ANTS, RED.—Sprigs of winter-green or ground ivy will drive away red ants. Branches of wormwood will serve the same purpose for black ants. The insects may be kept out of sugar barrels by drawing a wide chalk mark around the top, near the edge.

A little quicklime placed in the infested places will drive away any kind of ants. Insect powder, which can be bought at any drug store, sprinkled around the infested place will keep away all kinds of insects.
