

# THE WEEKLY ONTARIO

## AND DAY OF QUINTE CHRONICLE

ESTABLISHED 1841

BELLEVILLE, ONTARIO, THURSDAY, OCTOBER 14, 1920.

MORTON & HEGRITY, PROPRIETORS

### GEORGES CARPENTIER SCORES KNOCKOUT, DEFEATING BATTLING LEVINSKY IN THE FOURTH

GEORGES. . . . .  
Frenchman Had Better of Heavy  
Round, Putting American Down  
Twice in Second and for Keeps in  
Fourth.

JERSEY CITY, N.J., Oct. 13.—  
Georges Carpentier, the French  
heavyweight, made his initial bow  
as a fighter before an American  
gathered a throng of pugilists to  
night and knocked out Battling  
Levinsky, who held the United States  
light heavyweight title, in 47  
seconds of the fourth round.

Early in 1918, Jack Dempsey, who  
subsequently won the world's heavy-  
weight championship, knocked out  
Levinsky in three rounds at Philadel-  
phia. Tonight he failed to equal  
Dempsey's time, in finishing Levins-  
ky, but he is the only one outside  
of the champion who has knocked  
out Levinsky since the latter became  
prominent as a fighter.

Weather conditions were conduc-  
ive to the comfort of the spectators,  
many of whom, however, took the  
precaution of bringing overcoats, or  
wraps to protect them through a  
lengthy sitting in the open air.

When the first of the preliminary  
bouts was called every seat in the  
park was occupied and a fringe of  
humanity lined the boundaries of the  
outfield.

Carpentier with his manager and  
seconds entered the ring at 8.55 and  
received a welcome of hearty cheers,  
to which he responded by bowing  
graciously several times. Levinsky  
followed two minutes later and then  
the men were formally introduced.  
Announcer Humphries stated that  
they were to fight twelve rounds for  
the light heavyweight championship  
of the world. A corps of photo-  
graphers then began snapping pic-  
tures of the men as they stood to-  
gether in a neutral corner of the  
ring.

Carpentier's weight was announced  
as 170 pounds, and Levinsky's at  
175. Harry Erle of Jersey City was  
introduced as the referee for the  
main bout.

The men shook hands at 10.20.

First Round.

Carpentier led left and right,  
landing lightly. Levinsky sent left  
and right to the body at close quar-  
ters. Carpentier landed a hard right  
on the forehead and blooded a right  
clearly. Carpentier sent right and  
left to body. Levinsky countered  
right on head. Carpentier crossed  
his right to face and hooked left to  
stomach. Both were very cool and  
sparring at bell. Carpentier's round  
Round Two.

They exchanged body blows. Car-  
pentier stood off and motioned Le-

vinisky to come in. Carpentier sent  
right and left to face. Then drove  
his right to head and followed with  
left and right to the jaw, sending  
Levinsky down in his corner for a  
count of eight. Again with stiff lefts  
and a right wing to head Carpentier  
sent Levinsky down again for another  
count of eight. Levinsky was grog-  
gy, but weathered out the round.

Round Three.

Carpentier rushed and landed his  
right to head, Levinsky clinched.  
Carpentier missed right and left for  
the head. Levinsky jabbed three  
lefts to face and Carpentier swung  
right to head. Carpentier hooked  
left to face and showed up a bit  
while Levinsky kept him off with  
light lefts. Carpentier was waiting  
for an opening when the bell rang.  
Carpentier's round.

Round Four.

Both Fiddled for thirty seconds.  
Then Carpentier drove Levinsky  
across the ring, landing lefts and  
rights at will, finally sending Levins-  
ky down in a corner for the full  
count. Levinsky was not unconscious  
but he was tangled up in a corner  
on the ropes while he was counted  
out. Time of round 1.07.

Carpentier and Dempsey.

Taking a line through Levinsky,  
Carpentier has earned the right  
most Dempsey for the world's cham-  
pionship.

Levinsky was in splendid condition  
and so was Carpentier. From  
the start of the first round, when  
the Frenchman began to cut loose,  
the outcome was inevitable. The  
Frenchman was the aggressor and  
received the lion's share of the  
applause.

Carpentier was levinsky to the floor  
of the ring with hard right crosses.  
During the third session Carpentier  
slowed up a bit and seemed un-  
decided as to what his next move should  
be. When he did start after his man  
however, he used both hands power-  
fully and Levinsky, who always was  
credited with being able to absorb  
punishment, was visibly weakened.

In the final round Carpentier sim-  
ply battered Levinsky into submis-  
sion and when the bell fell he  
was unable to get up while Referee  
Erle counted him out.

Levinsky was badly punished,  
while Carpentier did not show a  
mark when he left the ring.

With city and federal officials ad-  
mitting they connived to supply  
Democratic convention delegates  
with 40 barrels of whiskey, in vio-  
lation of prohibition law, the federal  
prohibition situation in San Fran-  
cisco has reached sensational pro-  
portions.

### MAN O' WAR WINS GREAT MATCH RACE FOR RECORD STAKE

Carries Off \$75,000 and Gold Cup at  
Windsor, Beating Canadian-Owned  
Sir Barton with Ease and Proving  
Himself Greatest Race Horse  
on the Continent.

WINDSOR, Oct. 12.—Sam Riddle's  
Man O' War, champion three-year-old  
of America, won the thirteenth cham-  
pionship of the American continent  
this afternoon from Sir Barton, own-  
ed by J. K. Ross, over a course of  
a mile and a quarter at the Kenil-  
worth track. Man O' War's time was  
2.03.

The victory netted his owner a  
\$75,000 purse (American money) and  
a gold cup donated by the Kenil-  
worth Jockey Club, valued at \$5000.  
Approximately 30,000 people saw the  
big race. Man O' War broke the re-  
cord for the track by two and two-  
fifths seconds. The track record  
was 2.05-2.5. The American track  
record for the mile and a quarter  
distance is 2.00. Man O' War was  
ridden by Jockey Clarence Kummer  
and Sir Barton by Frank Keogh.  
Man O' War bounded to the front  
when the barrier was released, and  
was rated at a fast pace the entire  
trip. Keogh went to the whip be-  
fore they had gone a quarter, but  
was unable to improve his position.  
The winner was well in hand at the

finish. The fractional time exceed-  
ingly fast. The first quarter was  
stepped in 23 seconds flat, the half  
in 46 2-5, the five-eighths in 59 1-5,  
the three-quarters in 1.11 4-5, the  
mile in 1.37 2-5, and the mile and  
a quarter in 2.03. Man O' War was  
never headed and won by seven  
lengths.

A Hollow Victory.

It was a hollow victory which Man  
O' War won with ridiculous ease by  
seven lengths. He made all of his  
own pace leading from the rise of  
the barrier, and winning in hand by  
seven lengths from Sir Barton, in-  
cidentally, he established not only a  
track record, but a new Canadian re-  
cord for the mile and a quarter, when  
he ran the distance in 2.03. The  
former Canadian record for the dis-  
tance was 2.04 3-5 made by Captain  
Swanson over the Hamilton track  
several years ago. The previous  
track record was 2.05 2-5, made by  
Old Honesty.

It was no long-sared mule that  
Man O' War defeated, but a splendid  
game horse, over a distance that he  
liked. They carried weight for age  
—the winner 130 pounds, and the  
loser 126. Both have followed the  
last furlong trial in 2.01 4-5 with  
129 pounds up at Saratoga.

### CELEBRATED FIFTIETH ANNIVERSARY

The home of Mr. and Mrs. John  
Dixon, near Frankford, was the scene  
of a happy event when their nearest  
relatives assembled to celebrate with  
them the fiftieth anniversary of their  
married life.

Mr. John R. Dixon and Mary Ann  
Rose, daughter of Harmon and  
Mary Rose of Sidney were married  
the 3rd day of October, 1870, at the  
parsonage on the 3rd con. of Sid-  
ney by the Rev. Mr. Leaver.

Mr. and Mrs. Dixon were both born  
in Sidney and have lived here all  
their lives and are now living at  
Mrs. Dixon's father's old home, hav-  
ing lived there for the last thirty  
years.

The Rev. I. Spell of Frankford,  
called the guests to order by a few  
fitting remarks to the aged couple  
and wishing them bon voyage through  
the remainder of life.

He then pre-  
sented Mr. W. H. Nobes, who read  
an address and Mr. T. H. Ketcheson  
presented the purse of gold.

The address follows:

To Mr. and Mrs. John Dixon,  
Dear Friends,—We, of the inner  
circle of your immediate relatives,  
have met in your home tonight to  
celebrate with you the fiftieth anni-  
versary of your wedding day, and to  
extend to you our greetings, and our  
best wishes for your future happi-  
ness.

Comparatively few couples are  
spared to enjoy each others compan-  
ionship for so long a period. To the  
many the voyage of life is fraught  
with affliction, sorrow and bereave-  
ment; to the few it is serene and  
peaceful throughout.

We congratulate you on being  
among the few into whose lives no  
great overwhelming sorrow has come  
You were born and during your  
whole life-time, have lived in this  
immediate vicinity, and by your up-  
rightness and straight forward man-  
ner of life, have won the esteem and  
respect of all men, and a good name  
which is far better than riches.

The true success of a life is not  
measured by wealth accumulated but

by character formed and service ren-  
dered. This idea has been expressed  
by the poet as follows:

"Who doeth all he can of good  
In nation, state or neighborhood,  
And evil doeth none,  
No matter what his wealth or fame  
No matter what his rank or name,  
Success has truly won."

Both of you have not only lived  
your three score years and ten but  
have nearly completed the four  
score years, and as the shadows of  
"life's little days" are lengthening,  
we, your nearest friends, desire to  
bring something of cheer into your  
lives and to make you feel you are  
not forgotten by us.

We ask you to accept this small  
purse of gold, not as a gift, but as  
a token of our regard for you, and

signed on behalf of your kinfolk,  
W. H. NOBES.

Mr. Dixon made a suitable reply  
and after a few speeches and singing  
"Blest Be The Tie That Binds" re-  
ceptions were served.

The guests present were:—Mr. and  
Mrs. T. H. Ketcheson, and daughter  
Edna, Mr. and Mrs. John Rose, Mr.  
and Mrs. Kenneth Paul, Mr. M. Sine,  
Eva and Gerald, Mr. and Mrs. J. A.  
Leit, of Sidney; Mr. and Mrs. J. J.  
Murray, Mr. and Mrs. Perry Sine,  
Mr. and Mrs. J. Kierman, Mr. and  
Mrs. N. Foster and Mrs. Geo. Rose  
of Frankford; Mr. and Mrs. W. N.  
Badgley and son, Perry, of Thorlow;  
Mr. W. H. Nobes and Leighton and  
Mr. and Mrs. Edgar Lane of Wall-  
bridge; Mrs. Ira Scannell, of Tren-  
ton, and Mr. and Mrs. Sickle of  
Glen Miller.

Mr. and Mrs. Dixon, although over  
80 years of age are both in compar-  
atively good health and Mr. Dixon  
can do a pretty good day's work yet  
and seem hale and hearty.

The party broke up about eleven  
o'clock, all wishing Mr. and Mrs.  
Dixon a peaceful voyage through the  
remainder of life.

### MR. AND MRS. JOHN DIXON

we sincerely pray that He, who has  
sustained you through life, will con-  
tinue to be your guide and support  
even unto death.

Other speakers at the congress  
were the Rev. John T. Paris, D.D.,  
of Philadelphia, who discussed possi-  
ble co-operation between secular  
and religious educational agencies  
and the Rev. Rufus W. Miller, D.D.,  
of Philadelphia who spoke on the  
community as a social center and its  
responsibility in guiding the relig-  
ious education of youth.

Legitimate as this desire is, when  
all one's pleasures are found outside  
the home circle the family life from  
the standpoint just now under con-  
sideration must consequently suffer,"  
he concluded.

Reds Successful  
All Along the Line

(Special 4 p.m. Dispatch from Cana-  
dian Press Ltd.)

LONDON, Oct. 13.—Successes for  
the Russian Soviet forces all along  
the line from the south of Minsk to  
the Crimea are reported in the Rus-  
sian Soviet official announcement on  
Tuesday, received here today by  
wireless. Annihilation of two com-  
panies of a Polish division in the  
Alexanderovsk district of the Crim-  
ean front is claimed in the state-  
ment.

Evangelist Alexander  
Died Suddenly Today

BIRMINGHAM, Oct. 13.—Charles  
McCallum Alexander, an evangelist  
known throughout the world, died  
suddenly at his home here this  
morning. He was born in 1867 at  
Maryville, Tennessee. He accom-  
panied Rev. Dr. Torrey over an evan-  
gelistic tour of the world which took  
from 1897 to 1906. A year later  
he toured the world with his wife,  
formerly Miss Helen Cadbury of  
Birmingham.

A LARGO POTATO  
Mr. Sylvester Hills, Burton Street,  
showed the Ontario today a "gud"  
which he grew in his garden, that  
weighed 1 lb. 10 oz. He says that  
he did not know the name of the  
particular tuber family but gave us  
the information that it was the largest  
potato he has grown in 40 years.

G.T.R. Increased Wage  
Agreement Signed

TORONTO, Oct. 12.—The agree-  
ment covering increased wages for  
Grand Trunk railway clerks, freight  
handlers, station, store and certain  
shop employees was signed yesterday  
by General Committee representing  
these employees and Mr. Bowker,  
representing the Grand Trunk rail-  
way, according to a statement issued  
this morning. Increase in wages to  
clerical employees will in some cases  
amount to as much as fifty dollars  
per month over raise in effect on Jan.  
1st. Higher rates are thought about  
by pooling total increases to all the

### Failure of Home Life Responsible for "Social Unrest"

Says Rev. W. E. Biederwolf, D.D.,  
in an Address Before World's  
Sunday School Congress

TOKIO, Oct. 12.—Failure of home  
life, and not the failure of the  
church, was held to be responsible  
for the "social unrest, the sin and  
crime and shame that abounds on  
every hand," said the Rev. W. E.  
Biederwolf, D.D., of Chicago, in an  
address before the World's Sunday  
School Congress here tonight. The  
speaker charged that "25 per cent.  
of the ministers of America do not  
themselves maintain family worship  
in their own homes."

"A wise teacher of ancient times  
said: 'Give me a single domestic  
grace and I will turn it into a hun-  
dred public virtues,' declared Dr.  
Biederwolf, "and I wonder, if we  
were to attempt to write the story  
of the deplorable legacy to which  
we have fallen heir, if it would not  
be to tell the history of fallen altars  
and desecrated shrines and, to no  
little extent, of an apostate clergy.  
A missionary who had been absent  
for America for twenty-five years,  
said when he came back on a fur-  
lough: 'When I went away almost  
every Christian home had its family  
altar, now I find it is the exception  
and not the rule.'"

The causes for the decadence of  
family worship were set forth by  
the speaker as follows: "First, the  
quickening of a man's natural ten-  
dency to skepticism, so largely in-  
duced in this day by subtle and some-  
times open attack on the fundamen-  
tals of his faith in press, in univer-  
sity and infrequently in pulpit. The  
first point at which spiritual decay  
manifests itself is invariably in the  
neglect of family worship, if indeed  
it even so much as held a place in  
the life of the home."

"Second, the nervous, feverish  
rush of modern life, evidenced by  
the inordinate absorption in mater-  
ial interests. Modern life is a dash  
through a crowd. A man hardly has  
time to stop and tie his shoe-string.  
It is a race to keep pace with steam  
and electricity."

"Third, the disruption of the fam-  
ily union." The latter was caused,  
said Dr. Biederwolf, "first, by the  
prevailing method of education which  
practically removes boys and girls  
from immediate and continuous par-  
ental influence in spiritual things  
for a period running between the  
ages of seven and twenty-one, and  
second, by the excessive pursuit of  
pleasure."

"Legitimate as this desire is, when  
all one's pleasures are found outside  
the home circle the family life from  
the standpoint just now under con-  
sideration must consequently suffer,"  
he concluded.

Other speakers at the congress  
were the Rev. John T. Paris, D.D.,  
of Philadelphia, who discussed possi-  
ble co-operation between secular  
and religious educational agencies  
and the Rev. Rufus W. Miller, D.D.,  
of Philadelphia who spoke on the  
community as a social center and its  
responsibility in guiding the relig-  
ious education of youth.

Legitimate as this desire is, when  
all one's pleasures are found outside  
the home circle the family life from  
the standpoint just now under con-  
sideration must consequently suffer,"  
he concluded.

Reds Successful  
All Along the Line

(Special 4 p.m. Dispatch from Cana-  
dian Press Ltd.)

LONDON, Oct. 13.—Successes for  
the Russian Soviet forces all along  
the line from the south of Minsk to  
the Crimea are reported in the Rus-  
sian Soviet official announcement on  
Tuesday, received here today by  
wireless. Annihilation of two com-  
panies of a Polish division in the  
Alexanderovsk district of the Crim-  
ean front is claimed in the state-  
ment.

Evangelist Alexander  
Died Suddenly Today

BIRMINGHAM, Oct. 13.—Charles  
McCallum Alexander, an evangelist  
known throughout the world, died  
suddenly at his home here this  
morning. He was born in 1867 at  
Maryville, Tennessee. He accom-  
panied Rev. Dr. Torrey over an evan-  
gelistic tour of the world which took  
from 1897 to 1906. A year later  
he toured the world with his wife,  
formerly Miss Helen Cadbury of  
Birmingham.

### SLIGHT IMPROVEMENT IN POWER SITUATION

Flow of Trent River Shows a Small In-  
crease and Hydro Officials Are Hopeful  
That Conditions Will Improve—Deputy-  
Minister Bell Visits Peterborough.

That there was a small but  
gratifying increase in the flow of the  
Trent River was the announcement  
made by Hydro-Electric officials here  
today. And the officials went on  
further to state that they had hopes  
that by the end of the month the  
power shortage would be relieved.

Investigation yesterday showed  
that the flow had increased from 30  
to 40 cubic feet a second. For the  
past two weeks the total flow of the  
river has been around 1000 cubic  
feet a second. Occasionally it has  
fallen as low as 200 cubic feet. To  
operate at reasonable efficiency the  
Hydro requires from 1250 to 1350  
cubic feet to the second.

The officials believe that the Canal  
authorities have now stored all the  
water they think they need, to create  
a reserve for the winter months.  
Therefore the natural flow of the  
river should soon be coming down  
the channels. If the increase, small  
though it is, keeps on growing until  
the end of the month the famine will  
be relieved. There is also the fur-  
ther hopeful fact that evaporation is  
virtually at an end. In the summer  
season, well over half the total  
volume of the rainfall is speedily  
taken up again by evaporation.

Deputy Minister at Peterborough.

"The Department of Railways and  
Canals is quite satisfied that their  
engineering staff—Chief Engineer W.  
A. Bowden and Superintendent of  
the Trent Waterways, A. L. Killaly  
—have used their best endeavors to  
look after the interests of power  
users in this district, that everything  
possible has been done, and we have  
implicit confidence in them. For  
the moment the department is not  
concerned with navigation, but are  
keenly interested in assuring that  
the utmost use is made of available  
water for generating power. And  
such is also the wish of the govern-  
ment. There are no jealousies so far  
as the Department of Railways and  
Canals is concerned."

Such was the assurance of Major  
Graham A. Bell, Deputy Minister of  
Railways and Canals, to a gathering  
in the Board of Trade chambers,  
Peterborough, yesterday noon of  
local and district industrial magnates.  
The meeting was called hurriedly  
and any district interests not repre-  
sented there are invited to meet  
Henry Holgate, of Montreal, in Peter-  
borough Thursday morning, to talk  
over the water and power situation.  
Mr. Holgate has been selected by the  
Deputy Minister to give independent  
advice on this vexed power question  
now agitating public opinion in all  
districts served by the Trent water-  
way.

Those Present.

Besides local power users and  
local power and Trent waterway of-  
ficials, there were also present with  
the Deputy Minister, Major Bell, W.  
A. Rowden, Chief Eng. Dept. Rail-  
ways and Canals; C. Fowlds, of Has-  
tings; J. F. Smith, chairman Camp-  
bellford Light and Power Commis-  
sion; Major Hay of Campbellford; G.  
B. Smith, manager operating depart-  
ment Hydro-Electric Central Ontario  
Power Commission, Belleville; J. H.  
Burnham, Ex-M.P.; R. R. Hall, Ex-  
M.P.

Best in Canada.

Deputy Minister Bell practically  
opened the discussion by stating  
that he had suggested to the Depart-  
ment of Railways and Canals and  
the Government the expediency of  
calling in an outside expert on the  
water and power question. He (the  
Minister) had been in touch with  
half a dozen engineers from whom  
his choice had been fixed on Henry  
Holgate, of Montreal, one of the best  
hydraulic engineers in Canada, who  
will visit Peterborough Thursday  
morning to meet power users and go  
thoroughly over the whole situation;  
such a determination for action, and  
in respect to the department as early  
as possible. He hoped this course  
would be acceptable to all interested.  
Incidentally, Major Bell remarked  
that he did not know whether Hydro-

Electric had oversold power or not.  
The proposition for independent  
inquiry by Mr. Holgate, of Montreal  
met with general acquiescence, and  
that gentlemen will meet power  
users on Thursday morning.

Proper Steps.

Mayor Hay, of Campbellford,  
thought the department is taking  
the proper steps.

Mr. Fowlds had no kick coming.  
He said Mr. Killaly had always given  
his town of Hastings whatever  
water for power was needed.

Fifty-Fifty.

H. A. Fife, of the Peterborough  
Hydraulic Power Co. declared he was  
getting all the power required for  
the Quaker Oats Co., and been giving  
Hydro-Electric Commission 50  
p.c. of whatever electric energy de-  
veloped by his plant.

Depends on Weather

R. R. Hall declared getting enough  
water from the back lakes hinged on  
whether the weather was wet or dry.  
Present day conditions, he said, would  
be recurring from time to time, and  
he thought it up to Hydro-Electric  
to make provision for an auxiliary ser-  
vice. He suggested a steam power  
generating plant to meet emergencies  
of the nature under complaint as sim-  
ilar conditions are bound to arise  
again. Or let the Commission de-  
velop more and more power until  
all our natural resources are utilized.

Burdleigh Falls.

J. H. Burnham could not see why,  
if this district is not going to have  
sufficient water to draw on for meet-  
ing what he understood to be a short-  
age of 4,000 h.p., Burdleigh Falls are  
not developed. There are, he said,  
a 23 ft. head there which might be  
readily brought into requisition.

Wants Early Relief.

J. W. Myers, of the Peterborough  
Cereal Co., declared his faith in sur-  
plus water from our back lakes dur-  
ing winter months. But he regretted  
to say his mills are suffering from  
present lack of power, and he hopes  
for early relief.

No Agreement

The Deputy Minister made it quite  
clear that there existed no agree-  
ment between Hydro-Electric and the  
Dominion Government on the ques-  
tion of power.

Abide by Decision

Expressions of opinion asked for  
by Major Bell were all in accord  
with the appointment of Henry Hol-  
gate as a disinterested authority to  
investigate the situation.

Major Bell emphasized the fact  
that Hydro-Electric and all other in-  
terested parties were welcome to pre-  
sent their case to Mr. Holgate on  
his arrival on Thursday.

Chief Engineer W. A. Bowden, of  
the Department of Railways and Can-  
als, stated that it was merely a ques-  
tion of credibility between Hydro en-  
gineers and those of his department,  
and stated that he was satisfied to  
leave the matter in the hands of Mr.  
Holgate.

H. O. Fiske, C. E. Sisson, P. B.  
Westbye, R. H. Parsons, City Engin-  
eer, Ross Dobbin, Superintendent of  
City Waterworks, all expressed  
themselves as satisfied. The engin-  
eers present spoke of Mr. Holgate's  
standing as an hydraulic engineer as  
high, and Ross Dobbin stated that he  
was regarded by the members of his  
profession as a "little tin god."

OPENED PRACTICE AT NAPANEE

J. B. Willoughby, M.D., C.M.,  
Kingston, has purchased the prop-  
erty formerly owned by J. B. Wal-  
lace, Dundas St., Napanee, Ont.,  
where he has opened an office. Dr.  
Willoughby is a graduate of Queen's  
University and served overseas in  
the C.E.F. for some time. Since his  
return from Chicago and New York  
he has been employed in the Sol-  
diers' Civil Re-establishment, King-  
ston.
