If it was ever in tracts from Provincial journals supply b. g. the Lord horse, doubt as to whether elections have been food for reflection to the mercantile and run in the States into which the element political men of our Province: of Bribery entered, that doubt has now been set at rest. It is proven that enormous sums were spent by both parties among the negroes in North Carolina, and that the majority obtained by the Administration candidate for Governor, besides being otherwise fraudulently obtained, were purchased with money. And now in intelligent Maine, which has been held up as a model for the British American Provinces to imitate, only a few days ago the most unblushing bribery prevailed. The St. Croix Courier says:—

The excitement in Calais election day the company and reserved by the Company and reserved by the Government, there is a further survey of lands which the Company is determined to secure, and as private individuals could have no hopes of contending against them, they will not doubt obtain all they desire. Objections not unmingled with threats were urged against this procedure, and we fear the government have yet an unsolved problem demanding their most serious consideration. of Bribery entered, that doubt has now

The excitement in Calais election day was intense. Single votes sold for \$50 and few were bought for less than \$15. It is said nearly one-half the votes were bought. [From the St. Stephen Courier.] few were bought for less than \$15. It is said nearly one-half the votes were bought.

The statement is corroborated by one which appears in the New York Sun:

No such wholesale, unstinted expenditure of money has ever been witnessed in any election in this country as that just made by the Grant managers in Maine.

There was no limit to the money at their interested. It is known that if negotiations have not actually been entered upon, the basis of a sale or the conditions of a lease, say for ninety-mine years, have been freely canvassed on both sides during the past the past that parties to the Westward are anxious to secure that parties to the Westward are anxious to secure the control of the railroad and branches in which this section is more immediately interested. It is known that if negotiations have not actually been entered upon, the basis of a sale or the conditions of a lease, say for ninety-mine years, have been freely canvassed on both sides during the past
