Boundary Miners Enjoy Big Division of Wage **Funds**

Output for August Considerably Exceeded That of July-More Dividends in Sight

(Special to The Daily News) Phoenix, Sept. 14.-Information ha data regarding the operations of the Dominion Copper Co. in the Boundary has been given out in the east. The statement is as follows:

The low grade properties of British Columbia are rapidly assuming a posi-tion of importance as producers of copper, and among these progressive com-panies is the Dominion Copper Co. Its financial management, which is in the hands of some of the strongest interests York, and the practical man agement of the operating staff, selected v Samuel Newhouse from the staffs o the Boston Consolidated and Highland Boy properties of Bingham, Utah, are fast developing a property which, it is expected, will next year enter the ranks the dividend payers.

Figures from the complete report for pany smelted for the month 18,599 tons of ore, producing 373,304 pounds of coping cost being \$1.65 per ton, the mining cost \$1.51 and the cost per pound of cop-per produced about 9% cents. Between December 1st and January 1st, the man agement will have installed the new fur nace in its smelter, through which i expects to run about 800 tons of ore ent smelter capacity, so that by January 1st, the management expects to produce at least 800,000 pounds of copper per month at a cost of not more than 8

its smelter and mines by steam at cost of about \$140 per horse power pe annum, it will commence this fall to us electric power, at a cost of around \$30 per horse power per annum. This sav-ing in horse power alone will amount to over one cent per pound of copper produced.

company, the Rawhide, which should supply a tonnage, as an engineer who re cently visited the property reports, "running into the millions," will ship on a more extensive scale by the tim the new furnace is installed. The cos of mining the Rawhide ore will be very low, or, as expressed by the same eng neer quoted above, not more than "50 ents per ton." These mining and smelt ing savings should bring the cost of pro ducing the company's copper down to the 8 cents per pound mark, f.o.b

The company is in splendid financial oncition, having all its property and plant paid for, and \$750,000 in cash available for the purchase of other pro-

It is estimated that, for the coming net earnings of the company will b over \$800,000, which would take care of all the fixed charges and sinking fund requirements, and leave a balance of large amount of cash available for urchase of additional properties, improvements, etc., the policy of the ompany will be to pay dividends as soon perations show the same to b minion Copper Co. is: mortgage bon stock \$5,000,000, in shares of

(Special to The Daily News) smelters of the Boundary enjoyed the gest payroll for one month that has en place in this section. August full month, without holidays and of the mines worked 31 days at full Several of the companies have the ach month as the regular payday which is constantly increasing will do the same. The total pay for was distributed approximately as

Following was the approxitonnage output of the several ship-companies for the month of August

C. Copper Co.

Ralph Damp, an engineer under James H. Kennedy, chief construction engineer of the V., V. and E. extension of the Great Northern in this part of British Columbia has been here for a couple of weeks with a party of surveyors, laying out the spur

of that railway whch will reach the Vic-toria shaft of the Granby Consolidated and has about completed the work. The spur will be about a mile in length, start-ing from a point on the present Granby spur, making a long 30-foot cut through the Idaho claim of the Dominion Coppe company and after crossing a branch of Twin creek on a trestle some 300 feet in length, will go through the present site o the large Granby stables, and just below the C.P.R. spur to the Victoria shaft. The necessity of crossing the C.P.R. track will thus be obviated. Mr. Kennedy was struction for J. W. Stewart and company and it is expected that the work of grading will be shortly started, as it will re quire several months to complete, ther

(Special to The Daily News) paid out in wages at the collieries of the Crow's Nest Pass Coal company the larg-est amount in the history of the company, exceeding the June payroll by \$5000. Th

WENT DOWN THE MINES

SPOKANE EXCURSIONISTS VISITED ROSSLAND

CATHERED ORE SPECIMENS FROM DEEP LEVELS.

Rossland, Sept. 14.—The Spokan chamber of commerce excursion arrived here today at 8.30 o'clock. The four long coaches were awkward to handle on the sharp curves in the vicinity of the Big Four and this caused the delay. The corted to breakfast, at the Alian, Orwell, Hoffman, and Watson hotels. After breakfast, some strolled around town, some visited the head works of the mines, while a majority descended into the mines, going down into the deeper levels. Nearly all brought to the surface specimens of ore. At 1 o'clock luncheon was served in the armory where covers were laid for 205, acting mayor lohn Martin, in the absence of his mayor John Martin, in the absence of his worship P. R. McDonald, presiding. Toasts were proposed and responded to at the conclusion of the luncheon, and at the conclusion of the luncheon, at 3 o'clock p.m. the party entrained Northport. As the train moved out, three times three cheers were given for the visitors by the large number of Ross-

LACROSSE IN THE EAST

CAPITALS AND MONTREALS TIE FOR FIRST PLACE

LEADERS PLAY THE TAIL ENDERS THIS AFTERNOON

(Special to The Daily News)
Ottawa, Sept. 14—As the two clubs leading the National Lacrosse union will to-morrow meet the Shamrocks and Nationals, the tail enders in the champ series, there should be no change in the respective positions of the clubs. It is altals will win from the Shamrocks, w the chances of the Nationals against the Montreals are very slim. Montreal and capitals are tied for first place, each Cornwalls last Saturday with a score of 11-1, they were thrown out of champion ship chances by the game lost to the Naonals on Labor day. But for this un expected defeat, Tecumsehs would still be neck and neck with Capitals and Montreal The standing now is.

Capital Poronto National 4 Shamrocks 3 8 0
Games today—Shamrocks at Capital, and

National at Montreal.

The Trent valley canal will be completed as speedily as possible. This work has been going on for a number of years. Two will enable the work to be finishe from Georgian Bay to Peterboro, at a cost of half a million, and another year will complete it from Georgian Bay through to Trenton on lake Ontario.

BURGLARY AT EHOLT

Safe Crackers Secured \$650 From the Union

Grand Forks, Sept. 14-On Tuesday nig last, 11th inst., the Union hotel, Eholt, was visited by burglars. The safe was opened without damage thereto and a sum close o \$650 abstracted. The proprietor, W. S. Torney, is quite certain that the safe was locked by him the afternoon previou when an account was paid out of the money then in the safe, and it is therefore evident that the burglary was done by some one skilled in safe combinations There is no clue to the perpetrators.

KASLO FAIR SUCCESSFUL

C. P. R. as Advertising Medium

Splendid Display of Fruit Reflected Credit on the District-Praise for Energetic Directors

(Special to The Daily News)
Kaslo, Sept. 14.—Success is held to
justify everything, and today, glancing
down the long tables filled with colorsplashed, rosy-cheeked apples, tempting looking pears and plums, great fat yel-low squashes, corpulent beets, and an in-finitude of other vegetables and fruits, to say nothing of the banks of flowers and dainty vases with sweet peas, aster and so on, one felt that success had am fair, and justified also the faith held in

Kaslo may be said to be in a transi tion stage. To the old excitement of the nineties succeeded a period of inaction and apathy, testing the pluck of the people and disheartening not a few. In the basic industry of mining, however, there are not wanting signs of a revival which promises permanence. But today is the special day of the flower and fruit lover, and it is vastly encouraging to see a district, in which during the past land could be had for a song, now realising that its soil and climatic advantages are strong enough to warrant the belief that Kaslo will yet take its place in the front

To Theodore F. Adams belongs not of September a red letter day here. A nature-lover and a keen observer, he has also indefatigable energy and the fac-ulty of enthusing others. Mr. Adams, who is president of the Kaslo Horticultural society; J. W. Cockle, the secre-tary, and the energetic band of direc-tors, must be congratulated on the results of their work. The fair would be credit under any circumstances, but as a first attempt it ranks as one of the best the writer has ever seen. The drill hall, in which it is being held, is a building kind, 40x60 feet, and it is plain that no efforts were spared to decorate it in an effective and artistic fashion. Across the end, in letters two feet high, worked out with crab apples and ash berries are the words "Kootenay Lake, Kaslo, Fruit and Flower Fair, 1906." Ferns, gracefully arranged, sprays of cedar, and festoons of ranged, sprays of county the cross beams made an ensemble which appealed to the visitor, and compensated, or should have done, those who no doubt got many a kink in the back during the previous day

or two's work.

Exhibits were not confined to Kaslo itself. Nelson sent entries and from Howser district, 35 miles away, and other points came atractive-loking fruits of one kind and another.

In the fruit display the most noticeable feature was the big array of apples, a clean-looking, highly-colored lot, of which Kasloites might well be proud. which Kasiotes might well be proud. Special reference might be made to the Yellow Transparents, and Duchess, the large number of entries in which classes and the uniform excellence of the exhibits the judge. Naturally in a first fair many exhibitors were doubtful as to the correct naming of varieties. It was gratifying to note the eagerness of exhibitors to know whether the various kinds the were showing were accurately named or not, and it is quite obvious that one of the chief values of an exhibition of this kind is its educational effect, and stimulating result on the horticul-

In the apple class was a remarkably fine plate of Red Junes, and an interest ing plate of Seedlings grown by Jan Bigham containing specimens from both this year's crop and the crop of 1905. As a keper this unnamed variety give pointers to even the famous Ben Davis A prize was also awarded to a plate of A prize was also awarded to a place of small apples grown by S. J. Towgood of Sandon, at an elevation of 3600 feet above sea level. In the vegetable classes there were excellent exhibits of potatoes and onions and others too numerous to mention individually. One interesting exhibit was a collection of 700 species of butterflies and moths of the district, captured or bred and mounted by J. W. Cockle, who has in all 1200 specimens in his fine collection.

At 1.30 p.m. T. F. Adams, president of

the Kaslo society, introduced mayor Mc-Ann who was to declare the fair formally Ann who was to declare the fair formally opened. Mr. McAnn welcomed all the visitors and congratulated the local officers of the society on this happy result of their first meeting last October. It was a pleasure to note the presence of Mr. Starkey, the president of the Nel-Mr. Starkey, the president of the Nel-son Industrial society, and while there were not a great many exhibits from Nelson he could assure them that Kaslo would send down a collection of fruit ome district. If any doubting Tho the evidences of Kaslo's possibilities in

growing between Ainsworth and Largrowing between Allaworin and Lardeau would be 15,000 acres, and the time would shortly come when they would emulate the best efforts of any other part of the continent. (Applause.) He again extended a hearty welcome to

NELSON, B. C., SATURDAY, SEPTEMBER 15, 1906

in fact all day, left nothing to be desired and, as many of the events in connec-tion with the fair were held out of doors, it was well that the fates were in a smiling mood. In the basehall contest between Kasio junior team and the Nelson juniors the home team came off victorious, beating the visitors in this, the third match, in a score of 15 to 13. At 4 o'clock the crowds lined up to witness the judging of the best decorated baby the judging of the best decorated baby carriage and the best doll carriage.
Mesdames W. Rutherford, Bulger, Clark and Gardner of Nelson, acted as the judges, and had a hard task. The various carriages were most elaboratily and beautifully decked out with ferus, roses, autumn leaves, etc. Very substantial prizes were offered and the winners were as follows: First prize baby carriage, Mrs. Freeman, Kaslo; second prize, Mrs. Talbot, Kaslo; third, Mrs. Rainbow. Kaslo.

Rainbow, Kaslo.

In the doll carriage competition each in the doil carriage competition each carriage had its dell occupant, and the awarding of the prize was so nice an affair as to cause an even break of two and two amongst the judges and anxious appeals were made for a fifth. Finally the list of winners was as follows: First, Jeannie McKinnon, Ainsworth; Second, Margaret Giegerich, Kaslo; third, An-nabel Cockle, Kaslo. A detailed list of the prize winners in

the main exhibition could not be secured in time, but the heaviest winners were John Allan, Alex. Goldsmith, James Speers (who was awarded the blue ribspeers (who was awarded the blue rib-bon for the best single plate, viz.: Red June apples), and J. G. Palmer, all of Kaslo. Wm. Rutherford, the only ex-hibitor from Nelson, won a good share

competition of bannock making took place, one of the most enjoyable and fesof Sundays. Four competitors entered, all prospectors, taught by dire necessity all prospectors, taught by dire necessity and long practice to fix up the bannock to the king's taste, Each man had a sack of flour and his fine wood all ready, and at the word "go" the fun began. Pat Maloney, who apparently had looked on something that was red, got hopelessly embroiled with dough, and stopped to something that was red, got nopelessry embroiled with dough, and stopped to argue with the shouting critics in the crowd. "Turn her over, Pat," they shouted, but Pat's soggy looking affair refused to turn. The judges were J. Fred Hume, of Nelson; E. E. Chipman, of Kaslo, and Tony Becker, of Sandon. won out with his bannock done to a turn, in 16 minutes and 20 seconds. Second prize, W. E. Noble, in 19 minutes and 20 seconds, and third, C. Whellams in 20 minutes. The second stage was the packing contest, when each man had to strike his tent, pack up his flour and paraphernalia, use his overalls for a pack strap and toe the line fifteen fet away. "Lardeau" Jack came in third, Noble winning first in 2 minutes, and Whellams being second.

winning first in 2 minutes, and whel-lams being second.

In the evening there was a potato peel-ing contest, a flower-girls' parade and a concert to wind up. The Kaslo band has contributed to the general enjoyment and the whole affair must be pronounced a success. With the membership fees and success. With the membership rees and the gate receipts the directors state that the financial end will be all right.

A suggestion has been made that the C. P. R. take the whole of the fruit ex-

libit and use it as an advertising med um for the district and the matter may

e considered at once.

The vistors from Nelson included: H. E. Croasdalle, Fred Irvine, P. Lamort, Wm. Rutherford and wife, Mr. Glgot, James McPhee, Dr. Gibson, Nelson aseball team, J. Fred Hume and wife, Frenk Brewer, John Hyslop, H. Selous W. Koch, H. Williams, B. Shannon, A G. Dyer and wife, P. Gordon, Mrs. Clarke Mrs. Gordon Hallet, J. E. Annable. red Starkey Wm.

EARL GREY AT VICTORIA

OVERNOR GENERAL REACHES S ACCORDED AN ENTHUSIASTIC

Victoria, Sept. 14.—His excellency the governor general and countess Grey and party arrived by the D. G. S. Quadra at 4 o'clock today from Vancouver and anned at the C. P. R. dock, A guard of honor from the Fifth regiment received ais excellency with the customary roya salute. After inspecting the guard, th vice regal party entered carriages and drove to the entrance of the parliar puildings, where the civic address of we come was read by mayor Morley. The sovernor general, in his reply, thanked the citizens for their enthusiastic we ome and made special reference to the which had added so much to the enjoy ment of both himself and lady Grey and suite. The party re-entered their carsuite. The party re-entered riages amid the cheers of the throng that filled government square and were driven to government house, the entire route being gaily decorated with flags and bunting and several handsome arches. The city is brilliantly illuminat-

ed tonight in honor of the visitors. LIFE INSURANCE MEN COMBINE Winnipeg. Sept. 14—A surprise was sprung on the public today by the organization of a life underwriters' association, which in-cludes representatives of all straight line companies doing busin as in the west.

IMPRESSIONS

Imperial Bank President on Situation in the Kootenavs

Believes Time Has Arrived for Realization of Earlier Hopes-Has Confidence in Fature of District

The general managers of Canadian and exceedingly cautious in what they say to the press on the business and financial outlook of the country or upon any given subject of public interest. Unlike American bankers, who for the most part represent only a small extent of ter-ritory, the American banks having no branches, like our own, the genera manager of a Canadian bank is obliged to keep a watchful eye all over the do-minion, his bank being more or less directly represented in every part of Can-ada. When, therefore, a general mana-ger of a Canadian bank takes a run over a large section of this country, the impressions made upon him from personal observation, and his views on the business and financial aspect of affairs are well worthy of careful consideration

by the general public.
D. R. Wilkie, who has just spent a day in this city and who is still travelling about the Kootenays, is a Canadian gen-eral bank manager of the broadest and most advanced type. Thoroughly con-versant with all financial affairs and big enough and broad enough to take a keen interest in all that appertains to the public life of the day and the many

the prone line of the day and the hard interests involved.

The phenomenal success attained by the Imperial Bank of Canada, of which Mr. Wilkie is now the president, as well as the general manager, is univerwell as the general manager, is universally admitted to be due in a large measure to the genius of the man, recently appointed by the board of directors to the highest position in their power to fill. Since its foundation in 1875, the Imperial bank has increased its capital from time to time until now it amounts to \$5,000,000, with a rest of \$4,280,000. The bank's total assets on August 31 last amounted to over \$40,000,000, while its deposits in circulation amount to over

\$31,000,000.

The Imperial was the third bank to open in Manitoba, starting a branch-there in 1880. In August, 1892, the Imperial commenced operations in this province, opening a branch in Victoria. In addition to the branch in this city, the Imperial has now branches in British Columbia at Victoria, Vancouver, Cranbrook, Golden, Revelstoke and Trout Lake City. The bank is not particularly interested in mining ventures, but has so far devoted its chief attention rather so far devoted its chief attention rather to agriculture, manufacturing and lumbering, although as Mr. Wilkie put it:
"It is, of course, equally our policy to adapt ourselves to the opportunities and den ands of the community whatever they may be."

Mr. Wilkie reached Nelson after a

ind for the output of the ranches a east of the Rockies you have an unex-austable market for all you can grow. "I am sorry that Canadian capitalists

ave not appreciated to the full the op-ortunities offered for investment in the ticularly of late, American lumbermen are making the most of their chances of getting in here, whilst Canadians have frequently wandered very far afield, instead of looking more closely into, for instance, the lumber industry here.

"The satisfactory growth of business and the satisfactory growth of business ten has been marked particularly in the last two years. Around Nelson on every hand I have found indisputable evidences that the people are happy contented

in our aireasy reacting the continuous many enterprise.

"The bounty granted by the dominion overnment to the silver-lead industry as been helpful in stimulating and steadying the industry and making it possible to benefit by the good prices ow ruling for both silver and lead. Per now ruling for both silver and lead. Personally I would have preferred protection in place of a bounty, but if protection is impossible, I favor the bounty under existing circumstances. I think the bounty should be continued for a cycle of years as this would guarantee the future of the smelting industry.

"A moderate duty on rough lumber would steady the market for that commodity, and place our home lumbermen less at the mercy of financial panics and

less at the mercy of financial panics and crises in the United States. "Eastern Canada does not benefit to he full extent by the great advance in portations from the United States are very large without corresponding crease in exports, owing, of course, to the American prohibitive tariff now in orce. But I do not desire to be n

one very gratefully admitted, that eastern Canada was never so prosperous as at the present time. The harvest has been wonderfully abundant all over the derinion, and this can have only one effect, a most beneficent one, on business or work the effect of the control of the co ness generally, for agriculture is the great foundation for our national pros-

American silver is still in circulation in Canada, the result of which is a corres-ponding reduction in the circulation of our own silver and our own notes. It is almost impossible, now that the encoragement for the export of American a wer by the government has ceased, to obtain change for a ten dollar bill, without being loaded down with American dollars and fifty cent pieces. When it is understood that the intrinsic value of understood that the intrinsic value of the American silver dollar is from 55 to 60 cents it will be quickly seen that our government is losing the difference be-twoen the quoted value and par upon the

"As on my previous visit out here, I have been greatly impressed with the regard for law and order in the west, and particularly in the Kootenays, and this

ves the people here are evidently not driven to excess. You are beyond question a very lawabiding community "It will take back with me to Toronto most excellent impressions of my whole trip and my brief visit to your city has deepened and configured the excellent op-Mr. Wilkie was over in the Boundary

CUBAN CONGRESS MET

SUSTAINED PALMA IN HIS WAR-LIKE COURSE. TAFT TO VISIT CUBA WITH THE

announced that secretary of war Taft will leave Washington for Cuba on Sunday, September 16. He will be accom-panied by Robert Bacon, assistant secre-tary of state. They will go direct to Key West and leave at once for Havana on

Washington, Sept. 14.—It appears that within a short time an effective fleet of eight vessels will surround Cuba and they will be wellmanned by marine contingents making good a deficiency in the present equipment of the Denver. In addition to the Denver, and New Haven, the Des Moines is already cruising the Florida straits. The Marietta probably is at Cienfuegos, though interrupted telegraph lines makes it difficult for her to report. The Dixie, with 300 marines aboard, is making all haste from Guantanamo for the Cuban capital, while in home ports the Tacoma is about to sall anamo for the Cuban capital, while in home ports the Tacoma is about to sail for Cuba from Norfolk, to be followed tomorrow by the Cleveland. The Newark (at the same port) and the Minneapolis at League Island, are taking on stores with all speed under preparatory orders and will be ready to sail when the starting signal comes from Washington.

Havana, Sept. 14.—The extra session of congress called by president Palma completed at one sitting this afternoon the business for which it was summoned, namely, the granting to president Palma of the fullest powers not already constitutionally mossessed by the executhey may be."

Mr. Wilkie reached Nelson after a trip through the Canadian west as far as the coast and referring to the local situation, the general manager said:

"I am very pleased to note the favorable outlook in the Kootenays; you are no longer dependent wholly upon the mines of the district, fruit, cultivation and the lumbering industry now playing an important part. The mines, of course, will provide a home market of the best kind for the output of the ranches and the artillery. These measures which were combined in one blanket bill, were passed by party votes, the liberals and independents refraining from voting and the liberal nationalists voting with the nationals. President Palma submitted a brief message, principally devoted to deploring that conduct of the opposition, whom he charged with the responsibility of causing the rebellion. The message suggested that congress approve all recent executive decrees and take such steps as may be deemed ad-

visable for ending the war.

The president regreted that the first extra session of congress should have been necessitated by a disturbance of public order and said nobody would have experied that within four years after the inauguration of the republic it would have been in the midst of a rebellion threatening the stability of the governent, and causing the sincerity of Cu

Prevention and Treatment of the Most Dreaded Disease

Dr. Moore's Able Address on the Cure of Consumption-- A Local Society to be Organized at Once in Nelson

Tuberculosis, is not only curable, but, f taken in time, is one of the most easily curable of all diseases.

Rev. Dr. Moore, secretary, lectund organizer of the Canadian anti-Tuberculosis association, based his appeal Nelson people, at the meeting in the opera house last evening to join in the general movement to stay the ravage. of the white plague, partly upon the

ren during the day, and last night lec-tured in the opera house in aid of a B. C. association. His worship mayor Gillett presided, and Dr. E. C. Arthur, medical health officer, occupied a seat

medical health officer, occupied a seal on the platform.

In his address last evening, Dr. Moore made a forcible presentation of the ravages caused by consumption, stating that 200 deaths occurred yearly in B. C. from the dread scourge.

In giving some of the causes, the doctor said alcohol was responsible for very many cases. Unsanitary condition, leading a dissipated life, and generally whatever conduced to bring a person's vitality down to a low ebb made that person a likely subject for consumption. However, the consumption, ordinarily does not become hereditory. It is simply a contagious disease and therefore is curable. The germ is found in living human bodies and in those of domestic animals. The germ is produced in vast quantities. The chief cause of contagion comes from the sputum of diseased persons and from diseased herds of cattle. The speaker quoted Dr. Osler's work as The speaker quoted Dr. Osler's work as to the way con could be conveyed through the milk of diseased cows. A farmer living near Philadelphia suspected that come of his cows were infect-

Victoria were the trustees.

In closing an eloquent and able address lasting over an hour, the speaker denounced patent medicine consumptive "cures" and quacks who robbed poor people by offering secret cures.

Dr. Arthur moved, seconded by A. Kerr: "That it is desirable to take steps to reduce the ravages of consumption in this province and to protect our people from the danger of infection.

"It is therefore resolved, that we do now form a society for this purpose, to be known as the Nelson Anti-Tuberculosis society, the said society to be in affiliation with the B. C. society for the prevention and treatment of consumpprevention and treatment of consump-tion and other forms of tuberculosis."

The motion carried unanimously and

rangements were made for another eting in two weeks' time, all churches, meeting in two weeks time, an churches, fraternal societies, and public bodies to be invited to send representatives.

Rev. J. T. Ferguson moved a hearty vote of thanks to Dr. Moore for his inng address and William Ebbs se-

Dr. Moore has just received a letter from an Englishman of high standing from an Englishman of high standing at Hong Kong, saying that the movement to induce a large volume of Hindu enmigration to British Columbia was rapidly gathering force. The Indians are British subjects and can not be prevented from entering this province. Dr. Moore's correspondent could not trace exactly who were the instigators of the wair but unless some steps were taken affair, but unless some steps were taken to stop it, this province would have a second "Chinese flood" on its hands in short order. The matter had started about four months ago and was gaining in force daily. The letter was dated at Hong Kong on July 16, last.
