Pittsburgh, Pa.—"For many months I was not able to do my work owing to a weakness which caused backache and headaches. After taking two bottles I felt fine and my troubles caused by that weakness are a thing of the past. All women who suffer as I did should try Lydia E. Pinkham's Vegetable Compound." Mrs. JAS. ROHRBERG, 620 Knapp St., N. S., Pittsburgh, Pa.

Big Sanctuary Park for Wild Game in N. B.

Fredricton, April 7.—In the local legislature today Hon. Mr. Smith introduced a bill for the establishment of the New Brunswick game refuge. He explained that it was the intention of the government to set aside some 400 miles of territory in the interior of the province where the shooting of game would be prohibited at all seasons.

He said that all other provinces except Nova Scotia had established game refuges or sanctuaries and the Dominion government had established

PROSECUTION OF EMPEROR LEFT TO LITTLE BELGIUM

This Agreement Said to Have Been Reached as Compromise at Peace Conference

Paris, April 9.—The responsibility of the German Emperor for the war and means for bringing him to trial by one of the allied governments has been definitely determined upon by the council of four. This follows the definite decision on the terms of reparation for war damages, whereby five billion dollars must be paid within the next two years, and an interallied commission assess the remaining damage for a period of thirty years, beginning May 1, 1921.

Thus, two of the great obstacles which stood in the path of the rapid attainment of peace have been re-

moved within the last twenty-four hours, and the period of extreme tension over the inaction and the failure to secure tangible results, is succeeded by revived confidence over the great advance towards a permanent settlement.

While the tension has been greatly reduced, it is not entirely removed as much depends on the continuance of progress with respect to the remaining obstacles, notably the Saare Valley, the Rhine frontier, the Adriatic issue and a number of lesser issues which are still short of final agreement.

Lemons Whiten and Beautify The Skin

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orcead white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orcead white, at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

This Woodcock Weighed 15 oz.

The heaviest woodcock of which we have heard was one shot by Arthur Duane, near Whittaker's, at South Hampton, Long Island, about thirty years ago. The woodcock was mounted by Bell, the leading taxidermist of the day, but unfortunately, it was later on destroyed by moths. This woodcock was weighed on a druggist's scales at South Hampton and weighed exactly 14 ounces. There are several witnesses living who can testify as to the weight. The naturalists give the average weight of woodcock as ranging from 5 to 9 ounces.

H. M. Brigham says that Thorne German in the fall of 1915 killed a ruffed grouse in Dutchess County, New York, which weighed only the fraction of an ounce less than two pounds. Twenty-one ounces is given as the average weight of ruffed grouse. We have heard stories told of birds weighing over two pounds,

MY WIFE'S WAY

She keeps the clocks all fast a bit. Can always tell you just how much. I cannot see the sense of it. But I'm requested not to touch. She says she finds a stimulus That helps her daily regime In having them thus previous. Though they do bother, now and then. To all objections I can show She says she likes to have them so. She says: "You'll find the asperin In that small bottle marked quinine See?"

The quinine? Why, she quinine's in That other box. Where would it be? This bottle labelled Peroxide Is Castor Oil, so don't forget." To all my warnings horrified That she'll assassinate us yet She says she knows just how they do And that she likes to have them so. —W. G. Doty, in Mother's Magazine

but the weights were never authenticated. We should be glad to have accurate information of either grouse or woodcock weighing more than those mentioned above, or, for that matter, information regarding the weights of any unusually large game birds.

Important Changes In Game Act

Bill to be Introduced Shortly By Minister

The bill to amend the Game Act which will be introduced in the Legislature by Hon. E. A. Smith, Minister of Lands and Mines will contain a number of important changes it is understood. Chief among them will be the restoration of permission to sell game meat. The sale was prohibited last year and the prohibition resulted in strong protest. No change will be made in the length of the game season. License fees will remain unchanged except in the case of fishing \$10 being charged for a non-resident angler's license on a trout stream and \$25 on a salmon stream. Waters held under lease will come under the provision as well as others.

Important changes will be made in regard to permits and bounties. It is understood that there will be a considerable increase in the fee for beaver permits. Wild-cat bounties will be increased but porcupine bounties will be withdrawn. Last year five thousand of these animals were killed and bounties claimed.

Foremen of logging and construction crews will be held responsible under the legislation for infraction of the Game Act by men under their supervision.

THE KITCHEN ON WHEELS

One of the newest devices for saving time in the preparation of a meal is to have a small table on wheels that can be pushed from table to sink and sink to stove, with little effort. The wheels, which are little more than large casters, are ball-bearing and move noiselessly. With the aid of one of these, dinner can be prepared with a minimum of moving about, for food prepared at the sink can all be transported at once to the stove and the serving dishes kept on it, in readiness for the meal when it is done. Some of these tables have glass or aluminum tops and can be used in place of kneading board.

A Kidney Remedy

Kidney troubles are frequently caused by badly digested food which overtaxes these organs to eliminate the irritant acids formed. Help your stomach to properly digest the food by taking 15 to 20 drops of **Warranted of Roots**, sold as **Mother's Curative Syrup**, and your kidney disorder will promptly disappear. Get the genuine.
