed nature, were included in that of the executive.

At the meeting this afternoon the president gave his address, which dwelt upon the progress of the work since the organization of the alliance.

Rev. D. W. Snider, of Mount Forest, was appointed minute secretary.

Of all the names given to male dogs in New York city "Teddy" now leads the list in point of numbers.

REMARKS: ELEMENT USED IN PUBLICATION.

# ONE WEEK OF BIG BARGAINS

## AN OPPORTUNITY FOR MAIL ORDER CUSTOMERS

For next week we offer to out-of-town customers these goods at the prices below. Only a limited number of articles are offered in many of the lines, therefore, you would do well to order early.
