it. Their doctors trusted it. Your doctor trusts it. Then trust it yourself. There is health and strength in it.

### GAME LAW CHANGES

Several Amendments of Interest to Hunter.

#### CALF MOOSE

Cannot Be Hunted Under Two Years of Age

Some important amendments have been made to the game laws during the session just ended.

The close season for partridge will end Sept. 14th of this year, and in future will extend from Nov. 30th in each year until Sept. 15th in the year following.

No calf moose can be hunted under the age of two years, instead of one year, as formerly, and no cow caribou can be hunted. No license can be obtained to shoot a cow caribou. The penalty for such offense is set at a fine of from \$100 to \$200, or from 20 days to two months' imprisonment.

No gun or other firearm shall be carried into any forest or wood or other reserve for moose or caribou between Nov. 30th in any year and Sept. 15th in the year following without a permit of a game warden. Formerly this section applied only to parks and reserves. The penalty for an offence under this section is set at a fine not to exceed \$40 or imprisonment for one month in jail, and wardens may confiscate any arms carried contrary to this law.

In future hunters must have a license to shoot deer, and no deer should be shot at night. Penalty under this section, which of course applies also to moose and caribou, is a fine of \$50 to \$150, or imprisonment for one month to three months.

Deputy wardens must pass an examination to the satisfaction of the surveyor general as to their knowledge of woodcraft, the habits and resorts of game animals the provisions of the different acts for protection of game, and such other matters as the surveyor general may require. But all now acting as deputy wardens shall continue to act until called on to pass the examination.

The section compelling wardens to forward to the Surveyor general the names of guides in their district is repealed.

Wardens may confiscate the head of any moose or caribou unless it is accompanied by the owner, or properly tagged with the owner's name.

Moreover, when any person kills a moose or caribou he must exhibit the head to a warden, who will affix a tag, stating the name of the person who killed the animal, the license number, and the time and place of killing. This tag must be preserved and no head shall be delivered to the owner when preserved or mounted, nor shall any head be exported without such tag attached.

It is further an offence to kill any moose or caribou where it is impracticable to bring out the head for inspection by a warden so that he may affix a tag. Penalty the same as that for hunting moose or caribou without a license.

Guides having a guide's license to accompany hunters cannot at the same time have a license to kill any moose or caribou. Before a man can act as guide he must be registered in the office of the surveyor general and hold a certificate. The certificates are granted on filling an application with sufficient particulars and on payment of a fee to be fixed. The license will remain in force until cancelled by the surveyor by good cause shown. Formerly guide's

MR HILL HAS PROVED IT  
Toronto Man Explains How he Gained Thirty Pounds in a few weeks. Remarkable Statement

At 89 Fuller Street, lives a man who claims to have proven beyond the shadow of a doubt that Dr. Leonard's Anti-Fill is the most wonderful remedy ever introduced. His name is W. A. Hill, and he makes the following statement:

"I was very much run down, and had constant pain in my side, which made life a drag to me. I fully believed my days were numbered, but I was induced to try a treatment of Dr. Leonard's Anti-Fill, and the results were marvellous.

"After a short time I found myself restored to perfect health and strength which I am thankful to say I have enjoyed ever since.

I have gained thirty pounds in weight since I commenced to use Anti-Fill."

Mr Hill's statement is only one of many. No one has ever used Dr. Leonard's Anti-Fill without benefit.

### THE SCOTT ACT

Campaign Being Vigorously Fought

#### INCREASING SENTIMENT

In Favor of Act—A Number of Meetings Being Held

The campaign in the interest of Scott Act is being pushed vigorously and from indications there seems to be a growing sentiment in favor of the Act.

Public meetings have been held at Flatland, Tide Head and Charlo and have been well attended.

Last night a rousing meeting was held at Nash's Creek, addressed by Father Purcell and Rev. J. M. McLeod.

Tonight there is a meeting at Eel River, on Friday at New Mills and on Sabbath afternoon at 2.30 at Dalhousie Junction.

On Monday night Father Purcell and Rev. H. E. Thomas will address a meeting at Jacquet river in Roman Catholic Hall.

It is expected that Dr. McLeod of Fredericton will address meetings at Charlo on Saturday night at Dalhousie on Sunday morning in the Presbyterian church and on Monday evening in the Hall.
