ward. Coming events, now throwing their shadows
 ss our path, present powerful inducements to renewed and
 asingly intimate co-operation. The prayer of Christ that
 disciples might be one, has been heard, and is now, we
 ot not, about to obtain such an answer as it has never yet
 ved. Amidst these elements of hope, these inducements
 ited action, ought the Baptists of this Province to be in
 rent to the claims of our Society, or to busy themselves
 usively with the concerns of their own immediate neigh
 hood, unconcerned about the denomination at large?
 nor will they, so long as they remain true to their prin
 ciples, and act as those who having but one Lord, one faith,
 one baptism, ought to have but one aim, and to be ani
 mated but by one spirit.

most earnestly do your Committee, in laying down their
 desire that your efforts, being directed by increasing
 om and sustained by augmented zeal, may prove propor
 ably successful in advancing the cause of saving truth,
 anting the bonds of fraternal affection, resisting all en
 chments on religious liberty, and hastening, by a practical
 itution of union, based on scriptural principles and fostered
 he influence of love, the approach of that time when the
 of God shall be done on earth as it is in heaven, and when
 Spirit of Grace, having dispelled whatever is selfish and
 ure, shall shed its benign and tranquillising influence on all
