A National Blessing.

The Nineteenth Century, above all other ages, has been noted for its many inventions. It has given us the steam power in its thousand-fold applications; the telephone, the electric light, and innumerable other discoveries, all blessings to humanity; each day bringing us new surprises until we have become so accustomed to the exhibitions of the genius of our century that any new development is at once received as a matter of course. It may be truly said that the most important of these inventions will simply remark: "I told you so." As an instance of this fact we would only call attention to that wonderful discovery, St. Jacobs Oil. A few years ago this Great German Remedy had never been heard of before in this country; to-day you can hardly find a man, woman or child in the United States who has not used the remedy for some pain or ache, or at least has witnessed its use and seen its wonderful effects on a fellow-being. St. Jacobs Oil has become a national remedy, for it is known in every city, town, village and hamlet in the country. It is a cosmopolitan preparation, for it is praised by the Americans, Germans, Italians, Bohemians, Danes, Swedes, Portuguese, Spaniards, French, yes, even by the "Heathen Chineses." It may be termed the universal blessing, for it is endorsed by the rich and poor, the clergyman and the physician, the merchant and the laborer, in fact by all classes of the community. St. Jacobs Oil, by its almost marvellous properties, can be employed for a simple cut or sprain or the worst case of inflammatory rheumatism. Persons who have been confined to their bed for years with that terrible disease, rheumatism, have been completely cured by the use of a single bottle. Such cases have been quoted by the leading journals of our country; for instance, the St. Louis Post-Dispatch says: Under the title of Old Probabilities, one of the most useful and valuable officers of the United States Government is most widely known. But quite as well known is Prof. S. H. Tice, the meteorologist of the Mississippi Valley, whose contributions to his favorite study have given him an almost national reputation. On a recent tour through the Northwest the Professor had a narrow escape from the serious consequences of a sudden and very dangerous illness, the particulars of which he thus refers: "The day after concluding my course of lectures at Burlington, Iowa, on the 21st of December last, I was seized with a sudden attack of neuralgia in the chest, almost preventing breathing. My pulse, usually eighty, fell to thirty-five; intense nausea of the stomach succeeded, and a cold clammy sweat covered my entire body. The attending physician could do nothing to relieve me; after suffering for three years, I thought, as I had been using St. Jacobs Oil with good effect for rheumatic pains, I would try it. I saturated a piece of flannel, large enough to cover my chest, with the Oil and applied it. The relief was almost instantaneous. In an hour I was entirely free from pain, and would have taken the train to fill an appointment that night in a neighboring town had my friends not dissuaded me. As it was, I took the night train for my home, St. Louis, and have not been troubled since."

The Boston Globe says: Chas. S. Strickland, Esq., builder, No. 9 Boylston st. and 106 Harrison avenue, Boston, thus speaks: "The pleasure which I hereby attempt to express can only be half conveyed by words. Physicians of very high character and not infrequently heretofore declared my rheumatism incurable. Specifics, almost numberless, have failed to cure or even alleviate the intensity of the pain, which has frequently confined me to my room for three months at a time. One week ago I was seized with an attack of acute rheumatism of the knee. In a few hours the entire knee joint became swollen to enormous proportions and walking rendered impossible. Nothing remained for me, and I intended to resign myself, as best I might, to another month's agonies. By chance I learned of the wonderful curative properties of St. Jacobs Oil. I dashed it as a straw, and in a few hours was free from pain in the knee, arm and shoulder. As before stated, I cannot find words to convey my praise and gratitude to the discoverer of this kind of rheumatism."

The Chicago Times says: "Everybody on the South Side knows J. D. L. Harvey, Esq., who has been a resident of Chicago for over 20 years. Mr. Harvey expressed himself on the 'Old subject' as follows: 'I have spent over \$2,000 to cure my wife of rheumatism. Two bottles of St. Jacobs Oil accomplished what all the medical treatment failed to bring about. I regard it as a greater discovery than electricity. I regard it as a boon to the human race, and I am very glad to have this opportunity of testifying as to its remarkable efficacy. I can speak too highly of it, and I would be recent to my duty to those afflicted did not I lift my voice in its praise.'

The Philadelphia Ledger says: Mr. G. I. Graham 820 Nineteenth street, Philadelphia, is a journalist of many years experience, and is actively connected with the Philadelphia Sunday Mirror, a leading theatrical and musical journal. During the "late unpleasantness" Mr. Graham was Captain of Company K, One hundred and Eighty-third Pennsylvania regiment, and though exposure in the field he contracted a variety of ills, and he says a very troublesome case of rheumatism in the right leg and foot was a war inheritance that he had vainly tried to get rid of. St. Jacobs Oil was recommended to try St. Jacobs Oil. He states that he felt a slight relief even on the first application of the Oil. Before the first bottle he purchased had been used up he had but few traces of his rheumatism, and at this time he says the disease has entirely left him, which he attributes entirely to the use of St. Jacobs Oil. He remarks: "No person suffers with rheumatism if St. Jacobs Oil can be obtained; to those who are afflicted with that complaint it is worth its weight in gold."

The Chicago Inter-Ocean says: Captain Paul Boynton, the world-renowned swimmer, thus speaks of the Old German Remedy: "From constant exposure I am somewhat subject to rheumatic pains, and nothing would ever benefit me un-

til I got hold of this old German Remedy. Why, on my travels I have met people who had been suffering with rheumatism for years; by my advice they tried the Oil, and it cured them. I would sooner be without food for days than be without this remedy for one hour. I do not intend to attempt a trip with St. Jacobs Oil, as I do not see how I can get along without it."

St. Jacobs Oil has been endorsed by persons of national reputation, who would not lend their names if they were not convinced that it was a duty they owed to suffering humanity; they have experienced the wonderful effect of the Great German Remedy, and they want their fellow creatures to know the result. We would only mention in this connection the Rt. Rev. Bishop Gilmore, of Cleveland, Ohio: "Excellent for rheumatism and kindred diseases; it has benefited me greatly." Miss Marie Salvetti, prima donna, Wilhelmj Concert Troupe: "Nothing can compare with it as a prompt, reliable cure for rheumatism." William H. Waring, Esq., Assistant General Superintendent, New York Postoffice: "Proved all that is claimed for the Oil, and found efficacious relief for rheumatic complaints."

Hon. Thomas L. James, Postmaster, New York, referring to Superintendent Waring's report concerning St. Jacobs Oil: "I concur." Prof. C. D. Duplessis, Manager Chicago Gymnasium, Chicago, Ill.: "Our professionals and amateurs use it in preference to everything they have ever tried." George W. Waring, Esq., Superintendent Police, New York City: "Members of this department relieved of rheumatism by its use." Stacy Hill, Esq., Mount Auburn Incline Plane Railroad, Cincinnati, Ohio: "Undoubtedly it is a remarkable medicine." Captain Henry Cleveland, Ohio: "Surprising relief; a world of good." Prof. Edward Holst, pianist and composer, Chicago, Ill.: "Its effects are in harmony with its claims." In conclusion we would say that it is the imperative duty of every family to have a bottle of St. Jacobs Oil on hand for all emergencies; for the remedy is a true friend, in need, and the occasion for its immediate use may come when it is least expected. Follow this advice, and it will not be long before you will join us in calling St. Jacobs Oil "A National Blessing."

THE WORLD OVER.

Melnikoff is suspected to be an important member of the nihilist Committee. The report that Krivosian took three torts from the Australians is officially denied. A decree has been issued by the Czar authorizing the issue of 6,000,000 roubles in silver. There are no sea-going vessels in port in Montreal, and local steamers and sailing craft are seeking winter quarters very quickly.

Mr. Dewdney's commission as provisional Lieutenant-Governor of the Northwest Territories was sent out from Ottawa on Monday. The Montreal Conference of the Methodist Missionary Society recently met in Prescott and added \$109 to the annual income of missionaries. El Liberal (Madrid paper) states that the prelates who belong to the Senate intend to submit a protest against the Civil Marriage Bill, and afterwards quit the Senate in a body.

A Vienna dispatch says:—It is expected in political circles that Count Kalloky will, before his departure from St. Petersburg, arrange a meeting between the Emperor Francis Joseph and the Czar. The Supreme Tribunal has annulled judgment against the claim of the slaves of Rio Janeiro, in Porto Velho mine to freedom twenty years ago, and ordered that wages be paid them from that time.

The would be assassin of General Telecheve, is a nobleman, Nicolai Sankowsky, from the Government of Grodno. He arrived a few days ago, accompanied by one Melnikoff, who has been stated that having become poor by dissipation, he was meditating suicide, when he met Melnikoff, who persuaded him to commit political murder.

The editors in the Ostrau coal mines; the largest in Austria, are on strike. At last accounts the strike was becoming serious. Twelve hundred men had struck, and it was feared that the miners of the large neighboring pits would join them. The strikers claim an increase of wages and demand the dismissal of all overseers. Two companies of infantry have been sent from Ostrau.

A youth, under the pretense of urgent State business, obtained an audience on Saturday at the Ministry of the Interior, with General Tchereweff, who was presiding over a commission for investigating the sentence of the exiles. As soon as admitted, he fired a revolver at the General, but the ball passed harmlessly between the latter's arm and side. The General disarmed the youth, who said he was merely the instrument of another person.

HALTFORD, Conn., Nov. 27.—Rev. W. L. Gage entered his house on Sunday night, and encountered a burglar, with whom he clinched. The tussle continued to the steps into the street, where the burglar was thrown and secured. He endeavored to use a pistol unsuccessfully. He had packed nearly everything in the house for removal.

On Thursday evening a woman was observed sitting on the track near Brampton, and although the engineer blew his whistle loudly, she took no notice and before he could pull up the engine she had struck her on the head and inflicted fatal injuries. A whiskey bottle was found in her possession.

A young man named Wilnot, of Ottawa, who has been mixed up with attempted suicides, divorces and elopements since he was fifteen years of age, had arranged to elope with a young lady from a Centretown convent. An old friend of the family fortunately overheard him explaining the programme to a friend in the Grand Union, and lost no time in warning the father of the plot, and just in time to prevent its being successfully carried out. Two years ago the youth eloped with the same young lady and a young companion. They were traced to Utica, and brought home before the marriage ceremony had been performed. Wilnot, who is only eighteen years of age, has been married and divorced.

Even deaths occur from cholera daily at Jeddah, and twenty-two at Mecca. A meeting of the leading citizens was held at Listowel on Saturday evening last, for the purpose of discussing the advisability of endeavoring to secure a connection with the Credit Valley Railway via Elora to Goderich. A large number was present, and the matter was fully discussed. The following resolution was unanimously concurred in: That this town will be prepared to give a liberal bonus, and offer a profitable trade to the Credit Valley Railway extension from Elora to Goderich. A committee was appointed to take such steps in the matter as are deemed advisable.

This is an additional chance for the ladies canvassing for subscribers to make money.

When Doctors Disagree, who shall Decide?

Nothing is more variable than the different opinions of medical men; but when they fail to agree, or to perform a cure in a chronic disease, the patients often decide for themselves, and take Burdock Blood Bitters, and speedily recover. It is the grand key to health that unlocks all the secretions, and liberates the slave from the captivity of disease.
