Throsean Powers Accept the Measure as Declaration of Commercial War-A Re Intervise Soperate attempt was and Agreed to by Other Nations. New YORK, June 30.—The Herald's Wath inter statement has not only been full con- to bad said about the McKinley Tariff Bin to take and about the McKinley Tariff Bin tothe Anday and night. A bigh sea boarded to t	the minister as a means of preventing a repetition of the practices of Nerich & Co., that the makers of domestic cigars be compelled to run a blue ribbon through the end of each cigar. The charge is freely made that retail dealers place domestic cigars in boxes which previously contained well-known brands of imported cigars and thus inpose upon their customers. If the ribbon scheme were adopted, it is claimed, no one could palm off a domestic article for an imported one. There are plenty of people who prefer a domestic cigar to the imported article, but the 'importers' want their goods protected from all kinds of home imitations and fraud. It is an illegal act to place these domestic cigars in imported boxes, but the thing is done almost every day all over the Dominion. It is said that Mr. Muller's interview with Mr. Bowell will greatly aid the department in the investigation which they are now making in connection with the Toronto Cus- tom House, and more particularly with re- gard to the illegal privileges which seem to have been extended to Nerlich & Co, during	the completion of the road into the city of Toronto at an early date was arranged, and was merely delayed pending the settlement of details. An 8-Hour Day for Postal Clerks. WASHINGTON, July 2.—Representative Ketcham having received the necessary in- formation from the Postoffice Department, reported favorably to-day from the commit- tee on Postoffices and postroads the bill limiting the hours of labor to eight hours for clerks in first and second class Fostoffices. Maine Democrats and Prohibition. AUGUSTA, Me., July 2.—Three hundred and eighty-five delegates were present at the Democratic State Convention to-day. M. P. Frank of Portland presided. A resolution to be inserted in the platform in favor of sub-	 to no avail. The pilot of the engine caught the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature just at the waist and cut the poor creature is an agency to sell this wire. The smooth to ongued Bostick explained away every object to nat at was raised, and said the company would take back any wire that remained unsold. Mr. James undertook to try an agency, and the next mornizg two men delivered 3000 feet of the wire to him, requiring his signattion to course to a "receipt" or document, just to show that he had received that much wire from the company, so that they would know there it was. to show that be had received that much wire from the company, so that they would know the company where it was.

se had been permitted to use a cigar stamp different from that used at all the other ports in the Dominion. He said that if that were true he could not understand how it was, and he doubted the story. I then informed him that one of the boxes of a lot seized at St. Catharines had been shown me and that the statement was perfectly true.

'Well," he remarked, "if that is the case know nothing of it." "Does the Minister know about it?" "I do not know; you had better ask him. Mr. Muller left for Toronto to-night.

BLAINE'S BILLS BOTTLED UP.

Speaker Reed Ignores the U.S. House Foreign Affairs Committee. WASHINGTON, July 2 .- One of the side lights upon the contest between the broad

views of Secretary Blaine and the prohibitory policy of the Reed-McKinley combi ation is the extraordinary treatment which has been accorded the House Committee on Foreign Affairs by Speaker Reed. The chairman of the committee is Congressman Hitt of Illinois, close friend of Secretary Blaine and his

Assistant Secretary of State during the Garfield administration. Mr. Hitt has re-ported to the House resolutions favoring reciprocity with Canada and with South America, but they have slumbered harm-

Again and again Mr. Hitt and other men

bers of the committee have asked that a day F given for the consideration of measures from the Committee on Foreign Affairs.

Speaker Reed and his associates of Commit tee on Rules have not seen fit to report the cessary order and it is doubtful if the subject has been even mentioned in the committee. The Committee on Foreign Affairs in the last Congress under Perry Belmont and afterward under the efficient chairmanship of Governor McCreary of Kentucky had five days for the consideration of its

measures, but in this Congress it has not had a day.

Mr. Hitt has got through a few measure over which there was no contest by the unanimous consent of the House, but Governor McCreary, who now leads the Demo cratic minority, has just notified him that he will no longer permit this singling out of the favorite measures of the Speaker. The committee must be fairly treated or Governor McCreary will object to the consideration of any of its measures. The bill to carry out the proposal of the

Pan-American Conference for a survey for an intercontinental railway still slumbers far marriage. down on the calendar of the House, where apparently it may rest during the remainder of the session. The rules of the House would

of the sension. The fulles of the isotate would not permit the small appropriation needed for the survey and the appointment of commissioners except by a separate bill, but fortunately for Mr. Blaine the rules of the and were fined \$100 each.

Senate permit such items to be attached to the regular appropriation bills. An amendment was accordingly adopted to the Diplo-matic Appropriation Bill making this appropriation and the House will probably accept it in conference. The Speaker seems to have pretty effectually ignored the Foreign Af-fairs Committee and to have kept Mr. Blaine's suggestions for the extension of our trade tightly bottled up.

Fatal Accident at Lindsay

I atal Accident at Lindsay. LINDSAY, July 2.—A '#year-old boy named Frank Bush, son of Francis Eush of this town, met with a fearful and fatal accident to-day.
