AGRICULTURAL EDITORS VISITORS TO EDMONTON

HERBERT VANDERHOOF'S PARTY BEING ENTERTAINED IN THE CITY—PROF. WILLIS, OF MINNEAPOLIS, PAYS MARKED TRIBUTE TO COUNTRY—EACH RIVER SOIL FERTILE

(From Monday's Daily) Edmonton entertained yesterday a party of distinguished agricultural editors from the United States...

"Without any question," said Professor Pettit yesterday, "with such soil as that of the Prairie Provinces is going to produce food for a large population. I look upon it as the last stand of the Anglo-Saxon people."

His third trip here, Ernest Cawcroft, of Jamestown, N.Y., visited Edmonton five years ago and created Secretary Fisher, of the board of trade as an old friend.

Several members of the party are visiting Canada for the first time, while others have made previous trips through the Canadian West...

Opportunities for young men here seem unequalled anywhere else in America, and they are impressed by the great fields of grain of all kinds...

"This trip," said Herbert Vanderhoof, "is the most successful I have ever conducted through Western Canada, and I have toured the country several times a year for the last five years..."

Several members of the party are visiting Canada for the first time, while others have made previous trips through the Canadian West...

Prof. Willis, of Minneapolis, has several men who have hitherto scouted the idea that Western Canada could ever amount to much...

"I am making my first trip through Canada," said Professor Willis, "and before starting I thought of Northwestern Canada as a bit of a wilderness..."

"I have only been here a short time and cannot say definitely right now what I may do," said Mr. Hagersty to a Bulletin representative at the Windsor Hotel last night...

Mr. Hagersty has for years been a prominent business man of Butte, Montana, the greater portion of which time he has been engaged in the manufacture of lumber on a large scale...

The directors are smiling. Interprovincial Exhibition of 1911 Has Proved Magnificent Success.

(From Monday's Daily) Perfect satisfaction at the extreme good fortune that has attended the exhibition in every way particularly in the matter of weather, was expressed by President Campbell and Secretary Harrison of the Exhibition Association when interviewed by the Bulletin last Sunday.

Mr. Harrison was particularly pleased to note the excellent satisfaction voiced by the exhibitors, as one after another of them has stated his determination to come again next year. They will for the coming twelve months be persistent "boosters" for the Edmonton Exhibition.

By a strange freak of fortune everything the Exhibition Association has laid its hand to has been blessed with good weather. "We have had good weather for everything we put on this year," said Mr. Harrison. "For the Spring races, the Spring sales, the aviation flights and finally the exhibition."

Mr. Harrison drew attention to the remarkably clear condition of the grounds throughout the five days of the exhibition. "Supt. Stewart had the men buy all the time picking up papers and removing rubbish so that they were as clean and tidy as the day of the fall as on the first."

Of the five bands who depended music during the five days, the Citizens Band, the Strathcona Band, the 101st Band, the Pipers Band, Mr. Harrison also spoke well. "All of them gave satisfaction. The dining hall under the management of W. A. Reece was also well organized and furnished good meals."

100 per cent. increase in attendance. In regard to the number of people admitted to the grounds it was stated by Mr. Harrison that the paid attendance for this year was 100 per cent. increase over last year.

"No, I do not think that the rate of the price of admission from 25c to 50c made any difference in the attendance," Mr. Harrison replied in answer to a question of the reporter.

"I think that they paid it as readily as 25c and the public might just as well let us have it as spend it on the midway. It makes a big difference to the newspapers when they come to making up any deficit."

"Besides, there is another consideration," continued Mr. Harrison. "If we write out to those who are thinking of coming here, that we have a fifty cent show it sounds better than if we say that we are only charging twenty-five cents. It gives us a higher standing and enables us to get better attractions to come here. Nor are we alone in his increase. Winnipeg charges 50c, Brandon as well, and New Westminster and Vancouver have run the exhibition with a paid attendance of 65,000 and a charge of twenty-five cents had a deficit. They people should expect to pay for."
