The severity of the recent fighting on the Gallipoli peninsula is shown by the fact that in the past eight days there have been nearly 800 casualties among the officers of the British forces, the Australians and New Zealanders bearing the brunt of the losses. At the present time, besides the operation on the cribwork, there are two dredges at work in the harbor, working night and day, dredging out the approach to the ferry landing, and a big stone breakwater is in course of construction.

Supposed Spy

Halifax, Aug. 28.—A rather sensational arrest was made by the police to-day at the instance of militiamen in charge of the guard room at Artillery Park. A heavy built woman, dressed to represent a nurse, was noticed loitering about the park by those on duty and when ordered to leave the place refused to do so. Further investigation revealed the fact that the woman was a German and it is now believed that she is a spy. It is said that her husband is held as a German prisoner at the Citadel and she had planned to win his freedom. She was brought to the police station in an auto and detained for further investigation. She refused to make an explanation and is inclined to be very obstinate. She will not talk and, puts anything she wants to say in writing.
