end, actual gains extending from three to twenty points.

Assurances received overnight from banking interests that local monetary conditions were fundamentally sound, were borne out by the easy rate for calling ans, which ruled at seven per cent. thrucut the session. Time money quotations held steady, but there were no indications that an advance of interest or discount rates is contemplated.

Stocks that suffered greatest depreciation yesterday were among the first to recover, General Motors, Crucible Steel and affiliated issues, as well as oils, equipments, textiles and the food group being most conspicuous at the firm close. Sales amounted to 1,875,000 shares.

Foreign exchange was not a factor in the day's improvement, the rate on London reacting again, with concurrent reversals in remittances to continental Europe. Reports of further gold exports to South America, and maybe Japan, lacked confirmation

New low records were made by Liberty bonds, first 4's and first 4'k's breaking 2 and 2.40 per cent., respectively, the hardening slightly with other issues at the close. Total sales (par value) aggregated \$22,375,000.

Old United States bonds were unaltered on call.
