Evening Party at the Drill Hall Last Evening Proves a G. and Success.

The perfect arrangements made by the The perfect arrangements made by the Esquimalt and Nanaimo railway com-pany for the vice-regal party's visit to Duncan's Station yesterday, were responsible for much of the enjoyment of dent Order of Good Templars, and the Vansponsible for much of the enjoyating of the trip. A special train, consisting of smoker, first-class coach, private car Maude and dining car was placed at the Maude and dining car was placed at the party's disposal by the railway company. party's disposal by the railway company. Hency the Countess of Alberdeen. We also desire to express our loyalty and Both the interior and exterior of the cars were prettily decorated, the employees having spent much time in preparing for their distinguished passengers. Besides the vice-regal party there were on the train; the Lieutenant-Governor and Mrs. Dewdney, Miss Wilson, Hon. J. H. Turner, Mrs. Davie, Mr. and Mrs. James Dunsmuir, Mr. and Mrs. H. Croft, Miss Dunsmuir, and Mr. Vowell, superintendent of Indian affairs.

The train left Victoria shortly after noon, lunch being served on the way up the line, the train running slow, to al-low the members of the party to see and enjoy the scenery, with which they were well pleased. Duncan's Station and the buildings in the vicinity were gorgeously decorated, and all the inhabitants, including several hundred Indians, were present to welcome the visitors. The Kuper Island Indian band played lively Mr. W. H. Lomas, Indian agent, airs. on behalf of the Indians, presented His excellency with an address. The Governor-General replied as follows:

Your Honor and Gentlemen: Most heartily do I thank you for this loyal and hearty demonstration. We

have looked forward with pleasure to this visit. I think it a great advantage also to have the opportunity of meeting you. We are pleased with your assurance of loyalty. I am glad to learn that you are setting a good example in the way of cultivating the land and following other kinds of industry. You and we the white people are fellow-citizens and fellow subjects-fellow subjects of the illustrious Queen. The Queen is the emblem and representative of our constitutional rights and liberties. We are all settlers in this land, but the Indians certainly are older settlers than we, and therefore it is quite right that their address should come first. I hope we shall all be able to join in increasing the prosperity of this country, and lastly we shall always value this interesting address as a pleasant I shall mention this event, because I know it will interest Her Majesty. Lady Aberdeen is taking some photographs and if they are successful we shall send the school. We are very pleased to hear His Honor the Lieutenant-Governor, Mrs. Dewdney, and the assembled company, we offer our hearty good wishes. His excellency concluded by thanking the band for the manner in which it had rendered the national anthem.

party were escorted to the platform by Mr. Horace Davie, reeve, and Major Mutter, and the following address was tled there and we have thus been kept read:

Sir John Campbell Hamilton Gordon; Viscount Formastaine; Lord Haddo, Methlic, Travis and Kellie; Viscount Gordon of Aberdeen; Baronet of Nova Scotia; Earl of Aberdeen, P.C. LL.D., Etc., Etc., Governor-General of the Dominion of Canada and Vice-Admiral of the same.

May it Please Your Excellency :----

On behalf of the citizens of the District

I should like, if I am not occupying too warm attachment to Her Most Gracious Majesty Queen Victoria, and to offer to yourself the respect due to you as Her first, with reference to the exhibit and Majesty's honorable representative. We hope that Your Excellency's term of office may prove conducive to the continued prosperity of Canada, and be a source of lasting gratification and of pleasant mem-ories to yourself. We shall always appre-clate the warm interest which Your Excel-

lency has taken in agricultural affairs in the Dominion, and we hope for the best the season, prevent a more extended tour of our district and inspection of its varied beauties and resources. Should Your Exellency at some future period again visit this district, we hope that you will be able to travel by an all-rail route, as we think that no distant date will witness the completion of another trans-continental road having Victoria for its terminus, with the Esquimalt & Nanaimo as part of the sys-

In conclusion we request that Your Excellency will be pleased to convey to Lady Aberdeen our highest expressions of esteem and regard for her noble efforts in all that pertains to the elevation and advancement of her sex.

The Governor-General replied: Your Honor, Mr. Reeve, Major Mutter, Ladies and Gentlemen:

Most heartily do I thank you for this address, conveying as it does in most loyal and genial terms a welcome and Excellency concluded by asking for a a greeting which certainly we shall ever holiday for the children attending the remember with peculiar satisfaction. I use the expression not only because of the contents of this address but because this locality and settlement have for long been familiar to us by name and by reputation. The day is not brilliant, but the weather has been fine enough to enable us to be very much impressed by the beauties of the scenery that we have passed through, and secondly by the appearance of comfort and enterprise around us, as well as by the decorations which have been displayed to welcome "s on this occasion. I cannot close

without offering some word of hearty thanks on Lady Aberdeen's behalf and also on my own for the genial references to her contained in your address. (Laughter.) atd. However excellent may be the natural capabilities of the land, there is no doubt of this, that great care and good management are requisite, persistently re-quisite, if you are to make land satisfactory in all respects. It is very pleasant

to see such specimens as these, but the first thing which occurs to me is, at what rate could I produce that and at what rate could I sell it .- You see I am becoming quite commercial. I would also thank the donor of these flowers so kindly presented by a young lady, with whom we may almost claim acquaintance because I knew her grandfather, Admiral Maitland Dougall of Scotland. (Applause.) I am quite aware that in addressing this audience I am probably

speaking to many from the Old Country, perhaps even recently from thence (Applause.) This adds to the interest of the occasion, but I confess it also adds to my sense of responsibility in replying to this address. I notice also the

kindly Scottish—nay, Aberdeenshire— quotation behind us. It has a homelike sound. Again I thank you. His
