The awning was pulled to the sidewalk in quick time, but the pain around the door was blistered in some places, and the canvas was ruined. ALL THREE WITH GOOD WAR RECORDS

The Appointments to the Local Branch of Federal Employment Service.

All three officials named by the city council yesterday morning to look after the affairs of the local branch of the federal employment service have excellent war records.

William J. Ryan, the superintendent, enlisted in 1915 with the Second Canadian Divisional Ammunition Column under Lt.-Col. W. H. Harrison, D. S. O. After serving about a year and a half with that unit in England and France he had attained the rank of sergeant, was decorated with the Belgian Croix de Guerre and was mentioned in despatches. On recommendation of the divisional artillery headquarters he was given his commission and was transferred to the 8th Field Battery of the First Canadian Division, with which he served until the cessation of hostilities. Returning to St. John early in 1919, he was appointed an official in the local offices of the Department of Soldiers' Civil Re-establishment, in which position he has since been employed.

Miss Agnes Sutherland, who will have charge of the women's department, had twenty-three months' service in the field and seventeen months in England. She enlisted in April, 1918, as a nursing sister with the C. A. M. C., and served until August, 1919. During the war she was decorated with the Royal Red Cross with oak leaves and had an excellent record. Before the war she served seven years as a social service nurse in Dundee and Edinburgh and was for four years with the Victorian Order and the Anti-Tuberculosis Society in St. John. She comes particularly well recommended.

W. A. Dougherty of West St. John, who will take up the duties of assistant to Mr. Ryan, is a war veteran with one of the longest service records in the city. He enlisted soon after the war broke out in 1914 and left St. John with the first contingent as a private with the Canadian Army Service Corps. He received his discharge with the rank of sergeant early in 1919 and since that time has been employed with the C. E. R.

OAK HALL - SCOVIL BROS., Ltd King Street.

'Midst all this talk of better homes, why not buy Everett furniture and have better homes?

Formerly fine furniture was a luxury—only the wealthy thought of buying it. The rough pine table and the crude bench of unfinished plank were the typical furniture—not of the poor, but of the average commoner—only three hundred years ago.

What a change! Today even the average home is not considered livable without its period furniture; its mahogany, walnut and fine oak—its tapestry.

Modern equipment for the kitchen is considered a necessity, and the Knechtel Kitchen Cabinet which we handle is the last word in convenience.
