Packed at the Oven's Mouth

We do things right at the Mooney bakery. Crackers are packed piping hot from the ovens. The moisture-proof paper and air-tight tins retain all the freshness and crispness, no matter where or when you buy them.

MOONEY'S PERFECTION Cream Sodas

They come to your table just as inviting and delicious as though you ate them at the ovens in the bakery. At all grocers in 1 and 3 lb. packages.

HUMOR

THE WRONG TRIP.

The Excited Man Should Have Waited Before Taking His Leap.

The ferry dock was crowded with weary home goers when through the crowd rushed a man hot, excited, laden to the chin with bundles of every shape and size. He sprang down the pier, his eyes fixed on a ferryboat only two or three feet out from the pier. He paused but an instant on the string-piece, and then, cheered on by the amused crowd, he made a flying leap across the intervening stretch of water and landed safely on the deck. A fat man happened to be standing on the exact spot on which he struck, and they both went down with a resounding crash. When the arriving man had somewhat recovered his breath he apologized to the fat man. "I hope I didn't hurt you," he said. "I am sorry. But, anyway, I caught the boat."

"But, you blanked fool," said the fat man, "the boat was coming in!"—Lippincott's Magazine

MAKES MEN SOUND AND STRONG

Detroit Specialist Making Men's Diseases a Specialty for Years. Will Accept Your Case, Giving Individual Treatment. You may Use It in the Privacy of Your Own Home.

You May Pay When You are Cured.

A Detroit Specialist who has 14 diplomas and certificates from medical colleges and state boards of medical examiners, and who has a vast experience in doctoring diseases of men, is positive he can cure a great many so-called incurable cases.

DR. S. GOLDBERG.

The possessor of 14 diplomas and certificates, who wants no money that he does not earn, in order to convince patients that he has the ability to do as he says, Dr. Goldberg will accept your case for treatment, and you need not pay one penny until a complete cure has been made. He wants to hear from patients who have been unable to get cured, as he guarantees a positive cure for chronic, nervous, blood and skin diseases, such as rheumatism, bladder or kidney troubles, blood poison, physical and nervous debility, lack of vitality, stomach trouble, etc. The doctor realizes that it is one thing to make claims and another thing to back them up; so he cures you, and when you are cured, he feels sure that you will willingly pay him a small fee. It seems, therefore, that it is to the best interests of everyone who suffers to write the doctor confidentially and lay your case before him, which will receive careful attention, and a correct diagnosis of your case will be made free of charge. If you have lost faith write him, as you have everything to gain and nothing to lose; you must remember, not one penny need be paid until you are cured. All medicines for patients are prepared in his own laboratory to meet the requirements of each individual case. He will send a booklet on the subject, which contains the 14 diplomas and certificates, entirely free. Address him simply 111 Detroit, Michigan, 208 Woodward Ave. Dr. S. Goldberg, 208 Woodward Ave., Detroit, Mich. Medicines for Canadian patients sent from Windsor, Ont., consequently there is no duty to be paid.

WOMAN'S WORLD

MRS. JENNIE B. POWERS.

Agent of the Humane Society for New Hampshire and Vermont.

Mrs. Jennie B. Powers, an agent of the Humane Society for New Hampshire and Vermont, is a fearless woman in the discharge of her duties. Armed with the powers of a deputy sheriff, she is the personification of law when she puts her hand upon an animal.

The daughter of Captain E. W. Carter of the Fourth Vermont volunteers, who fought through the civil war, Mrs. Powers possesses the spirit to work in defense of dumb beasts and the children.

Fifteen years ago she jumped from a window in her Brattleboro home and stopped a man from beating his horse.

MRS. JENNIE B. POWERS.

The local humane society was reorganized, and her career as agent commenced.

For seven years, two of which have been spent in Cheshire county, N. H., with an occasional trip beyond, her entire time has been given to such work. At the freight yards she has watched the loading of cattle, inspecting them on the cars.

The stories she tells and the pictures she shows of tasks performed cause one to look in wonder at the frail woman who has remained all night in a woodchopper's hut that she might put a crippled beast out of pain when the morning dawned, who has entered homes where her life has been threatened and taken the children to better quarters.

She is a determined person, as was shown in the prosecution of a man charged with starving his horse. Mrs. Powers fought the case through three terms of court at her own expense and at last won out.

It is only during the last two years that she has taken to shooting condemned animals herself. In that time, however, she has ended the careers of 100 horses, cows, sheep, dogs and pigs. In shooting, she uses a hammerless five shot revolver, made to order, with a barrel six inches in length, and has had to fire a second shot but once in her experience, and that was caused by darkness.

Mrs. Powers is a veterinary of no mean ability. She is a taxidermist, and has taken a course of entomology at Amherst college. She has the finest exhibition of bones taken from deceased animals in the country.—Boston Globe.

Cause of Flat Foot.

The power of the foot as a sustainer of the weight of the body is understood. The heel, great toe, and outer side of the foot form the three points of a tripod. An outward crowded great toe decreases the utility of the foot to just such a degree as it is forced from its normal position. Flat foot is frequently seen in children, as a result of effort made to have them toe out gracefully, says an authority. Toeing in is often due to the unconscious effort to lessen the strain on the arch of the foot, produced by badly formed shoes. Few children will toe in if they wear properly shaped shoes. The exceptions are those with weak foot arches, for whom the shoes should be made with soles thicker on the inner than on the outer edge. The weight is thus shifted to the outer edge of the foot and the strain on the arch of the foot relieved. This makes toeing out an easy, if not an altogether natural, procedure.

The Nursery Walls.

The trouble with flowered wall papers is that they do not admit of pictures. Few children are content with a bedroom or nursery without pictures, and if their tastes are consulted, as they surely should be, the pictures selected for any room will be more or less miscellaneous; therefore the nursery or sitting room sacred to youth should be furnished with a view of permitting latitude in decoration. The walls should be plain buff, brown or green in softest tones, and the woodwork, for preference, white. With such a background almost any decorative color scheme may be followed. Boys need to be encouraged to fit up their own rooms, and so, in these emancipated days, do many girls. The instinct is sure to sleep if made to order rooms are given children.

The Cost of Art Study.

A course of study at one of the leading New York art schools will cost, including supplies, about \$500 a year.

LEVER BROTHERS LIMITED, TORONTO, CANADA.

By clubbing together in furnished rooms and doing light housekeeping, girls have managed to live on \$5 a week, including laundry, with an occasional new dress sent on by the anxious mother. Girls who have succeeded admit that it took them all the way from one to five years merely to secure a foothold among New York publishers. Statistics go to show that of the seven or eight hundred students who study annually in a certain New York school, famous for its brilliant faculty, an average of one and a half pupils remain and score a success in New York city.—Woman's Home Companion.

The Neck in Photographs.
Women who go through the frightful agony of being photographed—and after first youth it is nothing short of agony—should pay particular attention to the dressing of the neck, for that the photographer's skillful hand cannot remedy, as it does the wrinkles. A stock is almost invariably out of fashion the next year. Ribbon bows disguise the contour of the face. At the same time the neck must be distinctly "high or low"—a surplus generally giving bad effects. Photographs have such a horrid habit of lasting. And people bring them out and laugh at them!

Tonic For Dry Hair.
A most excellent tonic for dry and falling hair is made of one gill of almond oil, one ounce of burdock root, one-eighth ounce each of oils of rosemary and thyme, one and three-quarters drams of oil of bergamot, one-half dram of oil of lemon and the same of triple extract of orange. Place the burdock root in a glass jar and pour in the oil, then put the jar where it will keep warm, but not hot, for three days. Strain and add the rest of the ingredients. Massage this into the scalp every night.

To Darken Light Red Hair.
To darken light red hair make a tea by pouring a pint of boiling water over an ounce of henna leaves, broken. Cover and let it steep until the liquid is cold. Have the hair washed and thoroughly dried. Then apply the tea with a brush, letting it stay on for half an hour. Wash again in warm clear water. The tint may be darkened even more by making the tea stronger and letting it stay longer on the hair.

Etiquette and Good Sense.
When receiving a call from a young man a girl should not rock violently, laugh loudly or betray nervousness. Let her try to talk of what interests him, or lead him to do so. When he rises to go she should rise also, with but a moment's hesitation of reluctance. She does not accompany him to the door, but takes leave of him in the drawing room, expressing the hope of soon seeing him again.—Success.

Dry Cheese.
Dry cheese shows a careless housekeeper. It is a source of waste, as the dry, hard pieces are usually thrown out. To keep cheese moist it should be wrapped in buttered or oiled paper and kept in an airtight pan or one with a lid that fits closely. Cheese that is cut and soon to be eaten will be moist and fresh enough if merely wrapped in a damp cloth.

Look Your Best.
Always look your best, and after you have improved yourself as far as lies in your power then make sure that your manners will do the rest. We all can't be beautiful, but we can try to be as beautiful as we can—and we all can certainly be courteous and win the love that even exceeding beauty will not gain for us without the charm that accentuates it.

String Beans and Lima Beans.
Here is a rather uncommon dish of vegetables, but its excellence is vouchsafed for: Cook string beans and lima beans separately and when tender place them together in a saucepan with an ounce of butter, salt and pepper. Toss them together while cooking for a few minutes and serve with a little chopped parsley sprinkled over them.

CURED OF LAME BACK AFTER 15 YEARS OF SUFFERING.

"I had been troubled with lame back for fifteen years and I found a complete recovery in the use of Chamberlain's Pain Balm," says John G. Bisher, Gilliam, Ind. This liniment is also without an equal for sprains and bruises. It is for sale by all druggists.

It is the things that we want the least that we cry the least for.

The Dainty Woman.

A dainty woman will have all her belongings as finished and trim as possible and not the least of these are the dress protectors. In all her thin gowns she uses the small size shields and puts a scant ruffle of narrow Valenciennes lace around the edges.

Beauty's Silent Martyr.

Every now and then an aspirant for beauty complains to the courts that the operation to correct facial blemishes was not only unsuccessful, but injurious. The name of the silent martyr must be legion.—Washington Star.

At least once a week, if not oftener, the carpet sweeper should be thoroughly cleaned, the box wiped out with an oiled cloth, and the brush brushed with a whisk broom.

Mrs. Helen Campbell has said of the average kitchen: "There never was a place more ingeniously what it should not be."

Wetting the hair occasionally in a solution of salt and water will keep it from falling out.

Never sleep in any garment that has been worn through the day.

HAD BLOOD POISON 12 YEARS
The New Method Treatment Cured Him after Drugs, Mercury, Hot Springs, &c., all failed.

Wm. H. Patterson of Saginaw, Mich., relates his experience: "I do not like to tell this story of my life, but I feel I owe it much to Dr. K. & K. for the great good they have done me. I had a serious blood disease when 24 years of age. The skin and blood symptoms gradually developed. Pimples and ulcers formed, running sores broke out, hair fell out, pains in the bones and joints. I visited Hot Springs twice for four months each time. It helped me temporarily, but in six months after returning home I was as bad as ever. Finally a Doctor friend of mine advised me to see Dr. Kennedy & Kergan. He said he had known of them for over 20 years, and as they made a specialty of these diseases and treated the worst cases by the new method treatment, I decided to try them. They were perfectly responsible, so I commenced the new method treatment. The eruptions disappeared in two days, the bone pains in four weeks and in four months I was entirely cured. Yes, sir, I can recommend the New Method Treatment for Blood and Skin Diseases. CURES GUARANTEED OR NO PAY. Consultation Free. Books Free. If unable to call, write for a Question Blank for Home Treatment."
