

**Doctry.**  
A COVETOUS LABORER.—An English labourer, whose child was killed by the falling of a beam, wrote the following lines, signified by the melancholy event. They are touchingly beautiful.

Street, laughing child—the cottage door  
Stands open and open now,  
But oh, its sunshine glides no more,  
The gladdens of thy brow;  
Thy merry, step hath passed away;  
Thy laughing sport is hushed, for aye.

Thy mother by the bedside sits,  
And listens for thy call;  
And slowly, slowly, in her looks,  
Her quiet tears down fall;  
Her gentle murmurs thine are gone;  
And adios! adios! may wait on.

**HOME IS WHERE THERE'S ONE TO LOVE US.**

Home is not merely four square walls,  
Thought with pictures hung and gilded,  
Home is where affection dwells,  
Home is where the heart hath builded.  
Home—oh watch the faithful dove  
Smiling back the heaven above us,  
Home is where there's one to love!  
Home is where there's a love to love us!

Home is not merely roof and room,  
It needs something to endear it;  
Home is where the heart can bloom,  
Where there's some kind word to cheer it.  
What is home with none to meet?  
None to welcome, none to greet us?  
Home is sweet—and only sweet  
Where there's one we love to meet us.

**A CREDITORS STRATAGEM.**—A week of two ago, four creditors started from Boston, in the same train of cars, for the purpose of attaching the property of a certain debtor, in Farmington, in the State of Maine. He owed each one separately, and they each were suspicious of the object of the other, but dared not say a word about it. So on their ride, acquaintances all, talking upon everything except that which they had most at heart. When they arrived at the depot at Farmington, which was three miles from where the debtor did business, they found nothing to "put 'em over the road," but a solitary cab, towards which they all rushed. They got in, and refused admittance to the fourth, and the cab started. The fourth ran after, and got upon the outside of the driver. He asked the driver if he would sell his horse. He replied that he did not want to—that he was not worth more than fifty dollars, but he would sell him for that. He asked him, if he would take a \$100 for him. Yes, said he. The "fourth man" quickly paid over the money, took the reins and backed the cab up to the bank—slipped it from the harness, and tipped it up so that the door could not be opened, and jumped upon the horse's back and rode off "lick-a-ty-witch," while the "insiders" were looking out of the window, feeling like singed cats. He rode to a lawyer's, and got a writ made and served, and his debt secured and got back to the hotel, just as the "insiders" came up puffing and blowing. The cabman soon brought back his horse for fifty dollars. The "fourth man" offered to pay that sum, if the fortunate one, who found property sufficient to pay his own debt, would not tell of it in Boston.

**INSURGENT GALETY.**—The mind of every man is by nature inclined to cheerfulness, and away by a desire to indulge in pursuits which will gratify this natural propensity. Cold indeed must the philosophy of him who would subdue the gladdening temper of his nature, and substitute an austere severity and a rigid indifference to the innocent amusements of the world. It would be hard on him, that melancholy could be constant with the feelings of man as a gregarious creature. Eager or none of the tender sensibilities which at present unite him with his fellow-men could exist, if each individual were influenced by a selfish thoughtfulness, and a utter distaste for what might excite animation or sprightliness; each would be a morose, sullen, and the very links of social intercourse would be shattered.

**A RICH RETURN.**—It is said of the Marquis of Townsend, that when young and engaged in battle, he was a drummer at his side killed by a cannon ball, which scattered his brains in every direction. His eyes were at once fixed on the ghastly object, which seemed to engross his thoughts. A superior officer observing him, supposed he was intimidated at the sight, and addressed him in a manner to cheer his spirits. "Oh," said the young Marquis, with calmness but severity, "I am not frightened—I am puzzled to make out how any man with such a quantity of brains ever came to be here!"

**A HYMN TO OLD AGE WANTED.**—Many a poet has sung laments over departed youth; did any ever sing, or chant, or write like a psalm—the peace, the joy, the comfort of growing old; of knowing passions dead, temptations conquered, experience won, individual interests become universal, and vain fantastic hopes merged into sublime strong-bounded faith—faith which makes of death its foundation stone, and has for its consummation Eternity! The "Hymn of Old Age" would be one not unworthy of a great poet; who will write it!

**TO MAKE AN NIGHTMARE.**—Just before going to bed two pig's feet and a fried pie. In less than an hour you will see a larger than a hawser, dove-tailed, blue-haired children, who have just jumped from a monster with sorrel eyes and a red-hot overcoat.

The first hour a person spends at sea is commonly devoted to admiring ship's triumph over the deep—the next in admitting that the deep is gradually triumphing over him. "Steward, where's my room?" I begin to feel, as if should very soon need little weak brandy and water, or a good deal of tin basin."

To forgive and forget is something of a difficulty, but to forget and forgive is the easiest thing in the world.

Little disputes before marriage are great ones after it; as northerly winds, which are warm in summer, blow cool and cold in winter.

A person whistles when he has cold fingers; and he whistles when he has burnt his fingers; and strange to say, when he has lost his money, he whistles for it also.

Will does a blacksmith seem the most dissatisfied of all mechanics?—Because he is continually striking for wages.

The following verdict was given in writing by the foreman of a coroner's jury:— "We are of opinion that the Deceased met with his death from Violent Inflammation in the Arm produced from sun Unoon Cancr."

A promise is a just debt which should always be paid, for honor and honesty are its security.

An Irishman was asked at dinner whether he would take some of the apple-pie. "Is it holomon?" inquired "Tiddy." "To be sure, it is," was the reply. "What makes you ask such a question?" "Because," said the new comer, "I once had an uncle that was killed with the apple-pie, and sure I thought it might be something of that sort."

There is a large and fertile space in every life, in which might be planted the seeds and fruit trees of enlightened principles and virtuous habits, which growing up, would yield to old age an enjoyment, a glory, and a shade.

What people have a geographical reason for being drunk? Those who do not live in the Temperate zone.

WOMAN'S HEART (A Contradiction).—Nothing can be so kind as a woman's heart, and less likely to inflict a blow; and yet, nothing so ready to say, if it never so happy, as when it is beating.

Young Spang.

The consequences that we have, by our own misconduct, should be our mirrors, upon ourselves, in an immense aggravation to their misery.

Confess in proper conduct, not by retaliation, but by example.

**PATENT ARTIFICIAL SLATE.**

**And Unchangeable Metallic Paints: PROOF AGAINST FIRE & WATER!**  
Manufactured by the Patentee, in Colchester, Nova Scotia. THE ARTIFICIAL SLATE, is the product of a mixture of mineral substances known to be the best non-conductors of heat as well as the most insulating. The chemical affinity of which converts the surface of materials covered, into a Coating of Actual Slate—Proof against FIRE and WATER. Thus the laws of nature are made to accomplish results as surprising as if they were, by rendering Wooden fabrics as durable as brick or Stone, and less pervious to moisture, and consequently preventing decay and destruction from corroding influences hitherto supposed unattainable.

The principal ingredients are Alumina, Silica and the Oxides of Iron. The adhesive quality of the latter not only binds and attracts the particles together, but the substance covered also. The longer exposed to the weather the more powerful the attraction, and consequently the harder the Slate. As various shades of colour are obtained, Brick buildings may be made impervious to moisture, and the fashionable colours of either Free Stone or Granite. The oil must be evaporated by the action of the weather before it is Fire proof, which will take from nine to twelve months.

The METALLIC PAINTS, Purple and Red, are offered as Weather and Water Proof solely. Their base being Iron, secured them from Galvanic action so fatal to lead and other Paints on iron work—and their chemical combination makes it impossible, that any change should take place from atmospheric influence or the action of Solar Rays. Slightest hydrogen or prevalent in Ports and Tidal Harbours. They surpass all Paints yet discovered in Cheapest and Durability, which render them pre-eminently adapted to the covering of all kinds of Iron work, such as Shipping, Mills, Bridges, Steam Machinery, Railway Cars, and Iron Railings. The METALLIC PAINTS have been analysed by Professor Hays of Boston. The following is an extract from his Certificate:—"As a permanent pigment, this mineral must rank with the most indestructible and unchangeable bases. For covering Metallic Ware, its composition shows that it is eminently fitted."

Directions.—Artificial Slate. Mix the powder with pure Boiled Linseed Oil and a little Spirits Turpentine to the consistency of very thick Paste, and apply with a common Brush, being careful to keep the mixture well stirred by putting it on. One pound will cover ten square feet two coats.

If shingles have been on for years, it will be necessary to sweep off the moss and lint with a stiff broom; two or three coats of this material will make a perfect Slate Roof, proof against Fire and Water.

FREDERICKTON, N. B., Nov. 13, 1850.

Mr. J. W. IRISH.

DEAR SIR,—Please send us two more barrels of your Artificial Slate. We have seen some of the good effects of it at the last fire. Some of the Roofs covered with it did not catch at all, and when the walls were burnt some of the roofs came down in one piece, and others were the means of saving the building, especially one roof alongside of the Bank B. N. A., which also was one means of saving the bank.

Please see that it is on board of the first boat, as it might be neglected and stored.

Your obedient Servants,  
STEWART & NEILL,  
St. John's, N. B., July 29, 1850.

JOHN ROSS, Esq., Patentee of the Purple Metallic Iron Paint.

SIR,—I have just painted a new Ship with your Metallic Iron Paint, and I have much pleasure in stating that I never painted a Ship with so small a quantity of PAINT and OIL, and look so well. From its adhesive qualities and the manner it covers the wood, I have no doubt but it will be more durable and much cheaper than any other paint used for such purposes, and would recommend it to the public generally.

Yours, &c.  
ROBERT G. MORAN.

**ROSS' METALLIC PAINTS.**—We have already called public attention to the high estimation in which the Ladies of the Faculty of John Ross, Esq., of York, are held by those who had occasion to use them. Certificates of a highly satisfactory character in praise of these articles of Provincial manufacture appear elsewhere, in this issue, and from information afforded by persons who have similarly applied them, we can safely endorse the opinions therein contained.—Halifax, Nov. 1850.

THE METALLIC PAINTS are mixed and put on like an ordinary paint.

**WINSLOW TO THE LADIES.**  
MRS. WINSLOW, an old and experienced nurse and Female Physician, calls the attention of the Ladies to her Soothing Syrup for children's teething. It will immediately relieve the pain, allay all spasmodic action, soften the gums, reduce inflammation, and is sure to regulate the bowels. Depend upon it, Mothers, it will give rest to yourselves and relief and health to your children.

Price, 25 cents per bottle.

We have sold very large quantities of Mrs. Winslow's Soothing Syrup during the last six years, several thousand the last year. We believe it to be the best medicine for the cure of teething, or for the cure of Dysentery and Diarrhea in Children, and that it affords relief in every other case. It gives universal satisfaction—never heard a complaint from any one using it, never sold a medicine so successful in relieving pain and effecting cures—relief is absolutely sure.

**WONDER OF THE WORLD.**  
Great Cures of five years standing.

Messrs. CURTIS & PERKINS, Bangor, Me.

Gentlemen.—I have been suffering of late of the Cramp and Pain Killer, and after taking the Cramp and Pain Killer in the Spring of 1847. I had been a great sufferer for ten years previous; some four or five years of the time I suffered beyond all my power to describe.

During this time, I had had medical aid, and tried various specific remedies, but found very little relief until I obtained your Cramp and Pain Killer. In one month after I commenced using it, I began to grow better. I continued to use it for a year, all the time improving until I was entirely cured.

MILES STAPLES, Prospect, Me., Jan. 29, 1851.

We, the undersigned, are well acquainted with the above case, and certify to the above statement of facts.

CHARLES CLIFFORD,  
HANNAH CLIFFORD,  
STANTON ELLIS.

Doctor Toby, a regular practicing Physician, of East Machias, writes on the 20th of March 1851, as follows:—"Please send me half a gallon of your Cramp and Pain Killer—it is the best medicine to cure what it is represented to, that I ever used."

The Doctor first made use of it in his own case, for a severe sprain in the shoulder, caused by the upsetting of a stage, and found immediate relief, and has since used it in his practice.

Head the following. It speaks for itself.

R. H. E. M. J. CURTIS & PERKINS.

I certify, that I was afflicted with a violent Rheumatic pain in the small of my back, which entirely disabled me, so that I could not get up without the greatest pain and effort; nor could I walk without a cane, and but very little with. I applied Doctor Johnson's Anodyne Liniment, or Liquid Opodeldoe, and several other remedies, without any relief. After suffering in this way about a week, I purchased a bottle of Cramp and Pain Killer, prepared by CURTIS & PERKINS, Bangor, and after three applications was entirely relieved and free from pain, and am now entirely well. I take courage, my friends, who had been suffering for a long time with a lame side, with the same bottle. I believe it to be the best medicine in the world, and am happy to add my testimony in its favour.

OLIVER TOWERS, N. B.—Be sure and call for CURTIS & PERKINS' Cramp and Pain Killer. All others bearing this name are base imitations.

HALLOWAY'S OINTMENT.**

**A MOST MIRACULOUS CURE OF BAD LEGS, AFTER 43 YEARS' SUFFERING.**  
Extract of a Letter from Mr. William Galpin, of 70, Saint Mary's Street, Weymouth, dated May 18, 1851.

TO Professor HOLLOWAY.

SIR,—At the age of 18 my wife (who is now 61) caught a violent cold, which settled in her legs, and ever since that time they have been more or less sore, and badly inflamed. Her agonies were distressing, and for months together she was deprived entirely of rest and sleep. Every remedy that medical men advised was tried, but without effect; her health suffered severely, and the state of her legs was terrible. I had often read your Advertisements, and advised her to try your Pills and Ointment; and, as a last resource, after every other remedy had proved useless, she consented to do so. She commenced six weeks ago, and, strange to relate, is now in good health. Her legs are painless, without ointment or salve, and her sleep sound and uninterrupted. Could you have witnessed the sufferings of my wife during the last 43 years, and contrast them with her present enjoyment of health, you would be delighted in having been the means of so greatly alleviating the sufferings of a fellow creature.

(Signed) WILLIAM GALPIN, OF A PERSON 70 YEARS OF AGE CURED OF A BAD LEG, OF THIRTY YEARS' STANDING  
Copy of a Letter from Mr. Wm. Adams, Builder of Gas Ovens, of Buskiff, near Huddersfield, dated May 31, 1851.

TO Professor HOLLOWAY.

SIR,—I suffered for a period of thirty years from a bad leg, the result of two or three different accidents at Gas Works; accompanied by scorbatic symptoms. I had recourse to a variety of medical advice, without deriving any benefit, and was even told that the leg must be amputated; yet, in opposition to that opinion, your Pills and Ointment have effected a complete cure in so short a time, that few who had not witnessed it would credit the fact.

(Signed) WILLIAM ADAMS, Chemist, 12, Market Street, Huddersfield. A DREADFUL BAD BREAST CURED IN ONE MONTH.  
Extract of a Letter from Mr. Frederick Turner, of Penzance, dated December 13, 1850.

TO Professor HOLLOWAY.

DEAR SIR,—My wife had suffered from Bad Breasts for more than six months, and during the whole period had the best medical attendance, but all to no use. Having before headed an awful wound in my own leg by your unrivaled medicine, I determined again to use your Pills and Ointment, and therefore gave them a trial in her case, and fortunate it was, I did so, for in less than a month a perfect cure was effected, and the benefit that various other branches of my family have derived from their use is really astonishing. I now strongly recommend them to all my friends.

(Signed) FREDRICK TURNER. A WONDERFUL CURE OF A DANEROUS SWEELING OF THE KNEE.  
Copy of a letter from John Porzar, an Agriculturist, residing at Wetherborough, near Halifax, dated May 15, 1850.

TO Professor HOLLOWAY.

SIR,—I was afflicted with a swelling on each side of the leg, near the knee, for nearly two years, which increased to a great size, and the advice of three eminent Surgeons here, and was treated by the Newcastle Infirmary for four weeks. After various modes of treatment had been tried, I was discharged as incurable. Having heard so much of your Pills and Ointment, I determined to try them, and in less than a month, I was completely cured. What is more remarkable, I was engaged twelve hours a day in the Hay Harvest, and although I have followed my laborious occupation throughout the winter, I have had no return whatever of my complaint.

(Signed) JOHN PORZAR. AN INFLAMMATION IN THE SIDE PERFECTLY CURED.  
Copy of a Letter from Mr. Francis Arnold, of Breachford, Leithian Road, Edinburgh, dated April 29th, 1851.

TO Professor HOLLOWAY.

SIR,—For more than twenty years my wife has been subject, from time to time, to attacks of inflammation in the side, for which she was about four years ago, she was in the papers, the wonderful cures effected by your Pills and Ointment, and thought she give them a trial. To her great astonishment and delight, she got immediate relief from their use, and after persevering for three weeks, the pain in her side was completely cured, and she has enjoyed the best of health for the last four years.

Ordinary occupations were driven to the diggings from miles, not at before, to be done for a while, the rest being thrown over- the stiver and wood being now in the accordingly burnt on the spot. Wa- rren, to keep pace with the profits of the gold, is a matter of course. As of course, very great inducements were from deserting, and to get ships out Melbourne had already increased to a great extent, to the surrounding of their course. How, then, that expect fulfilled, we in the country have a estimated, that in the course of the last few years, a wholly out of it at the gold, while many thousands employments.
