**This Engine Will
Cost You Nothing**

You need an engine—get a Gilson on
our new, easy-payment plan, and it will
pay for itself. You have the work for
it to do this fall and winter, help is
scarce and high-priced—save yourself a
lot of worry and enjoy that "feeling

of security" which is such a definite part of the staunch, reliable Gilson Engine.
Gilson Engines have long enjoyed an indisputable reputation for dependability,
power, simplicity and economy. This year finds us with an even more attractive propo-
sition for the discriminating buyer. Prices of everything you have been buying have
been soaring, but, by careful management, we are able to furnish Gilson Engines at re-
markably low prices. Write to-day for catalogue, price and easy-payment plan, stating
what size you are interested in.

Gilson Mfg. Co., Ltd., 259 York St., Guelph, Ont.

**With C.X.L.
Stumping Powder**

It makes ditching easy and
enables one man to do the
work of ten.

Use C.X.L. Stumping Powder to
blow out the stumps and boulders—
to plant fruit trees, to break up sub-
soil. It saves time, money and
labor. Safe as gun powder.

There is big money in agricultural
blasting. Get our proposition.

**"Everyone Said We
Couldn't Do It."**

Writes J. Geldner, of Kit-
chener, Ont. "He further
adds: "We filled and re-
filled a 12-ft. x 40-ft. silo in
16 1/2 hours with a 6 h.-p.
Gilson and an N-13 Gilson
Cutter. The outfit also made
a record in cutting straw, at
the rate of five loads an
hour."

YOU need one of these cutters. It will make you independent of the
Cutter Gang. The two smaller sizes of Gilson Cutters are for
light power—4 h.-p. to 12 h.-p. gasoline. They are farm machines,
the same as your binder and your mower. With a Gilson you can silo your corn at
just the right time—extending the work over several days if you wish, allowing the silage
to settle. The best quality of ensilage is thus secured, without the expense of re-filling.

**Gilson Pneumatic
Ensilage Cutters**

The Gilson is not a one-season machine—it is built for many years of hard service.
It is made entirely of steel and iron, with the exception of the feed table. All five main
bearings are a part of the one-piece semi-steel frame, thus insuring perfect alignment of
the cutting mechanism for all time. The drive is direct, and the power is transmitted
throughout by heavy gears—thus chain troubles are completely eliminated.

The patented safety reverse makes accidents practically impossible. The drum
or casing is steel—not dangerous cast-iron. The wheel is indestructible—steel
bound, with no breakable parts, such as spokes or bosses. It runs at slow speed—
600 to 800 r.p.m.

Every Gilson Cutter has six fans in place of the usual four. This is one of the
reasons why the Gilson elevates in a larger and more constant stream. Also why it
elevates heavy green corn so high with so little power.

WRITE FOR FREE SILO FILLER BOOK. It tells
the Gilson story from start to finish—points out the
advantages of the design, and describes the all-
metal construction in such a way that you will
understand why our machines cut and elevate to
**UNUSUAL HEIGHTS at SLOW SPEED with LIGHT
POWER.** This is a matter of dollars and cents to
you. Send for your copy of this book to-day—
learn all about the "Wonderful Gilson" line of
silo fillers.

Beware of Imitations and Infringements
