ALL A MISTAKE QUAD WASHY EXACTLY BUNKOED IN CHICAGO.

It is Always a Very Bad Thing to Be Misjudged, and Quad Really Very Much Misjudged and Humiliated—The Facts in the Case.

Copyright, 1893, by Charles E. Lewis. I have been considerably pained and irritated over the fact that an item is going the rounds of the press to the effect that I was bunkoed out of \$500 at the World's Fair.

"Wahng! Whoopi! No more buffer, Wahng, wahng or injuns on the wahngah!" "What's going to become of this wahngah?" "She's going to fall into the lake and have her hair cut and wear white skirts."

"You'll have to come in out of the wet." "He dug in the spurs and made his course look and career for a minute, and then fell."

"I was taking a stroll on the Midway plaisance when a stranger tapped me on the shoulder and joyfully exclaimed: 'Hello, old man! I've heard you're here!'"

Read Not Right. There was a dim light in the front parlor when the brigands reached the house shortly before midnight.

The chief sent the neophyte forward to reconnoiter. In a moment he returned, and a gleaming smile visible in the moon's pale radiance playing about his lips.

"Noble captain," he reported, "a young girl tarries with her lover there."

"Course them," hissed the chief, "we are followed."

"Yes, my," exclaimed the neophyte exultingly, "we have only to wait a brief time, and they will be gone. Even as I stood there I heard him say good night."

"And that is all the evidence you have that they are about to betake themselves away?" he demanded contemptuously.

"It is, noble captain," he answered.

"Company," he shouted, "attention! About face! March!"

The march of light there was no sound save the muffled tread of the retreating bandits.—Detroit Tribune.

HOUSEHOLD HINTS. Madras curtains seem to get best with straw mattings in the summer home.

A teaspoonful of pulverized alum mixed with stove polish will give the stove a fine and lasting luster.

Hard water may be softened by boiling a small vial in a kettle of water. The carbonic line will become increased on the bottle.

The best way to clean wells and cisterns of dirt is to throw down a peck of unbleached lime. The heat so caused carries out the foul air with a rush.

Indelible ink stains on cotton or linen may be removed by saturating the spot with a mixture of iodine and then washing with ammonia water.
