From the amendment—Hone. Mesers. Coles, Whichen, Kelly; leave-Conroy, Couper, Doyle—6.
Against it—Hone. Col. Gray, Haviland, Leagworth, Perry, Divertion, Hensley, M. Aslay, Wightman, Speaker, Yeo, Pope, ird; Mesers. Sinclair, Owen, Dones, Ramssy, Montgomery, loor, J. Yeo, Whell, Howat, Holm, Davies—23.
Hon. Mr MAULAY was in favor of repealing the clause. Jeon Mr Mauland the moved, in suncidence of the resolution are discretioned from the work of the property of the Mesers. Sinclair, Owen, Dones, Ramssy, Montgomery, loor, J. Yeo, Whell, Howat, Holm, Davies—23.
Hon. Mr MAULAY was in favor of repealing the clause. Washington of the secretary from the Mr. Mr. Mauland the new of the purchaser of his goods for the pleasarce of depriving the purchaser of his liberty. He had supported the clause as an experiment, and would be in favor of extending its operation if it had been found to the basis of any legislation for the present, insamuch as lat it is Grace has not submitted the original or official copy, not ministed any desire to have the pranted copy confirmed by the coll legislature: And shereas, the Scoretary has declared, is a Despatch of the 7th Pebrusry, 1862, that one of the principal ovisions in the Award, namely, that in reference to local arbitons, is open to "Insuperable objections," which he proposes obviate by one "Tech aggressions" at a fature opportunity thus manifesting his desire that legislation on the whole subt of the Award should be postponed: And subscreas, the commandation for a loan of £100,000, so extractly arged by a Royal Commissioners, in order to buy out the clause of the deprivation, in order to buy out the clause of the other principles of the Award being such as are only tooled to confirm proprietary claims without conferring any neglic on the tenantry:

and a want, and when His Grace the Duke of Newcastle shall have farabled the "fresh suggestions" premised by him.

This amendment was lost on the same division as the force sping. The original resolution was then put and carried, after which the Speaker took the chair. When the question was about being put on the resolution, Hen. Messrs. Coles and Wholes and the put and cleared. Laddes Felt Hats alreed to the newcastle, the chairman, Mr Sutherland, voting against them. as did the Speaker in Committee, to bring in an Elective Legislative Council Bill, presented a draft which was read a first time.

House adjourned.

Wennesday, March of

On motion of Hon. Mr Havisian, the engresses of in front. Council to establish a Savings Bank in Prince Edward Island, was read a first time.

Hon. Mr Havill AND said upon principle he was not opposed to a Savings Bank, but he had not given this Bill any consideration; however, he would neve that the teert role of the licese to suspended, and the Bill be now read a second time. He understood the Savings Bank was not to be a separate matter, but connected with the Treasury. In that case it would impose additional duty on the officers of that department, and he thought the Bill made no provision for their additional payment.

The Bill was then read a second time and committed. Hon. Mr Kelly in the chair.

Mr BÉER was happy to think that such a measure was before the House, and considered it would be a great benefit to the poporer class of the community if it were only carried into operation. These institutions had writed admirably in the old country, and he thought one could be conducted here so as to be an advantage to the Colony in different ways. The Bill provided that the interest allowed the depositor should be 4 per cent.; the Government might give 5 per cent, allowing one per cent, to the Deputy Treasurer for transacting the business, and then employ the meany with advantage in buying up Treasurer warrants. He was of opinion that such a bank would be a greater benefit to the Deputy Treasurer for transacting the business, and then employ the meany with advantage in buying up Treasurer warrants. He was of opinion that such a bank would be a greater benefit to the people of the country than these of the town, particularly if the Award of the Land Commissioners came tate operation, because then parties desiring to purchase their farms could by up their money in the average Bank until they had sufficient to pay an instalment.

Mr DAVIES said something considerable would have to be a surface and the surface of the followed the appear of the followed the space of the followed the space of the followed the surface
