HIGGINSON'S SALE OF HOLSTEINS.

Among the many high-class Holsteins to be sold at W. Higginson's sale, at Inkerman, Ont., on Tuesday, November 1st, 1910, are thirty head, bred from the renowned Fletcher stock, which produced the world's champion two-year-old, in the hands of W. H. Platt & Son, of Millgrove, of the great Francy tribe, among them being Francy 2nd, with a milk record of 92 lbs. in one day, and her daughter, Francy 2nd's Blossom, that in twelve months gave 15,571 lbs. milk, that brought, in cash, \$190.85, these being daughters and granddaughters of Francy, whose milk record was 104 lbs. in one day. The Francy tribe to-day stands at the top in Canada, their butter-fat test averaging 4 per cent. This sale will thus offer an opportunity that will probably never occur again of getting representatives of this famous strain at auction prices. Those to be sold that have been officially tested, have records from 12 lbs. for a two-year-old, to 20 lbs. for adults. All are in prime condition, and the young things are an exceptionally choice lot; 67 of them are under four years of age, 18 between four and eight years, 4 over eight years, the balance being bulls. Nearly all females of breeding age are in calf to the stock bull, whose breeding appeared in these columns last week; the balance are in calf to a son of Sarah Jane Hengerveld 3rd, whose official record is 30.30 lbs. butter in seven days. Reduced railway fares will be available, owing to Monday being Thanksgiving Day.

J. SENN & SONS' SHORTHORN SALE

The dispersion sale of the Fairview herd of dairy-bred Shorthorn cattle, to be held at the farm, five miles from Caledonia Station, G. T. R., where conveyances will meet all morning trains on day of sale, Wednesday, November 2nd, will offer an uncommon opportunity for farmers to lay the foundation of a herd of Shorthorns bred on milk-producing lines, breeding that is becoming more popular every day. There will be sold the entire herd, consisting of twenty-six head, including the stock bull, Fairview Chancellor, a red three-year-old son of that noted sire, Imp. Bapton Chancellor, dam Imp. Fairy Queen; also four young bulls from 6 to 12 months of age. Among these are some right good ones, carrying a wealth of flesh. The females are descendants of those famous Bates-bred cows, Imp. Beauty, Imp. Lily, Imp. Julia, Imp. Margaret, and others of the Miss Syme tribe, many of them daughters of Imp. Rosicrucian of Dalmeny, and Imp. Christopher, the younger ones by the present stock bull. Most of these cows are profitable milk producers, some of them extra good. They are generally of the low, thick type, and, as show cattle, have won practically all the firsts hung up at Cayuga and Caledonia for the last two years, and that in pretty strong company. They are a lot of cattle that it will pay to go a long way to attend the sale. The terms are most liberal, 11 months on bankable paper. Catalogues on application to John Senn & Son, York P. O., Ont.
