

INTRODUCTORY.

The Deep-Water Movement.

BY FRANK A. FLOWER,

Secretary and Editor.

The topic assigned to the executive secretary of the I. D. W. A. for the Cleveland Convention—"An Historical and Critical Statement of the Deep-Water Movement"—was intended to give a view of what has been accomplished. He had been unable to make an opportunity for its preparation; besides, the program was so full of better things that it was thought inadvisable to take up any time of the gathering with mere history. Hence the appearance of the executive secretary in the space usually assigned to an introduction or preface.
