## Can Consumption be Cured?

There is plenty of indisputable evidence to prove that Consumption has been cured even after the symptoms were well defined and the lungs actually involved.

On the other hand, there has always been a point beyond which the disease has been considered incurable. Until a comparatively recent date this point had a place at a very early stage of the malady, but modern scientific discovery and common-sense methods of treatment have gradually moved the hopeless point further and further back, until now the Consumptive is not "given up" until the very last stage of the disease is reached.

Nothing in recent years has done so much to improve the chances of Consumptives as the advent of

In fact, it is claimed that, with plenty of fresh air, sunlight and comfortable surroundings, FERROL has pushed the hopeless point to the limit, that is to say, where these fail the chances of cure are very slim

to expel the disease.

The only possible chance of curing Consumption is by proper nutrition, and FERROL is the only perfect nutrient, because it combines in palatable and easily digested form the very essentials of life-Oil, Iron and Phosphorus.

and all wasting diseases.

down system FERROL is absolutely without an equal.

## PREPARING FOR NEW ANNIVERSARY EXERCISES SCHOOL AT HAMPTON

## Village, Station and Henricks Districts Now Consolidated—Dr. Inch Visits School at Kingston.

HAMPTON, N. B., May 8.-Dr. J. R. Inch, chief superintendent of educa-tion, went to Kingston this morning, and after inspecting the MacDonald school, held a conference with the trustees in regard to the matter of re-ducing, if possible, the expenses for the coming year, so as to lighten the Burden which the ratepayers will have to carry after the expiration of the three years during which the major portion of the funds are supplied by Sir William MacDonald. Suggestions were made in regard to reducing the cost of conveyance and other matters, but it is not probable that much consideration will be given to questions of this nature until the extent of Sir Hall—Farewell meeting V. M. S. William's willingness to make further brovision beyond the three years has

on and conferred with the committee of the two school boards on the matte lidation. It has been decided that the building committee, consist-ing of Messrs, Otty, Flawwelling, Scovil and Langstroth, shall form the porary board of trustees for th with power to exprepriate land r a building site, raise money by the sue of bonds, and all other mat-rs necessary for putting the central school in efficient working order, after which the board of education will call a general meeting of ratepayers for the election of four trustees, which with three to be appointed by the gov rd, thereafter, one member of each

class retiring each year.
The order uniting the village ar station districts has been resc and these with the Henricks district are now consolidated under the pro

The newly created board will at once proced to take action for securing the site selected on the village and station road, on property owned by the estate of the late Samuel Hayward, and in other respects to carry on the duties assigned them under the law.

### ACKNOWLEDGMENT

for I beg to acknowledge, with thanks, a donation of one hundred dollars (\$100) to our building fund by Mrs. Gilbert A. GORDON LEAVITT,

Treas. Natural History Society of N. B.

PAY MORE AND GET THE BEST.

A cheap, fiesh burning corn remedy is never satisfactory. The best is Put-nam's Painless Corn Extractor, costs but a quarter, and is guaranteed to cure thoroughly. Use only Putnam's. CANADIAN CAPITAL IN MEXICO.

(From the Mexican Herald.)
One of the notable features of present day progress in Mexico is the heavy investment of Canadian capital in this country. The Canadian colony in this country. The Canadian colony here is not a numerous one, but its members make up in enterprise what they lack in numbers. They are a most welcome addition to the growing foreign population here. For they bring good sense, industry, and alert minds. It is certainly most remarkable that a country with some 5,000,000 people should be rich enough to finance great undertakings in Cubs. Rio Janeiro, and the City of Mexico. It is, however, well known that the Canadians are, per capita, the greatest buyers of foreign products and wares in the world. Their trade is immense in comparison with their numbers. This, we must explain, is due to their energy and explain, is due to their energy and possession of a country abounding in resources, and to their intelli- the position of caretaker of parliament gent exploration of those natural ele- buildings, lately vacated by the death

FERROL does not kill the germs of Consumption (anything that will do that will kill the patient), but FERROL does the work by repairing the waste tissue, enriching the blood, toning the nerves, in short, by building up the whole system and thus enabling nature

We feel some diffidence in claiming that FERROL will cure Consumption, lest we be misunderstood, but we have not the slightest hesitation in stating that it is an infallible cure for BRONCHITIS, CHRONIC COUGHS, CROUP, WHOOPING COUGH, CHRONIC RHEUMATISM, NEURALGIA, NERVOUS EXHAUSTION, SCROFULA

For restoring lost weight and building up the run-

> In addition recommendations were made covering the New Brunswick Telephone service, the board of health officials and street car fare, and the provincial hospital.

The civic aldermen were formally declared members of the council, and Councillor John W. Long of Lancaster was elected warden. The returning warden, Coun. Cochrane, in retiring paid an eloquent tribute to the late Ald. Millidge and Christie.

The financial report was then read and discussed.

Coun. Cochrane supported the reuest of the hospital commissioners for an assessment of \$38,600 for the ospital. The increase of patients deneed of an up-to-date elevator was also

Coun, Lowell said the \$1.500 for superintendent might be omitted for this year, along with some other details. The committee decided that the laundry extension and elevator could be done away with for the present, and they placed the amount needed a

Coun. Bullock said if one went through the hospital he would thank God there was such an institution. "Hear, hear!"

All modern appliances must be furnished, and he did not think the com-

was nothing in their pockets. Coun. McGoldrick gave some infornation regarding the Owen Jones' fund, an amount totalling \$10,000. The hospital last year only got \$25,000 from

the city instead of the \$30,000 assessed. Thus they had to draw on the Jones bequest, and this must be paid back. If a superintendent were appointed money could be saved in the supplies department. They used to complain that we gave them nothing to eat, that the insects in the food were nur enough to carry it all away and nothing was left. So last year we spent \$10,000 on food.

As a commissioner, he was sure they asked for nothing more than they needed. The government also should increase their grant. The royal commission cost the hospital \$1,800. ..

Coun, Baxter said the finding of the royal commission forced the hospital commissioners to increase their appli-

The Salvation Army asked for a grant of \$1,000, to deal with maternity cases. This should be taken up by the council. The grant of \$1,000 should be made to the hospital commissioners for the establishment of a maternity hospital. He moved the assessment \$30,000 on general account and \$1,000 for the establishing of a maternity

Ald. Lewis said the maternity home had a right to get the grant. He mov-ed an amendment that \$500 be granted to the Salvation home on St. James to finish the upper flat for a rescue home.

Ald. Holder seconded this amend-

Coun. Bullock said the home was nonsectarian, quoting from statistics showing that Protestants and Roman Catholics alike were treated there. The patients are mostly local people. Coun. Cochrane said he appreciated

the work of the Salvation Army, but he felt the precedent was bad. He favored Coun. Baxter's motion. Coun. Sears was wholly favorable to the granting of \$31,000 to the hospital

Coun, Pickett seld salaries in 1904 were \$8,700, and now these are over \$11,000. Why was such an increase made in salaries? Provisions rose from \$7,000 to \$10,000 in a year. At present more patients come from Queens and Kings counties to the hospital than from our own city, and yet the gov ernment pays only \$3,800 and we \$30, 000. The city should be asked for less and the government for more.

The amendment as presented by Ald. Baxter for \$31,000 was put and carried. Four thousand dollars was granted to the board of health. The other amounts were as usual and passed. The telephone service was reduced by two phones. A special committee of the warden,

auditor and secretary was appointed to look into the request of the provincial hospital authorities for an increased

Ald. Lewis reported for the first four months of the present year on the fail labor question. He said the city men could not touch his boys for day labor. This is a sure cure for the drinking habit, and if any of you drink I can cure you sure, and if I can't no one else will ever attempt to do it. He had made Victoria street the best

street in the city, but one notorious erank out there came in his office and abused him. He had done this work for some time, but he felt he must resign and therefore formally tendered his resignation. He begged them not to appoint a small-hearted man in his

vote of thanks to Coun. Lewis for his

### NOVA SCOTIA DEATHS.

WOLFVILLE, N. S., May 8 .- Miss Gladys King, aged 18, a young lady with a large circle of friends, daughter of Mrs. (Capt.) King, Kentville, died on Saturday after an illness of some months, part of which she spent at the provincial sanitarium. Samuel Whitney Harris, son of S. Harris, of Canning, died on Thursday at the Carney Hospital, Boston, of Bright's disease, aged 37 years. Mrs. J. C. Martell of Colchester, and Mrs. T. M. McCormick of Cambridge, are

The death occurred near Berwick on Monday of DeLos Bullervell, eldest son of Captain Bullervell, of paralysis of the brain, aged 15 years. His father had just left for Buffale to take his ship and does not yet know of his loss. The sad news reached Hantsport of the death at Sydney of Mrs. Angivin, wife of the Rev. J. G. Angivin, of pneumonia. Mrs. (Rev.) Lund and Mrs (Dr.) Cochran are daughters, and Dr. years, and he expects to see Nova Scotia a second Pennsylvania, with J. W. Angevin is a son. Mrs. Elizabeth Fish, wife of William

59 years, after a long illness. At Highfield, John M. Benedict, son of George Benedict, died after great suffering on Monday, aged 21 years.

Miss Rose Winnet, daughter of the late Major Winnet, of England, and a relative of Oliver Wendall Holmes, who taught music here some years ago, died at Colborne, Ont., the 5th ult., aged 76 years.

The death of John Fletcher at Windor, aged 24, was most sudden. He was taken suddenly ill of inflammation. His wife was a daughter of John Phillips of Wentworth.

Charles Haley, a well known and much respected citizen of Windsor, had a fatal stroke of paralysis and died on Saturday, aged 66. He was municipal councillor for the township of Hants. Mrs. C. S. McLean and Mrs. William Redden are daughters.

Examinations for admission to the Royal Military College began yester-day morning in the office of Lieut. Col. G. R. White, D. O. C. Only one can-didate is trying the examination, namely Lieut. Domville, 8th Hussars. Major F. H. Hartt and Col. J. E.

## LUM DO NOT ENOUGH GIRLS COME TO CANADA

Most of the Women Arriving Are Already Married.

Complaints of Young Men in the West Are Well Founded One Woman For Ten Men.

(Toronto Globe.) "Out of nearly 14,000 immigrants who have come under our attention since the first of this year, not ten per cent of them have been women and girls, said an officer of the Ontario Immigra tion office on Saturday. would be safe in saying that they did not number more than eight per cent. he continued, "and nearly all of the gentler sex were married women at that," he added. This is one of facts which an hour in the busy in facts which an hour in the busy immi-gration office at the Union Station re vealed. It goes to show, however, that

amusing situation," concluded the offi-cer, "but it is none the less true."

Speaking of the nationality of newcomers, he remarked that nearly all who had come into Toronto and were sent out through western Ontario were from the British Isles. A large number were from the north of Ireland, many from Scotland, and most from the more crowded centres of England. Most of the women and girls were from London and have come out with their husbands and fathers. Quite a number of the Scotsmen were married men, but they with few exceptions, left their wives and daughters home, promising to bring them out later.

As a class of people this year's arri vals are said to be a sturdy lot of men few of whom are past 45 years, and most of whom are between 20 and 35 years of age, and they are fairly wellto-do. Some, it was learned, had considerable money.

(Toronto World.) "I am confident that Nova Scotia is destined to become a great industrial centre in the near future. The province has been destined by nature to become such. It has abundance of coal and iron, is easily accessible by rail and water, is within six days of the British markets, and almost within a stone's throw from the New England coast cities. There will never be any products on the world's markets. All the province lacks is cheap power to drive its industries and already are under way to supply this defi-

This was the opinion advanced by Mr. J. F. H. Wyse, senior member of Wyse and Middlemist, electrical and MONCTON, N. B., May 8.—The death of Thomas Kay, one of the best known and most highly respected residents of Buctouche, occurred at that place this Herald. He had just returned from a morning about four o'clock, after a trip to Nova Scotia, where he had bee week's illness. His death removes one employed by the Maritime Coal, Rail-of the oldest residents in Kent Co., way and Power Company, Limited, to inquire into and report on the comtransmit electricity from Mines to Amherst, Sackville and other

nearby centres. Mr. Wyse sald the scheme was abso lutely practical, and would be rushed ahead. Similar projects had provet very satisfactory in Ontario, and at the present time several were under way among them being a scheme to supply Hamilton and Brantford with power from the Wellands Canal, The Mark time Coak Railway and Power Company intend to build a big electrical generating plant near the mouth of their mines, six miles from Amherst, and transmit power by wire. There are eleven big manufacturing enterprises in Amherst now run by steam at a combined cost of \$16,000. Electrical power could be supplied from Chig-necto Mines for a much lower sum, and still leave the company a good profit on their investment. Amherst manufacturers are enthusiastic over the

Mr. Wyse said that this was only the beginning of the use of electrical power on a large scale in Nova Scotia. This roject would be followed by sevral others, and he believed in a few years the province would enjoy a great industrial boom. Referring to the advantages of elec-

trical power over water power, Mr. Wyse said that water power was often interfered with by droughts, by floods and by ice in winter time. Supply of electrical power would be perfectly. steady. Nova Scotia lacked water power, and therefore this was out of the question. In conclusion Mr. Wyse said he be lieved that Canada will make wonderful strides within the next twenty

### several Pittsburgs within its borders. SELL YOUR COLD FOR \$1?

You surely won't stop at a dollar bill to cure that horrid, sniffeling cold? Go to any druggist and get "Catarrh-ozone" and your cold will be a thing of the past. There is almost witchery in the swift way Catarrhozone kills colds, But when you consider the penetrat-ing, healing and antiseptic qualities of derful. Certainly there is no remedy half so prompt for colds and catarrh as Catarrhozone. Refuse a substitute and insist on having only "Catarrhogone and insist on having only "Catarrhogone". ozone."
