

LABOR'S FUTURE

“Keeper Of The Light.”

ORGANIZED Labor is the Keeper of the Light that shines through the Dark Days of Industrial Unrest. “The Get-Together” Brand of Oil throws a far-reaching Gleam. Directed by its “Fiery Finger” the Staunch Craft of Canadian Industry is arriving in Harmony Harbor --- Safe and Sound --- loaded with Made-in-Canada Goods. Labor’s Lamp of Reason is throwing a warning Light on the treacherous Reefs and Shoals of Class Strife. When these Dangers are seen in their True Light, they can be avoided. Labor has turned on the Cold Light of Reason that none may be deceived.

For the sake of Canadian Industry --- and for all classes who thrive by Industry ---- look well to every need of the loyal “Keeper of the Light” ---- and keep him on the Job, Happy, Healthy and Well Content !
