No one, who is willing to adopt the right course, need be long affilieted with boils, carbuncles, pimples, or other cutaneous cruptions. These are the regults of Nature's efforts to expel poisonous and effete matter from the blood, and show plainly that the system is ridding itself through the skin of impurities which it was the legitimate work of the liver and kidneys to remove. To restore these organs to their proper functions, Ayer's Sarsaparilla is the medicine re-uired. That no other blood-purifier can compare with it, thousands testify who have gained
