

by day's pay or special contract until normal conditions prevail.

Local Conditions

DOCKAGE:

The dirt or slate or other impurities picked from coal going over picking tables or screens shall be weighed for a period of 12 working days. From this method of weighing the average weight of waste contained in each mine car will be determined, and form a basis of deductions per car in favor of the Company; or, in other words, presuming that the average dirt taken from each car equals 17 pounds, then the Company will have the right to deduct from the weight of each pit car 12 pounds, to compensate them for hauling and handling of waste. If the average of waste in each car does not exceed 5 pounds per car, there will be no deductions made for waste, the 5 pounds per car being considered a reasonable allowance per car for slate or waste the miner or loader cannot consistently pick out from the different kinds of coal.

If the average weight of dirt in each car exceeds 17 pounds, or runs below 17 pounds, the difference between the actual average weight of dirt in each car and the 5 pounds per car allowance shall form the basis of allowance for waste.

It is further understood that this system of weighing the average dirt sent out in each car may be checked at either the request of the miners or the Company at any time during the life of this Agreement.

Further, should the dirty coal or slate sent out by the miners exceed the allowance above
