July 13,
1915.

The Director
The Rockefeller Foundation
26 Broadway
New York City.

Dear Sir:

In definitizing the service which this Society is to perform in its study and investigation of the principles and methods of selecting, training, and directing employees, it seems wise for us to learn the extent of the field of investigation covered by organizations such as the Foundation. In this way duplication of work can be avoided.

I should therefore appreciate whatever information you could give me in regard to the work of your organization in so far as it touches the methods of treatment of personnel of business organizations.

Very truly yours,

John N. Hazen
Secretary.
