Mining Review: The Nelson Miner is a newspaper which has passed through many vicissitudes. It was that first paper in Southwest Kootegay. It was that first paper in Southwest Kootegay. It was started by John Houston, who sold it to C. P. Wolley, who traded it to W. A. Jowett, who traded it to W. A. Jowett, who traded it to somebody else, or part of it. It was started by a man who had the courage of his convictions, and whose convictions were nearly always right. Dormitzer, Capitalist, St. Louis, Mo., Vice-President; W. J. Whiteside, Solicitor, Rossland, Treasurer; W. G. Merryweather, Rossland, Secretary

Tallway nave been less during the past week than they were during the preceding week, owing chiefly to the derangement of the tubes on the engine of the freight train, compelling it to the engine of the freight train, compelling it to the city without the usual complement. The courage of his convictions were nearly always right. It was then run by a man who had the courage of his convictions were nearly always right. It was then run by a man who had the courage of his convictions independent of the tubes on the engine of the freight train, compelling it to the city without the usual complement. and Manager.

Directors.

Josephi Dormitzer, R. J. Bealey, W. J. Whiteside, W. G. Merryweather, what during the week with traffic upon the roads. John R. Reavis, Pres. Rossland Miner Printing and Publishing Co., and scarcely as long as usual. The following are the J. Fred Ritchie, Engineer.

THE GOLDEN DRIP MINE.

The Golden Drip is situated in the free milling belt of the Trail Creek camp, adjoining the O. K. and I. X. L. It is an old location, has the right to follow the dip of its veins through its side lines and is crown granted.

SHAREHOLDERS PROTECTED.

Not only is the stock of the company fully paid and non-assessable, but by a special provision of the by-laws no debt can be incurred beyoud the amount of money actually in the treasury to meet it.

CHARACTER OF THE PROPERTY.

About \$7,000 has already been expended on the mine.. It is therefore more than a mere prospect. It was determined not to ask the public to ubscribe to the treasury shares until the value of the property was established. This has been done by running a main working tunnel 180 feet, by the making of an upraise from the tunnel to the surface and by the driving of about 50 feet of drifts. In doing this work three distinct veins were encountered varying in width from 12 inches to four feet. The ore found in these veins is a free milling quartz, free gold being seen from tine to tine. The value runs from \$7 to \$40 in gold—the average being about \$18. Drifts are now being run on these ore bodies and ore taken out for milling.

PLANS OF THE COMPANY.

As soon as sufficient ore is obtained to justify the erection of a mill the company will build a mill of such capacity as shall be warranted by the necessities of the mine, and begin the production of bullion. It is proposed also to run a long tunnel from the creek level below to give a depth under the present working of several hundred feet. It is for the purpose of providing funds for these undertakings that the treasury shares are now offered,

FIRST ISSUE OF SHARES.

The first installment of treasury stock consisting of 50,000 shares is now offered to the public at 15 cents per share. The company believes pated it altogether reasonable that the purchasers of these shares will enjoy an early advance owing to the highly promising condition of the mine. It is almost an invariable rule of this camp that the first issue of treasury shares advances immediately to a higher figure than the original

INVESTIGATION ASKED.

Intending investors are invited to make the closest inquiry as to this property as well as to the standing and character of the directorate. This is put forth as a thoroughly legitimate mining venture and the most scrupulous regard will be had for the interest of every sub-

This makes in all 1,311,500 pounds, or nearly 656 tons, of a value estimated at about \$61,000, as compared with receipts or 800,625,690 and 479 tons in the preceding four weeks. The destination of the ores for smelting are, as usual, widely

If there be any truth in the old saw that misfortune proves the strength of friendship, The MINER has reason to be congratulated upon the friendship entertained for it in Kaslo. For some reason the issue for Thursday failed to come to hand as usual and the number of enquiries for the missing number were sufficiently indicative of the esteem in which it is held.

It is earnestly hoped that THE MINER has misread or misunderstood the spirit of the Kaslo
and Slocan press. However that may be, and
whatever the spirit of the press, it is certain that

me such feeling as Territoria.

Brooklyn and the Idano claims, next to the

feet across. There is a 25-foot shaft on the Brooklyn. The values in gold and copper increase as
the shaft gets deeper.

On the D. A. claim the tunnel, which is being
on the ledge is in 25 feet. The ore has no such feeling as THE MINER mentions exists amongst the people of Kaslo towards the residents of Rossland. They are proud rather of the beautiful pieces of native silver and much free

which was assigned to him in Kaslo. The resident engineer for the department of public works at Ottawa has chartered one of Busk's fought their party's battles for nearly a generation, from the banks of the Ottawa to the shores over the matter of patronage.

They fail to comprehend why old and tried liberals whose energies and pockets have been for years devoted to the party should be passed over, and positions awarded because of local because of local

ties. Beyond all they are annoyed because the local patronage has been placed in hands whose employment on behalf of the liberal cause has been largely a question of self aggrandizement or racial prejudice. They question too the consistency of demanding purity of administration for stage effect, and utilizing publicly paid conveyances for private purposes.

Municipal Matters.

Alderman Buchanan has given notice at the city council board that he will introduce a bylaw to divide the city into wards in accordance with the requirements of the Municipal Clauses act. It would seem that the work has not yet been days.

Another of the many trial or forgery. He is accused of raising his pay check from \$18.50 to \$88.50.

There are about 50 people per day arriving here, mostly investors in real estate and mining properties. The hotels are overcrowded and all the city into wards in accordance with the requirements of the Municipal Clauses act. It would seem that the work has not yet been days.

Another of the mostly investors in real estate and mining his pay check from \$18.50 to \$88.50.

The smelter, was bound over today for his riving his pay check from \$18.50 to \$88.50.

The work was very clumsy.

F. G. Jordan, the mining expert, received a patent today for his payed and all the city into wards in accordance with the requirements of the Municipal Clauses act.

Alderman Buchanan has given notice at the city council board that he will introduce a bylaw of divide the city into wards in accordance with the requirements of the Municipal Clauses act to the price.

Another of the great drawbacks to the camps in the council an application was read from w. T. Steward with reference to power, that other things were very much more needed just at present than a Game well or any other fire alarm system.

There was also a conversation among the alarms system. It was also a conversation among the alarms system.

There was also a conversation among the alarms system.

There was also a conversation of the Kootenay Ellectric company. It would appear from some sections of the proposed, attaining the company of the city some promotion of the Kootenay Science of the proposed attaining the properties of the city be withheld until proper representations. The matter was brought up by Alderman Buchanan and upon his motion the mayor was authorized to [communicate with J. sak that any of the city be withheld until proper representations can be made.

Meanwhile a petition is in circulation and being largely signed praying the legislature to the council of the city be writtened and the properties in the day or better. The world of the city be not always made the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better the same shown and the properties in the day or better

of the city.

The writ of prohibition asked from the supreme court to prevent Judge Forin, as stipendiary magistrate, from trying the case of City Clerk Chipman for violation of a city bylaw has been refused after argument at Victoria. Alderman Buchanan will now have an opportunity of proving in open court the nature of the alleged offence of the city clerk and police magistrate. The case will probably be heard at Nelson in the early future.

The Bishop of New Westminster, Dr. John Dart, has sent a newly-ordained clergyman, the Rev. Mr. Yates, to assist Mr. Akehurst in the charge of the Church of England in this city. Mr. Yates will devote himself to the work with energy and it may fairly be hoped with success. It may be a difficult task, but it should not be an impossible work to unite the contending factions of the congregation. Good common sense on the part of the clergyman and a spirit of conciliation amongst the congregation will accomplish the work.

relays of dancers partook of a good supper. The young Irishmen are to be congratulated upon the success of their enthusiastic efforts.

Buildings are being erected as fast as lumber can be obtained, which is one of the principal drawbacks to this hustling town at present. Lots have doubled in value in the past 30 days. The funeral will take place today.

Malano Giovanni, an Italian laborer at the smelter, was bound over today for the smelter, was bound over today for trial for forgery. He is accused of rais-

PUG MOUNTAIN MINES. Work Progressing Favorably on the

Pug, Beaver and Hilda. WANETA, March 22 .- [Special.]-The Columbia & Ontario Co., which is developing the Pug, under the management of J. B. Miller, has its machinery in operation. A crosscut tunnel is being run to tap the lead, and has now only about 35 feet to drive, the tunnel being in 140 teet. It will tap the lead at a depth of 150 feet, and from the surface indications a fine showing of ore is explish the work.

A few of the fireman were making a test of some new nozzles recently imported, and directed the stream toward the roof of the Presbyterian church. The force was greater than was anticipated as the shingles were ripped from their positions in two places, before the stream could be changed.

Buchanan's Kootenay Lake sawmill, which has

Heinze Has Mortgaged His Butte Property For That Sum.

WILL BUILD TO PENTICTON

He Is Investing His Entire Fortune In His British Columbia Enterprises-Another Substantial Evidence of His Faith In the Country.

BUTTE, Mont., March 19.-[Special.]-A mortgage for \$1,500,000 has been filed in the county auditor's office at Butte, on all the property of the Montana Ore Purchasing company, including all its return to the city without the usual complement of cars. Several properties, too, which appeared in previous returns have dropped out this week to reappear later on. There are several carloads which have not yet been entered in the comwhich have not yet been entered in the combination of the city without the usual complement victions were always wrong and his ignorance of the country colossal. Again it owned a master who had neither courage nor convictions. Now, the Nelson Miner expresses itself so foolishly upon the proposed company legislation that it is impossible to classify its opinions. It has had a learning company. Including all its smelters, claims, leases, etc. It is in favor of Richard Lacy, of New York. The Montana Ore Purchasing company is practically owned by F. Aug. Heinze and his practical practic and his brother A. P. Heinze. The mortgage was authorized at a meeting of the company held at its New York office on March 8.

The filing of this mortgage has a great significance regarding Mr. Heinze's future in British Columbia. Last winter when Heinze failed to raise the money in England for the extension of the Columbia & Western railroad, he announced confidently that the road would be built just the same. A few days ago he again announced that he would commence the building of his road from Robson to ANACONDA, March 19.-[Special.]-On very Penticton in a few weeks, or as soon as

divergent.

Business upon the Kaslo and Slocan railway continues good both in passenger and freight traffic. There have been no serious detentions because of snow during the week, but it was because of snow during the week, but it was deemed prudent on Friday morning to send the deemed prudent on Friday morning to send the new rotary out in front of the heavy locomotive, as it had snowed considerably during the prevaluations in the diamond drill cores assayed as it had snowed considerably during the prevaluations.
