

Measure up

The path to success in business—even in a grocery business—is the path of common-sense.

And profits don't just "happen!" Even though the dollars come rolling over your counters, don't hand back more than you should in return. Take into your business as a silent partner a Dayton Computing Scale to measure up every ounce of all you sell. It's the ounces and fractions that count.

The "Dayton" is the silent partner to be sure, but none the less a loyal and worthy friend.

Ready and willing from early morning on through the rush time where mistakes would crop up if weights were measured by human eyes and prices figured by the human brain, on into the late evening, tireless, keen, alert, accurate, honest. The "Dayton" never fails to Measure Up.

We have an illustrated catalogue that will help you pick your partner, waiting for your address. Write for it to-day.
