BOOTY OF THE BURGLARS

There is as yet no clue to the perpetrators of the burglary committed at the jewelry store of H. R. Knowlton on Tuesday night of last week. From the fact that a large quantity of valuable goods, easily accessible, was left untouched it is argued that the theft was the work of an amateur. However that may be, the goods are gone and Mr. Knowlton's loss will be about \$1,000.00. Last week the following circular was issued and it is hoped that some trace of the missing articles may be speedily obtained:—

CLOVER SEED HARVEST

Mr T. G. Raynor, Ontario representative of the Seed Branch, writes from Ottawa this week as follows:—

Reports from the Ontario red clover districts show that the prospects for seed are extremely poor. Even in the Lake Erie counties, the dry weather during May and June shortened the hay and pasture to such an extent that much of the second growth will be used for fodder. Where the first growth blossomed well considerable seed is forming, which is not usual. However, the clover midge is taking some toll.

I believe the farmers of the Ottawa Valley and St. Lawrence counties would find it profitable to use their second growth clover for the production of seed. If it blooms well, the harvest should be good; if not, it can be turned into hay or pasture. It is easy to harvest clover seed. Mow it when the straw is tough from dew or rain. After it has lain two or three days in the swath to cure, rake it up into good-sized bundles. It should be damp with dew when raked in order to prevent shelling. It may be housed in a week or ten days. In December an ordinary threshing machine will thresh it satisfactorily. Put a hardwood board behind the cylinder attached to the machine on the left. Bring it to within a foot or so of the other end of cylinder, then close up the front of the cylinder on the opposite end. This drifts the straw through the whole length of the cylinder. If plenty of concave surface is used and the first row of teeth removed to create a draft, the seed will be very well hulled by going through once.

If a Winchester Springs farmer can grow $\frac{5}{8}$ bushels per acre on $\frac{1}{2}$ acres, realizing over \$55 per acre for seed, besides the value of the first cut of hay it will surely pay others to consider this crop.

ORDAINED TO MINISTRY

At Kemptville on Wednesday evening, July 19th, Gordon N. Maxwell and Ivor C. Mills were ordained to the office and work of the Christian ministry of the Methodist church.

The sermon was preached by the Rev. F. G. Lett of Smith's Falls who chose as his text II Timothy IV: 1 and 2. The ordination service was conducted by Rev. S. J. Hughes, M.A. president of the Montreal conference, assisted by Rev. E. R. Kelly, secretary and a number of neighboring clergymen.

Mr Maxwell is an Athens boy being a gold medalist and honor graduate of the Athens High School also a graduate of the Athens Model School.

DELTA

Mr Eli Wood and daughter, Maria of Delta drove out to his daughter's Mrs Frank Eaton, at Frankville, to celebrate his 66th birthday, the first day of July. His granddaughter Violet's birthday is on the same day. Mr Wood is hale and hearty and wish him many more birthdays.

LEGISLATION NEEDED

This is the season of the year when school boards are called upon to exercise patience, perseverance and unselfishness as they seek to secure teachers. If engaging a teacher ended the trouble, the case would not be so bad, but that ordinarily final conclusion is found to be only the beginning of an uncertainty that with the passing of the holiday season becomes almost distracting. Many teachers make and break contracts at their own sweet will and in a way that in any other vocation would result in their being black-listed and put permanently out of the business.

And what is the remedy for this state of affairs? It is useless to apply to the teachers' associations or the educational advisory board, for these institutions, like trade unions, are intent only on promoting the interests of those engaged in the profession of teaching. There is but one power to turn to for relief, and that is the Educational Department of the Ontario Government. Under the control of the Department, the teachers enjoy certain special privileges and immunities and are protected from competition in their work. In view of this, it would seem only right that the Department should require them to fulfill all contracts under pain of having their certificates cancelled. Draconic legislation is required along this line, and the sooner it comes the better for the paying public and for all honorable teachers.

A CORONATION SCENE

The night spectacular performance at the Ottawa exhibition will be the most magnificent pyrotechnic display ever attempted in the Capital. Arrangements have been made with the Hand Company, of Hamilton, for a reproduction of the grand naval review as seen at the Coronation of King George V. All the splendor of the great function will be portrayed. Following this a fireworks display showing a host of new creations will be made.

Recently a meeting of the congregation of St. James' church, Ballycanoe was held for the purpose of making preliminary arrangements for the celebration of the golden jubilee of the parish on December 25th next. After various suggestions were heard and discussed, it was finally decided to signalise the occasion by liquidating the church debt. Accordingly a committee was appointed to levy an assessment on each household in proportion to the means of each. But in discovering that it would not be possible to cover the entire debt without imposing a burden too heavy for some, it was decided to invite subscriptions from former members of the parish. The committee felt confident that many members now living outside the district would be glad to be associated with the parishioners on this occasion of rejoicing and be ready to give some tangible proof of the deep debt of gratitude they owe their native parish.

The Canada Cement Company, Limited, Montreal, Que.

No one is obliged to live where he is not suited. If one hasn't an encouraging word for the business enterprise and institutions of town, he should shut up and "go way back and sit down." If things don't suit you, move to where they will. A growler and sorehead in a town is an enterprise killer every time. It would pay a town to donate him \$5 and tell him to move.

Owing to the failure of the small field crops and high price of small fruit, the honey executive of the Ontario Bee Keepers' Association will advance the price of honey this season. Reports received from all parts of the province show a decided falling off in the honey crop except in Middlesex county and in central and western counties. The reason is that the drought dried up the clover. There will be a million pounds less honey produced in the province.

A windstorm of unusually high velocity prevailed here on Monday and continued during the night, accompanied with thunder, lightning and rain. Coming from the south and west, the waves rolled into Charleston harbor in a way that threatened the destruction of everything within their reach. Dr. C. B. Lillie attempted to navigate the tempestuous sea in his motor boat but was driven ashore and had difficulty in preventing it being injured. Many trees have been blown down.

On July 22, by a vote of two to one, after months of hard fighting, the United States Senate carried the reciprocity bill, and to become law it now awaits only the approval of the Canadian parliament. That this present parliament will be allowed to pass the measure seems now extremely doubtful. The Conservative minority are, without pretext of concealment, obstructing the business of the house, and an appeal to the people seems inevitable. That there will be an election soon seems now a foregone conclusion among politicians and the only question is the date. It may be that the Government will force the Opposition to be yet more pronounced in their policy of obstruction before dissolving the house, but in any event the issue cannot be long delayed, so that the chances are that the electors will be given an opportunity of marking their ballots within the next two months.
