THE PROPOSED PUBLIC PARK.
It is the Globe to see that the project for supplying this city with a public park, but we think that the vast majority of our citizens are in favor of proceeding being done in that direction.

NOTE AND COMMENT.
The Halifax Herald, referring to the sentence pronounced on Watt for killing Torry, says: 'In the matter of St. John, they set a surprisingly low estimate in the value of life.' It is not fair to say that the sentence is too light, as the people of St. John are not responsible for the sentence of Watt, and there are not ten men in St. John who will attempt to justify it.

THE SUN, referring to the rejection of the bill to allow the construction of a railway through the British House of Commons, says: 'The bill of a French invention by way of a French invasion by the sea, is not a very serious military matter. But it is a very little faith in the resources of science that the authorities should be so doubtful as to the possibility of defending our coast by means of the sun.'

THE MONKTON TIMES boasts that the valuation of Moncton for the purposes of assessment is now \$2,200,000, against \$1,800,000 in 1888, and adds that the railway, church and city property together with the exempted factories and other real estate valuation of Moncton is now \$4,000,000.
