WITH EASIER TONE

Trading Rather Meagre in Volume at Toronto Ex-

Business on the Toronto Stock Exchange yesterday was very restricted in volume and scattered thruout the list. Little interest was displayed in the proceedings, and as the result of a easier tone in New York, the local list displayed a sympathetic downward tendency. Declines, in most cases, however, were fractional. Duluth Superior was the strong spot in the list, continuing its, progress, selling up from 49 to 50. Dom. Iron was picked up at the recession, the stock being offered down from 66% on the opening to 65%, and rallying to 65 7-8. Cament lost a half point from 63 to 62%. Steel of Canada eased of from 65 7-8 to 65%.

National Steel Car displayed some activity, meeting with selling pressure and selling back to 17% as against 19 the last previous sale. Steamships common went off to 32 7-8, and rallied again to 34. Brazilian was fairly active and easy at 45.

Trading was of the most meagre sort in the afternoon.

TOMMY BURNS CLOSE. On the New York Curb yesterday Tommy Burns common closed at 30 offered and 50 asked; the preferred closed at 100 to 150.

BOSTON CREEK— A WORD WITH YOU

Boston Creek remains the leading feature of the Toronto mining share market, both in activity and

I recommend its purchase by investors by semi-investors for the long pull and large market profits by investors for extraordinary indicated earnings and dividends.

COUNTRY. NOT SINCE THE DISCOVERY AND DE VELOPMENT OF PORCUPINE, WHICH REQUIRED THE BUILDING OF A RAILROAD INTO THE CAMP, HAS THERE BEEN A MINE AND CAMP OF THE NORTH BROUGHT TO PUBLIC ATTENTION WHICH INVITES INVESTMENT AND SPECULATION TO AN EXTENT EQUAL TO BOSTON CREEK, WITH A RAILROAD AND STATION ON THE PROPERTIES.

I believe present buyers of Boston Creek have but to stay with the developments of 1917, as already announced through the management, to see this company push very far on the road to permanent earnings and extraordinary dividend payments. I believe those who buy now and stay with this proposition will count their profits in figures of from 100 per cent. to 500 per cent. And I believe those who buy and await the dividend-paying period, which should not be long in following the inauguration of bonanza ore await this month or next, will have reason to regard their holdings highly for the exceptionally high shipments this month or next, will have reason to regard their holdings highly for the exceptionally high net yields which they will make on the basis of stock purchased anywhere from \$1.25 to \$5 a share. Boston Creek is today the sensation of the Toron to Standard Stock Exchange and the New York Curb Market. Its recent volume of transactions recalls the days when the Porcupine gold issues were active and were advancing in price. On the New York and Tor onto markets the transactions, as shown on the sheet in Boston Creek, recall the heavy and sensational trading the latter part of October in Magma and at an order of the control of

earlier date in United Verde Extension. Buy Boston Creek now. The company has a management with abundant financial and technical means to carry it to success. It represents an expenditure to date of a quarter of a million dollars. The management providing ac commodations to increase the working forces from 50 to 200 and to 2 to 200 men and in the building of a mill to treat the ore on the ground. A large tonnage of the highest grade ore in the north has been developed underground and placed on the dump, and shipments are now about to start which will startle the country with the remarkable sustained showings of values—thousands of dollars to the ton—which will appear in the settlement sheets from the reduction company. The company has developed ore of such fabulous value that it is now estimated that \$1,500,000 already is available. The mine grows richer with depth and has been pronounced by the best experts to have the earmarks of a WHALE OF A PERMANENT BONANZA PROPERTY. There are two big parallel vein systems and the formation has been passed upon favorably by geologists, who are of the opinion that the ore will "go to the deep," just like the mines of Porcupine—like the great deep-vein copper mines of the United States.

I URGE IMMEDIATE ACTION IN PURCHASING THIS STOCK BY WAY OF ANTICIPATING HIGHER PRICES. BUY BOSTON CREEK FOR INDICATED REMARKABLE DIVIDEND RETURNS WHEN THE COMPANY ENTERS THAT STAGE AND FOR IMMENSE MARKET PROFITS.

MARK HARRIS

P.S.-We advise the immediate purchase of Boston Creek Mines, Ltd., stock at going market prices through your banker or your broker, or place your order direct with us at our head office-Standard Bank Building, Toronto, Ontarlo-or any one of our nearest offices, as we specialize on this issue, and are in position to give the earliest and most complete information on the mines. Buy this stock for large indicated market profits and for the promise of an early and permanent dividend-payer.
