members of the council.

Views Coincided.

"We had two or three meetings with the city solicitor, and discussed with the legal points involved. We secured from him advice, which in every instance was in accord with the provisions of bylaw 916, on which any judge would base his decision in the event of any lawsuit which might be brought against the city council or the company. His views were impartial and entirely legal.

A. R. McMaster protested against the Government's action in assisting the papers. It was an unsound prin-

combine of newsprint.

Some of the members of the combine pleaded guilty and were fined \$2,500. As a result of the combine, prices of newsprint had been enormously increased. Manufacturers had made large dividends, of which a large portion had been paid on pure water.

Ottawa, July 4.—The House went into committee this morning on a resolution which provides for an extension of the powers and jurisdiction of the commissioner and controller of paper after the declaration of peace. It also provides for an extension of the authority of the paper control tribunal.

Sir Thomas White explained that the object of the resolution was to enable the commissioner and the paper control tribunal to complete all matters undertaken and determina all questions

Government saction in assisting the papers. It was an unsound principle, he said. He manufacturers working the war and if they made excessive profits, the Government could take it out of them on business and income taxes.

H. C. Hocken declared that if any industries had suffered during the war, if the government was going to start limiting profits, the newsprint manufacturers were good people to start on.

Mr. Richardson said that action had been taken by the federal trade commission of the United States against the limiting and received instructions as to reporting and answering to a roll-call each day. This procedure will be carried out each morning during the strike at 9 o'clock.

The attitude of the rank and file of the men is that they will accept no compromise. They say they have asked for 45 cents an hour as a maximum wage, with the feeling this morning and received instructions as to reporting and answering to a roll-call each day. Here's a Defv To All Fishermen Who

Deputy Sheriff and Friend Challenge the Whole Community.

Deputy Sheriff B. F. Watterworth and J. E. Goble have issued a challenge to all trout fishers from far and near to try to beat them in the fine art of catching the elusive speckled beauties. They are willing to hold the contest at any stream in Middlesex County.

Anyone picking up the gauntlet thrown down by these knights of the rod and reel will have to be very ardent disciples of Izaak Walton to win. for their records for the past two months are no mean ones. Since May 1. the beginning of the trout season, the deputy-sheriff has captured 105 of the finny tribe. On Thursday he caught 28, on Wednesday 5, and on Tuesday 13. Many of these weighed over a pound.

Tuesday 13. Many of these weighed over a pound.

No bright colored flies, either wet or dry were used to lure the fish to their doom. Instead a few of those humble little worms were impaled on a hook. The fishermen did not walk boldly to the edge of the stream and cast their lines in the water, for had they done this their story would have been one of failure. On arriving at the pool they approached the edge in the same manner that a wild beast stalks its prey. All efforts were rewarded when the bait neared the water for from its clear depths a lord of the stream leaped into the air, and another trout had left his haunts, for a home elsewhere.

The last of the Canadian troops in England, with the exception of those engaged in demobilization staff work and headquarters offices are expected, home within the next few weeks.

ARE GOING TO ENGLAND.—Rev. J. T. C. Morris and R. R. Smith, president of the Askin Street Methodist Church Men's Brotherhood, will be England to attend the International Protherhood conference to be held in London from September 13 to 17. It is a world conference, and delegates from all parts of Canada and the United States will attend.

Fearing that the reporter might take a holiday and journey to this sportsman's paradise, the county official and his friend refused to tell the location of the stream in which the fish were In speaking about trout Mr. Watterm speaking about trout Mr. Watterworth said that the season ends for even now they had spawn in them. The season ends on August I, whereas, it is claimed, it should end on July 1, and begin on April 1.
