

MOVE TO OUTLAW GAMBLING ON RACE TRACKS

Most of Session of Commons Spent in Discussing Good Resolution—The Senate Thanks France for Vimy Ridge Gift—Today in Parliament.

(By Canadian Press) Ottawa, March 1—The personnel of the parliamentary committee which is to enquire into agriculture conditions in Canada was announced in the House of Commons.

The remainder of the session was occupied by the debate on Mr. Good's anti-betting resolution. He explained that the purpose of the bill was to outlaw commercialized gambling on the race track just as it had been outlawed in all other places.

The resolution was seconded by J. L. Brown, Progressive member for Lisgar.

It was opposed by F. Rinfret, Liberal of St. James, who made an appeal for reasonableness in legislation.

Hon. Dr. S. P. Tolmie also spoke against the resolution. He pointed out the greatness of the British Empire, and asserted that during the long years of its growth the British people had consistently loved and supported horse racing.

A. R. MacMaster, Liberal of Brome, in favor of the resolution, protested against discrimination which made gambling a crime everywhere throughout Canada except on the race tracks.

The debate was adjourned at six p. m., when the House rose until this afternoon.

In the Senate, a resolution thanking France for the gift of land on Vimy Ridge was adopted after criticism of form of agreement had been voiced by Sir James Loughheed and other conservative senators.

The debate on Senator Casgrain's bill to prohibit the manufacture of intoxicating liquor in prohibition provinces is to come up.

Chinese Immigration. Ottawa, March 1—Notice of a bill to amend the Chinese immigration act, to which reference was made in the House a few days ago by Hon. Charles Stewart, has been given in the commons.

BARGAIN BASEMENT DEPARTMENTS SHOW RAPID GROWTH

Bargain basement departments in the large stores throughout Boston and New York have shown a very substantial increase in business during the last year according to S. C. Young, manager of the Oak Hall bargain basement, who has just returned after an extensive buying trip to these centres.

While away, Mr. Young procured many lines of merchandise that have never before been seen in the Oak Hall bargain basement, many of these lines to sell from fifteen cents to one dollar.

These are arriving daily, and Mr. Young is fully confident that they will be able to create such sensations that St. John shoppers will crowd the Oak Hall bargain basement for many days to come.

OUR POLICE WIN SECOND PRIZE

Honors in the Shaugnessy First Aid Competition are Announced Today.

A. C. Skelton, president of the New Brunswick branch of the St. John Ambulance Association this morning received a wire from Dr. Murray MacLaren, M. P., advising him that the St. John police team had won second prize in the Shaugnessy first aid competition and asked him to convey this information to Dr. Magee, president of the St. John centre and Commissioner Thoron of the public safety department.

The prizes were presented at the Chateau Laurier today, Dr. MacLaren said, and he was forwarding the medals by registered mail. He extended hearty congratulations to the chief of police, the police force as a whole and the winning team.

The winning of second place in the competition was no mean honor, Mr. Skelton pointed out, as the local team was defeated only by the R. C. M. P. team at Ottawa and was adjudged winners over teams from all the larger cities of Canada. He said that this news should prove of great gratification to the citizens of St. John, as it was a message to them that in the St. John force we have a body of men who are not only first class in the ranks among the municipal forces in the Dominion. This meant a lot to the people, he said, for in the event of an emergency they could be assured that they would receive expert treatment at a time when perhaps it would be of great avail as the services of a skilled physician. He expressed great pride in the accomplishments of the local policemen and hoped that their success would encourage both themselves and others to further endeavors in the study of first aid.

ROYAL COMMISSIONER ON CANADIAN LOSS AND DAMAGES BILLS AGAINST THE GERMANS.

A Canadian Press despatch from Ottawa says: "Hon. Wm. Pugsley, according to reports in circulation here, is to be appointed a royal commissioner to pass upon claims made by Canadians against Germany for loss and damage through illegal methods of warfare."

Under one section of the Treaty of Versailles, Germany was declared liable for all loss and damage arising out of the war. Another section, however, decided that, having regard to Germany's ability to pay, she should meet claims for loss sustained by civilians. The Canadian government, after the treaty had been signed, called upon all persons having claims against Germany to file them, and also made an account of German property in Canada and placed it under the control of a custodian of enemy property.

The Meighen government in 1921 appointed Chief Justice Sir Douglas Hazen of New Brunswick a royal commissioner to pass upon the propriety and magnitude of claims. Since the change of government, Sir Douglas has ceased to hold the office. Mr. Pugsley, it is now reported, is to succeed Sir Douglas.
