Regarding the Price of Coal
"Coal price have a tendency to
increase rather than decrease," says
a local coal dealer. The dealers have
been advised that beginning May the
first prices will increase ten cents a
ton. Wholesale, for the following five
months. The price of egg and grate
coal is \$11.50 a ton and nut and stove
coal is \$11.75. When asked how it
was that Brantford had lowered their
rates by fifty cents the dealers stated
that the coal prices must have been
higher than here. Nothing is
definite until April the first, however,
when the dealers expect further word.

Interesting Events in Busy Elmira

The last of the series of Lyceum
concerts took place Thursday eve-
ning in the Theatorium John B.
Ratto impersonator was the artist
and to say that he pleased his au-
dience with his wonderful character
sketches is expressing it mildly. He
fulfilled all promises of his talent
as an entertainer and gave his au-
dience so much of humor and such a
wholesome view of the amusing char-
acteristics of all nationalities that
they enjoyed the evening from the
start to finish. He is undoubtedly
the King of impersonators and a true
artist in his line.

The ladies of the Finance Com-
mittee of the Women's Patriotic League
who have so successfully conducted
this series of concerts are to be hearti-
ly congratulated. They have chosen
artists of high quality and have given
the people of Elmira concerts which
would please even the most critical
of audiences. They have also done
well financially and have a nice sum
to hand over to the treasurer of the
local Women's Patriotic League.

Chocolates

Chocolates consist of the cocoa
beans roasted and placed through a
certain refining process. The
finished product is mixed with
sugar and sometimes fruits, nuts
and liquors in certain attractive
proportion and appearance.
The cocoa alone has a stimu-
lating and nutritious value.
Sugar is useful in supplying
carbon and other element to the
system. The nutritive value of
fruits, nuts and liquors is well
known being concentrated sub-
stances. The combinations
make delight ul nourishment in
