

\$100 For Half Bushel \$100
Of Wheat

\$40 For Half Bushel of Oats \$40

\$25 For Half Bushel of Barley \$25

These prizes are open to every farmer, farmer's wife, son or daughter, in the prairie provinces. The Guide will supply pure seed for one acre free, and whoever produces the best half bushel will earn these splendid cash prizes.

PURE REGISTERED SEED

The Guide has purchased a quantity of pure registered seed from the best growers in the Prairie Provinces; all of them are members of the C.S.G.A. and their grain is guaranteed to be pure in variety, absolutely free from noxious weeds and testing at least 95 per cent. germination. It is high class seed in every respect. Seed consists of Marquis wheat and Red Fife wheat in 20 lb. sacks each; O.A.C. 21 barley in 24 lb. sacks; Victory oats and Banner oats in 20 lb. sacks each. These are the quantities most suitable for seeding one-quarter acre plots. One or more sacks will be given to any individual (under conditions described on this page) absolutely free. The Grain Growers' Guide will hold a Seed Fair in Winnipeg in November, 1917, at which every person who gets one of these sacks may exhibit a half bushel of grain and win the big cash prizes.

Which Is Best?

We are giving away two kinds each of wheat, oats and one of barley. It is open to the individual to decide which is best. There are equal quantities of Fife and Marquis wheat grown in Western Canada. Marquis has been coming to the front very rapidly, and Seager Wheeler and Paul Gerlach both won their world prizes with Marquis wheat. In many sections, however, Fife wheat has been found to be more hardy and a better producer than Marquis and is claimed by some to have better bread making quality. Marquis is generally a little earlier and in the past season is claimed to have stood up against the rust better. Both grade the same under government inspection.

O.A.C. 21, six-rowed barley, is by all odds the best barley grown in Western Canada. Prof. Bracken, on the University Farm at Saskatoon, produced 72 bushels per acre this fall in his field of O.A.C. 21. Those who want to grow barley profitably should get some of our registered seed.

Prof. Bracken finds Banner Oats to give best results, with Victory a close second, while Seager Wheeler has found Victory to give best results, with Banner next best. These are the two leading varieties of oats which have stood the test of time. The demand for them is far greater than for any other variety and it pay any farmer well to grow registered stock.

\$500 IN PRIZES \$500

Rules of Contest

- 1.—Any person who will collect two subscriptions to The Guide (new or renewal) at \$1.50 each and forward the \$3.00 to The Guide Office will be entitled to one sack of either variety of wheat, oats or barley, described on this page, free of charge.
- 2.—No person may earn more than three sacks of any one variety of grain, but to every one who earns three sacks The Guide will donate a fourth sack free of all charge.
- 3.—Any number of members of the same family may enter and earn this grain on an equal basis.
- 4.—No person will be allowed to forward his own subscription and count the same towards earning a sack of grain.

Just Think This Over!

We have prepared illustrated literature describing our seed and the benefits that will come from growing it and more details of our Seed Fair. However, the terms upon which this seed may be earned are described on this page. Any person who wants to secure it should fill in the attached coupon at once and mail it, and by return mail full particulars and supplies will be sent. **IMPORTANT**—Only paid-in-advance subscribers or a member of a household where there is a paid-in-advance subscriber will be allowed to earn this pure seed. If, therefore, your subscription is in arrears, send in \$1.50 with the coupon to put you in good standing.

**How many hairs?
has a Bear?**

We doubt if there is any person in Canada who is not interested in Furs, and who does not admire their beauty, softness and warmth; but how many have ever thought of the great number of hairs required to cover a skin to produce this warmth and softness?

The actual number of hairs on any given skin can be actually determined by mathematics and an abundance of patience.

We have cut a piece out of a black bear skin, one inch square in size—have scaled and deposited it with the bank and are giving

\$300.00
IN PRIZES

to the 64 persons who are nearest correct in their estimate of the actual number of hairs on that one square inch of black bear skin.

This contest is entirely free to every one who complies with the conditions, and we might frankly state that the sole object of this contest is to familiarize as many people in Canada as possible with the wonderful bargains they can secure in stylish guaranteed Furs and Fur garments, through Hallam's system of dealing direct "From Trapper to Wearer".
