Seasonable Suits
\$20.00--Ready Tailored

At \$20.00 and \$25.00, we offer New Suits of unusual merit. To begin with, the fabrics are the products of some of the world's most famous woolen mills, the name of which is in itself a guarantee of quality.

These fabrics, in modish shades and patterns, have been tailored with more than ordinary skill, and the suits embody those small but essential details of style which distinguish them from the commonplace.

They are pleasing the most critical.

 "A GOOD PLACE TO BUY GOOD CLOTHES"

G. P. R. ORGANIZES A TOURIST DEPARTMENT.
 Montreal, June 2—In an attractive, illustrated circular just issued by the G. P. R. the establishment of a general tourist department for the purpose of organizing and conducting train and car parties is announced. The Canadian Pacific has unusual facilities to offer the tourist, owning and operating as it does its sleeping and dining cars, hotels, lake and ocean steamships.

The new department is expected to develop tourist travel. E. Benjamin, the general tourist agent of the company, says that Americans are coming more and more to realize the advantages offered by the G. P. R. as a trans-continental line. Seven special trains of bankers have already been booked, two westward and five eastward en route to and from the convention of the American Bankers' Association to be held in Los Angeles, on October 3. Three trains will come from New York city and others from the central states.

Last year the birth, marriage and death rates in Scotland were the lowest yet recorded.

GREAT SCENIC ROAD UNDER CONSTRUCTION
 Victoria, B. C., June 1—The finest scenic highway in western America for automobilists, drivers, equestrians and all other classes of tourists who scorn the railway's rattle, haste and smoke is now under construction by the British Columbia government. By this time next year it will be completed at a cost of \$4,000,000 for new links of connecting road, new bridges and extensive repairs to established trunk \$1,250,000.

If one takes into consideration the original cost of all sections of the projected through trunk road system, which is to continue for 1,200 miles with but a single unavoidable interruption (where ferry is taken across the Gulf of Georgia, from Campbell river far up Vancouver Island to Crow's Nest Pass, at the summit of the Rockies, the cost will run to many millions. At Crow's Nest this great scenic road and through trunk highway of British Columbia will link up with the road system of the adjoining province of Alberta, which is now being extended up the eastern slope of the mountains to make this important connection.

The Evening Chit-Chat
 By RUTH CAMERON

"LET'S." That isn't a very long word is it? and yet I have an idea the habit of a little "let's" would sometimes save a good deal of trouble. When I asked a nice little woman whose married life is marvelously happy, to kindly give me some of the secrets of this happiness that word "let's" came along to you among other things, she gave the credit to that word "let's."

"Now, you mustn't laugh," she said, "when I tell you that one of the things that made the most difference in our married life was, John's learning to say 'let's.'"

"You see, when he was courting me and when we were first married, I noticed that whenever he had any plan in his mind he would always speak of it like this, 'When we are married, Lacy, I think we will go south on our honeymoon,' and then later, 'When we have the hall done over we will have a much lighter paper.'"

"Usually this suggestion would be something I would entirely agree with. Often it would be a plan for my pleasure, and yet there was something in that calm assumption that I simply couldn't stand. I don't believe that I am any more independent or obstreperous than most women. But I didn't like to have anybody else saying what I'd do or wouldn't do without consulting me at all.

"Maybe you think I was perfectly absurd, but I couldn't help it. That way of John's was something I really wanted to do, just because that way of putting it riled me so.

"Often when he'd say, 'I think, Lacy, we will do this or that,' I'd up and argue against it, even when it was something I really wanted to do, just because that way of putting it riled me so.

"I don't suppose that you will believe it, but we had a perfect tornado one day when John said, 'I'll keep the blankets under the bed.' I wanted them down, because if you take them up people track in a lot of dirt, but the minute he said that, I made up my mind we'd have them up right away, and I was so obstinate and silly about it that for almost the first time since we were married, John got real put out with me.

"It was the best thing that could have happened, though, for it ended in my having a crying spell and weeping what John's shoulder until all the trouble was over and telling him that if he would only say "let's" instead of "we will," I was sure I would be able to do anything he wanted.

"John laughed a little when I got over my crying fit, but he said he'd try, and he did. And now he never thinks of saying anything else when he wants to suggest something.

"A little thing, my dear, I know. But what else is the happiness of married life but a tissue of little things—little things remembered and little things given up, little things said, and little things left unsaid, and little things forgiven.

"Choose a man that says, 'let's,' my dear, or else—teach him to—that's my advice."

And pretty good advice, I fancy.

"While two Frenchmen, Louis Bleriot and Count De Lesseps, have crossed the channel in an aeroplane, it remained for the English to perform the double feat. The distance across between the two points is twenty-one miles, so that his complete round trip between Dover and Calais is ninety minutes.

As the two Frenchmen, Louis Bleriot and Count De Lesseps, have crossed the channel in an aeroplane, it remained for the English to perform the double feat. The distance across between the two points is twenty-one miles, so that his complete round trip between Dover and Calais is ninety minutes.

ROYAL COMMISSION ON INDUSTRIAL TRAINING HAS BEEN APPOINTED
 Ottawa, June 2—The personnel of the royal commission on industrial training and technical education has been announced by Hon. Mackenzie King, minister of labor.

The commission consists of Prof. James W. Robertson, president of the Royal Society for Canada and later head of the Macdonald Agricultural College. He is now in England, but will return at once.

Sydney, barrister and member of the Nova Scotia legislative council, will represent the maritime provinces.

Dr. George Bryce, president of the Royal Society of Canada and principal of the Manitoba College, will represent the west.

G. de Serres, president of the Technical Institute of Montreal, will represent Quebec.

Dr. Joseph B. Berlin, principal of Berlin Collegiate and Technical Institute, will represent Ontario.

G. M. Murray, secretary of the Canadian Manufacturers Association, will represent that body, and James Simpson will represent the wage earners of Canada, having been nominated by the Dominion Trades and Labor Congress.

The secretary and reporter of the commission is Thomas Bengough, of Toronto.

The commission will begin work next month and it is expected they will require a year in which to complete their investigations and make a report. They will commence by making a general tour of Canada and taking the evidence of workmen and employers at all industrial centres. Afterward they will go to the various departments of the government, and also by the fact that the arts students all were graduated in the first division. Prof. Raymond, who was acting chancellor in the absence of Dr. C. G. Jones, who is in British Columbia, remarked on this occurrence, stating that it was the first arts class which to his knowledge had done so.

The class of 1910 contains fifteen graduates in arts, fifteen graduates in civil engineering, four graduates in forestry and one in electrical engineering.

The formal ceremonies attending the graduation being over, the students celebrated informally tonight by observing the time honored custom of firing the cannon and having a bonfire.

The class of 1907 with representatives of other classes, held a dinner in Washington's restaurant this evening to mark the class reunion.

Miss Frances L. Fish, of the graduating class, has been awarded a scholarship in Greek at Chicago University and will go to that institution for a postgraduate course.

ENGLISH BIRD-MAN FLIES OVER ENGLISH CHANNEL AND BACK
 Dover, Eng., June 2—The Hon. Charles Stewart Rolls, captain in the London second of the army reserve, driving a Wright biplane, vindicated Anglo-Saxon aeronautics by crossing the English Channel twice this evening without alighting. He made the round trip between Dover and Calais in ninety minutes.

As the two Frenchmen, Louis Bleriot and Count De Lesseps, have crossed the channel in an aeroplane, it remained for the English to perform the double feat. The distance across between the two points is twenty-one miles, so that his complete round trip between Dover and Calais is ninety minutes.

BUSINESS OF GENERAL ASSEMBLY YESTERDAY
 Halifax, June 2—The Presbyterian general assembly got under way this morning with the guiding hand of the moderator, Rev. President John Forrest, D. D., keeping the ecclesiastical ship steady and in smooth waters. Dr. Forrest has always been a regular attendant at synods and presbyteries. He knows the rules and he is firm. He is good-natured and bright, not too devoted to red tape or ceremonial and does not hesitate to overrule the proceedings with remarks of his own.

The five great matters that engrossed the attention of the assembly today were the statistical report, the report of the committees on Sunday school publications, suggestion and the colleges. In the afternoon, home missions was the chief topic.

There are twelve ministers who seek admission to the church from the communion. Their names were sent to a special committee to look into their qualifications. It is rare that they pass or fail. The committee dealing with this subject, which is in two sections, one for ministers who wish admission under the other for students, is one of those whose inquiries is more or less feared. They are as follows:

Ministers—Dr. Ramsey (convener), Rev. Dr. Bennett, Dr. Ballantine, Rev. D. C. MacGregor, Rev. J. Currie, Professor Bryce, Rev. M. Jack.

Elders—George Rutherford, Hamilton Cassels, James Rogers.

The committee to consider the cases of ten students who wish to have certain scholastic difficulties removed which prevent their receiving license as ministers are as follows:

Ministers—Dr. Abraham, Whitty (convener), Rev. James Binnie, Rev. G. I. Johnston, Rev. D. D. McLeod, Rev. G. A. Woodside, Rev. R. G. MacNeil, Elders—John Lowder, Ed. Brown, Hon. B. Rogers, Dr. I. Thorburn.

The report on the individual colleges was interesting, especially to the friends of each. The most enthusiasm was manifested when the statement was made regarding Westminster, at Vancouver, the progress of which seems to have been remarkable. About \$10,000 has already been raised for the college by the citizens of Vancouver. New professors are being engaged and a boom apparently is on as respects this institution.

In moving the recommendations on the statistical report, urging greater regularity and thoroughness, Rev. Dr. Somerville, the treasurer, sharply rapped some of the presbyteries. They neglect, he said, to furnish ample statistics to show the condition of their work but yet they go to the committees for large grants to help them. They must show what they are doing to help themselves before they need outside help, he remarked.

John Lowder, of Toronto, presented the Stinty school publication's report. Amid applause, he said that we have now the finest lesson helps and papers in the world. There are eleven published with a circulation of over a quarter of a million copies. A new Sabbath school monthbook, a year book and several booklets have been published. The cash balance is \$17,504.

UNIMPEACHABLE—If you were to see the unequalled volume of unimpeachable testimony in favor of Malta-Vita, you would be so long in leaving to take this effective medicine for the blood, disease from which you are suffering.

Once in a great while a man's self respect keeps him from enjoying life.

U. N. B. GRADUATE TO CHICAGO UNIVERSITY
 Fredericton, N. B., June 2—At the entrance of the University of New Brunswick here today the largest class in the history of the institution was graduated. The class is distinguished as containing the first graduates in forestry sent out by the college, and also by the fact that the arts students all were graduated in the first division. Prof. Raymond, who was acting chancellor in the absence of Dr. C. G. Jones, who is in British Columbia, remarked on this occurrence, stating that it was the first arts class which to his knowledge had done so.

The class of 1910 contains fifteen graduates in arts, fifteen graduates in civil engineering, four graduates in forestry and one in electrical engineering.

The formal ceremonies attending the graduation being over, the students celebrated informally tonight by observing the time honored custom of firing the cannon and having a bonfire.

The class of 1907 with representatives of other classes, held a dinner in Washington's restaurant this evening to mark the class reunion.

Miss Frances L. Fish, of the graduating class, has been awarded a scholarship in Greek at Chicago University and will go to that institution for a postgraduate course.

Government Annuities \$545,877
 Ottawa, June 1—The total revenue from the sale of government annuities to May 31 is \$545,877. The number of annuities is 716, and of this number 411 were from Ontario.

Ferry Superintendent Warning
 changed the schedule so that the boat which formerly left the east side floats at 1 p. m. on Saturdays will not leave until 1:30 p. m. during the months of June, July and August. This will give the people of Carleton who work in the city and have the half holiday, a chance to get home earlier.

M. P.'S PAY VISIT TO OIL WELLS OF ALBERT

Moncton, June 2—The members of the local opposition met this morning for the consideration of some matters of further interest to the party. They had with them Hon. C. H. LaBrosse, who arrived by the morning train, as well as C. M. Legere, M. P., who returned from his home. After the session the party, upon the invitation of Hon. C. W. Robinson, visited the oil wells in Albert county, making the trip in the automobiles of Messrs. Robinson and Hon. Mr. Sweeney and F. W. Sumner, who has been much interested from the outset in the development of this wonderful natural resource.

The manager, Mr. Boggs, gave them a hearty reception and after dinner showed the party what had been done to bring this wonderful wealth of oil and gas from the depths of the earth. All those present were amazed at the possibilities shown them, and thoroughly convinced that there had been no exaggeration in the reports concerning the production of oil and gas.

Canadian News Notes
 Moncton, June 2—The estate of the late Adam Tait, of Shediac, was probated this week before Judge F. W. Emmerson. Letters testamentary were granted to his son, R. Chealey Tait, of Shediac. The estate is valued at \$33,000, chiefly personal.

Ottawa, June 2—(Special)—A vein of silver, a sample of which assays \$1,900 ton, has been discovered in a rock quarry, the property of Stewart & Hewitson, Port Arthur contractors, about half way between that city and Fort William.

Winnipeg, June 2—A very heavy snow and sleet storm last night along the main line of the Canadian Pacific railway between Medicine Hat and Calgary, and over the southern part of Alberta, has interrupted the communication between Calgary and the coast. Only one wire is working with Winnipeg.

The storm appears to have extended into the mountains. Three or four inches of snow and sleet fell, pulling down many telegraph wires and seriously hampering train operations.

Ottawa, June 2—In connection with the creation of the international tribunal for control of rail traffic crossing the border to which Chairman Mabee, of the railway commission, has been appointed as Canadian representative, it is possible that some arrangement may be reached by the governments of Great Britain, United States and Canada for a similar tribunal to afford some medium of control of rates both on passenger and freight traffic charged by Atlantic steamship companies.

Liverpool, N. S., June 2—(Special)—A drowning accident took place at the McLeod, Pulp & Paper Company's boom early this morning when Samuel Robar, of Greenfield, Queens county, lost his life. Mr. Robar was employed on the Halloway & Kempton drive of logs. The body was recovered. Mr. Robar was twenty-one years of age.

BLERIOT LOST AND WON
 Bleriot, the noted French aviator, is claimed to have run a fortune in aeroplane experiments before he finally succeeded in flying. When he started the independent fortune which yielded him an income of \$12,000 yearly, and when he made his successful trip across the English Channel he was at the last of his resources. His young wife alone, of all his family, had perfect faith in his flight. Now he has recouped more than his losses, winning sometimes as high as \$20,000 at a single aviation meeting.

The Women's Mission Work
 The sessions of the N. B. and P. E. I. Women's Missionary Society of the Methodist church were continued in Centenary church yesterday. In the afternoon Miss McLeod, missionary under appointment, conducted the devotional exercises, and Mrs. P. S. Enman conducted the Mission Band session. During the service, Miss E. Bettle gave a short talk on the Leontine Committee, and Mrs. Robinson spoke on How to Lead a Man. A solo by Mrs. J. P. Crockett was much enjoyed.

NIGHT TRAINS BETWEEN HALIFAX AND SYDNEY
 Starting from Halifax, June 6, and from Sydney, June 7, the night train service on the Intercolonial Railway will be resumed between these points. This will be good news to regular patrons of the road and to the traveling public generally. The night service proved highly successful last season and a great convenience to the people. It will be possible now for travelers from this city to make connection for Cape Breton points via Truro by leaving on No. 28 at 12:40 or by the night express departing at 2:30. From a tourist point of view, the last is preferable as the journey through beautiful Cape Breton will be by daylight.

enjoyed. Miss H. S. Stewart, B. A., editor of Palm Branch, submitted her report which showed that the total number of subscriptions for the year was 4,708, of which 1,828 were from New Brunswick and P. E. Island. This is an increase of seventeen over last year. After this, graphic word pictures of missions in Canada were given by Mrs. Corbett, who spoke on the French Protestant Home, Montreal; Miss A. O. McLeod, on the Italian Mission, Toronto; Mrs. Groulx, on the All People's Mission, Winnipeg; Mrs. Dawson, on the Galician Home, Edmonton; Mrs. Sanford, on the Waikato and Koloireka, Alberta, and Mrs. Roper on the Oriental Home and School, Victoria. The latter address was read by Mrs. Crosby in Mrs. Roper's absence.

In the evening, Miss Elizabeth H. Alchorn gave an address on the work of the society in Japan. The address was much enjoyed by the large number present. This morning the officers for the ensuing year will be elected as well as the delegate to the board meeting.

KILLS THE GERMS
 Every Woman Can Have Beautiful, Luxuriant Hair
 That Glorious Hair, Radiant and Luxuriant, and Free from Dandruff
 CAUSED BY THE IDEAL HAIR DRESSING AND TONIC
PARISIAN SAGE

Now that the clever women of America, ever anxious to keep their beauty, have learned that Parisian Sage, a remarkable and almost marvelous hair nourisher and beautifier, is almost entirely responsible for the charming hair of the ladies of France, the demand for it has become enormous.

A chemist who analyzed Parisian Sage said: "It is the ideal dressing for the hair. The ingredients are so scientifically combined, that Parisian Sage is first of all a hair grower, because it surely destroys dandruff germs, and nourishes the hair roots."

"Second, it puts life, substance and brilliancy into the hair, which improves the attractiveness of any one."

"Third, it is very delicately scented; is not a particle sticky or greasy, and does not contain one atom of anything that could possibly injure scalp or hair."

Parisian Sage is now sold all over Canada by progressive druggists, who are glad to guarantee it to eradicate dandruff, stop falling hair and itching scalp in two weeks, or money back.

It is the finest dressing for children's hair and puts it where every family can afford to use it. A large, generous bottle for 50 cents. Made in Canada by Gironx Mig. Co., Fort Erie, Ont., who fill mail orders, charges prepaid, on receipt of 50 cents. The girl with the Auburn hair is on every package.

Malta-Vita
 THE PERFECT FOOD

Little children like Malta-Vita but that isn't the best reason for letting them have it. Malta-Vita provides them with all the nourishment their young bodies need, and in such a form that they digest it easily. This perfect whole-wheat food is the ideal food for children. It makes them healthy and robust. There is nothing else so delicious, so satisfying as a bowl of Malta-Vita with milk or cream. It's good for the children whenever they're hungry. Always ready to eat. No cooking. No inconvenience. All grocers.
