Going to Aldershot.

Last night the Governor received a message from the Secretary for the Colonies, stating that the Nfld. Battalion was to be moved to Aldershot, where it will be attached to the Third New Army, as Army Troops Battalion. The depot will remain at Ayr. The Third New Army is composed of six divisions, the 21st to 26th inclusive. The Commander of this Army is Lieut. General Hutton. The object of sending the Newfoundland Battalion is to fit it in its place in a brigade, and to train as a Battalion to manoeuvre with a brigade, an army corps and an army. As an Army Troops Battalion it will be at headquarters and will be used as a reserve, when the third New Army goes to the front, whichever front the third army is sent to. The sending of the Newfoundland Battalion to Aldershot is the last step in the training for the front, so that before very long we may expect to hear of our boys doing their duty in the trenches. Now that there is really enough money to purchase the two larger aeroplanes determined upon, and that there is a surplus in sight after paying for them, the intention has been formed of keeping the list open to Aug. 4th and then turning over the surplus to a new fund to be started to purchase machine guns. The object is to furnish our regiment with a good supply of machine guns, and turn over the rest to the War Office for other requirements. A machine gun costs about \$750. Grand Falls is providing two and Sir Edgar Bowring and his business associates two more.

Meeting of Aeroplane Committee.

A meeting of the aeroplane committee was held at the Board of Trade Rooms last night, and was largely attended. In the absence of Mr. W. G. Gosling, the chairman, Mr. J. W. Withers presided. His Excellency the Governor was present and at the opening of the meeting read the following communication which he had received from the Secretary of State: "The Newfoundland Battalion is to be moved to Aldershot, where it will be attached to the Third New Army as Army Troops Battalion. Depot will remain at Ayr." His Excellency then paid a tribute to the work of the committee, and to the noble response of the people of Newfoundland in the matter of providing funds so speedily. He said that when the present terrible war is concluded with the complete humiliation of the enemy, the position of this colony will be on a far higher plane than ever before, because of the loyalty and devotion of her people in the cause of the Empire. Treasurer Clift reported that the fund is progressing very favorably, as will be seen by the statement published elsewhere. The committee expect that a splendid response will also be made by the outports. It was decided that a meeting of the Patriotic Association will be held on August 5 to discuss matters in connection with the latter fund. The meeting closed with the National Anthem.

Motor Accident.

Miss Gladys, daughter of Mr. T. J. Duley, had a narrow escape from serious injury last night. She had just left her home on Rennie's Mill Road in her motor car and had commenced to go over King's Road when suddenly another automobile, driven by a young man named Tapper, came off Queen's Road on to King's Road, and to avoid a collision, as she thought, Miss Duley swerved her car to the left, crashing into the fence surrounding the garden owned by Mrs. Higgins near the Laundry. The car was well into the garden when brought up by the owner who was seen to lose her head. About 15 feet of the fence was carried away. The machine was badly smashed and was taken in tow by Tapper's car, who stood by to render aid, and taken to Parsons' garage for repairs. Fortunately Miss Duley escaped unscathed.

MATCH DEFERRED.—Owing to some of the players being out of town, the St. John's Star football match set down for last evening was postponed.

Roosevelt Has Lost Patience With Pacifists

Says Peace-at-Any-Price Men Are Hostile to Manly Action—Europe of To-day an Object Lesson—Policy of Milk and Water Will Only Assist German Blood and Iron.

New York, July 22.—Little patience with peace advocates who blind themselves to the lessons apparent in the struggle of Europe is expressed in an article by Col. Theodore Roosevelt which he has written for the Metropolitan Magazine's August number.

Following a denunciation of the American pacifist in the article "Peace Insurance by Preparedness Against War," the former President deprecates the prevalence of such sentiment by saying:

"Recently, in certain articles, some popularity has been achieved by a song entitled 'I Didn't Raise My Boy to be a Soldier,' a song which ought always to be sung with a companion piece entitled 'I Didn't Raise My Girl to be a Mother.' The two would stand on precisely the same moral level."

"The fundamental characteristics of the peace-at-any-price men is sneer, downright physical or moral timidity. Very many of the leaders among the men who protest against preparedness and who are hostile to manly action on our part—hostile to the insistence in good faith upon the observance of The Hague conventions and upon respect for the lives and property of our citizens in Mexico cowed by any exhibition of ruthlessness and brutal force, and never venture to condemn wrong-doers who make themselves feared. This fact might just as well be faced. To it is due the further fact that the professional pacifist usually turns up as the ally of the cynical type of international wrong-doer."

"This has been made evident by the attitude of the great bulk of the men and women who have shrieked loud-est for peace during the last eleven months. It has been made evident by the men who have joined dinners and peace congresses during that time, and by the women of the same type who on this side of the water, have advocated a peace without honor or justice."

"These men and women have demanded peace in terms that would not merely disregard righteousness, but that would crowd out righteousness with success. They have not ventured to make one protest against any concrete act of wrong-doing; they have not ventured to raise their voices in denunciation of the iniquity wrought by Germany against Belgium, the most wanton, the most hideous wrong, and the wrong on the largest scale, that has been perpetrated for over a century. Some of the women of this question were already actively engaged in exciting contempt and derision for themselves and their country by crying for peace without justice and without redress of wrongs, at the very time that the Lusitania was sunk. American women and children were at the time being slain on the high seas; Belgian women and children, French women and children in Belgium and Northern France were at the same time suffering the last extremities of infamy and outrage; and our own women in Mexico had been subjected to nameless infamies."

"The fact that these male and female professional peace enthusiasts who have screamed so busily for peace during the past year have been afraid to make any concrete protest against wrong is doubtless due primarily to sheer fear on their part. They were afraid of the trouble and effort implied in acting about Mexico. Above all, they are afraid of Germany. Those of them who are politicians are afraid of the German-American vote; for those professional pacifists have no sense of national honor and are great encouragers of hyphenated Americanism. But in addition they are terrified, they are cowed, by the ruthless spirit of German militarism."

There are plenty of Americans like myself who feel that the German Government, the German governing class has in this war shown such ruthless and domineering disregard for the rights of others as to demand protest, and, if necessary, further action on our part."

"The success of the German policy of blood-and-iron largely depends upon their possible rivals and opponents adopting a policy of milk and water. The blood-and-iron statesmen of one nation finds in the milk-and-water statesman of another nation the man predestined through the ages to be his ally and his tool."

"If we have to interfere in Mexico (and, of course, we ought to have interfered four years ago, and every month's delay has been so much to our discredit), such interference would really mean only a measure of self-defense. It should be undertaken only by the regular army. The work should be one of policy and pacification. For such work volunteers are far less fitted than professionals than regulars. We should, therefore, have a regular army of 200,000 men, which would enable us to have a mobile army of 150,000 or thereabouts."

Fishery Report.

July 24th.—From T. McCarthy (Reynolds to Seal Cove).—The total catch is 2750 qts. and for last week 500. Eleven traps, 24 dories, 32 skiffs and 7 boats are fishing. Prospects are very poor for hook and liners. Caplin is plentiful but the best hook and liners secured only 1 qt. of cod for the week.

July 24th.—From J. Gosse (Spaniard's Bay).—Nothing is being done by hook and liners but caplin is plentiful. The lobster fishery is a blank. The catch of cod to date is 285 qts. and for last week 55. Four traps, 2 here and 2 at Island Cove, with 64 dories and skiffs, are fishing. M. Gosse and Son's 2 traps for the week had 30 qts. and the two at Island Cove had 25.

July 24th.—From A. S. DuBoudeau (Stephenville to Serpentine River).—All the traps have been taken ashore and 170 dories and skiffs and 1 boat are now fishing. The catch to date is 3500 qts. Prospects are not very bright and the codfish seems to have struck off since last week. Bait is not plentiful, but there is some small herring which do not mesh in the nets used. There is no improvement in the lobster fishery since last report and very few men are engaged at this work now. Dogfish are plentiful and are interfering considerably with all fishing operations.

The Mount Cashel Garden Party

The annual Garden Party and Sports in aid of Mount Cashel Industrial School takes place this afternoon at Mount Cashel grounds. An interesting programme of sports has been arranged, including football, baseball and a road race in which our best local sprinters will be the contestants. A special feature will be a pony race, which will be run off in two heats. The boys of Mount Cashel will also be seen in Irish dances, which have in the past been so popular with patrons of the Garden Party. The ladies in charge of the tables will be that of the Mount Cashel Industrial School, and other delicacies, and the C. C. C. T. A. and Mount Cashel bands will be in attendance. In view of the object for which the affair is being held, and with propitious weather, we have no doubt but the attendance will be a record one in the history of Mount Cashel.

McMurdo's Store News

WEDNESDAY, July 28, '15.
Next week you will be wanting Cabbage Seeds for the August sowing. It is generally held that the American Seeds are best for the purpose in question, and we are well stocked with the favorite ones among them—Succession, Charleston, Wakefield, Early Summer, Flat Dutch, and the rest, all of which are prolific and give good individual heads. Price 30 cents an ounce.

Ferrovim as a Tonic is now being extensively advertised. We have a high opinion of its virtues for the purposes for which it is recommended, and have both sizes, at 50c. and \$1 a bottle.

To-Day's Baseball For the Reid Cup.

Considerable interest is evinced in this afternoon baseball match between the Red Lions and Cubs for the H. D. Reid cup. Speculation is rife as to the outcome, though the majority of the fans are of the opinion that if pitcher Simms is in his usual form (and he can't be rattled) that victory will perch on the base of the "youngsters." On the contrary the Red Lion backers are equally optimistic. However, it is hoped that weather conditions will be favorable, and if such is the case there is no doubt but that a good exhibition of ball will be served out.

There are plenty of Americans like myself who feel that the German Government, the German governing class has in this war shown such ruthless and domineering disregard for the rights of others as to demand protest, and, if necessary, further action on our part."

BRITISH THEATRE.

A splendid programme has been chosen for the mid-week entertainments at the British. The two reel features "Pate and the Pugliese" being of great interest owing to the peculiarity of construction and the meritorious acting therein contained. Miss Dorothy Knowles—the new singer is en route and in the meantime Mr. Cameron will sing one of Gus Elsen's famous "coaster" songs. Despite the warmth of the past few days the comfort at the British has been unequalled—the ventilation being well-nigh perfect.

Household Notes.

One of the prettiest ways to serve cherries is to place them with stems and leaves on around a mound of powdered sugar on a little fruit plate.

When preparing peaches for pre-

serving, put them into a wire basket and slip them into boiling water for a minute. The skins will slip off easily.

It is better to boil a pork roast until it is partly done and then set it in the oven to brown and finish. It will not shrink away if this method is followed.

Housekeepers do not insist on having the small devices for saving labor as much as they should. Read the magazines and see how many things there are that are inexpensive and useful to save trouble and minutes.

THE AEROPLANE CONCERT.

The great aeroplane entertainment takes place on Thursday, July 29th, and those who don't say they had a splendid night's enjoyment are hard to please. The dainty Venetian sketch by Mrs. Colville, Miss Flora Clift, Miss Frances Gosling and Miss Mary Doyle is one that will please all. It's novel and dainty and the clever artists who have it in hand are enough to ensure great success. The string band of the Calypso will give some fine musical selections; Mrs. Chater will give one of her musical monologues that is worth the price of admission; Miss Bradshaw, in a delightful new dance; the Sunshine Girls in some pretty numbers; Babes Doid and Kelly in a new dancing specialty, entitled "The Masher and the Colombine"; Jack and Marie Rossley in one of their own inimitable sketches; Bonnie Rossley in clever songs and dances. Mr. A. Crocker, pianist and Mr. Jago, violinist. Several other names to appear. Make it a bumper house and send Newfoundland's aeroplanes up with good wishes.

NICKEL'S FINE SHOW.

The attraction this evening is the Nickel Theatre, where the tenth chapter of "The Million Dollar Mystery" will be produced. This is one of the most exciting episodes of the story and it will no doubt attract large audiences. The presentation of the colors at Stoby's Camp will be repeated. Forbes Law Duguid, the great baritone, will be heard in a new song. Mr. Duguid is making new friends all the time because of his beautiful singing. Every part of the show to-day will please, so patrons should not miss it. They should go early and enjoy the films.

AT THE CRESCENT.

The Crescent is putting on a big Holiday Bill to-night, one that is sure to please the patrons of the popular Palace. "The Menace of Fate" is a strong drama of the underworld produced in the reels by the celebrated Kalem Company. Flora Finch is featured in a Vitagraph comedy "A Strand of Blonde Hair"; the Essanay Company presents "In Real Life," a fine domestic drama. Doc Taid, the great cartoonist expresses some wishes and "Making good with her Family" is a Selig comedy. Don't miss this programme to-day. It is a great one.

"OURS" IN THE WEST END.

There will be an entire change of programme to-night, a choice selection of the very best pictures. Little Annie in the reels by the celebrated Kalem Company.
