

The beginning of
"Paisley Flour"
(Trade Mark)
The SURE raising powder

was when Brown & Polson discovered that the addition of a proportion of their Corn Flour to the ordinary flour when making scones, buns, pastry and cakes, made a great improvement in added lightness, fineness and digestibility.

To the Corn Flour were added raising ingredients of the highest purity, resulting in the production of a new raising powder, which by its ease in use and improved results has marked an advance in home baking.

"Paisley Flour"—the sure raising powder—is sold in 27, 14 and 5 cent tins, ready to mix 1 part to 8 parts of ordinary flour. The 22 cent tin will raise 7 lbs. flour.
