

TO-DAY'S MESSAGES.

ATTACK REFUSED.
CORK, May 16.
Attempts to snipe the guard at the prison last night, lasting for more than an hour, were stopped when the guard repelled with machine gun fire and sent up very lights, bringing a strong force from the barracks. This is the third attack on Cork jail within two months.

CIPHER DOCUMENTS FOUND.
LONDON, May 16.
Three arrests have been made by the police in connection with Saturday night's attack on residences in London and its suburbs of relatives of members of the Royal Irish Constabulary. Experts are deciphering documents seized by police yesterday in raids on Sinn Fein quarters in London.

U. S. ARMY.
WASHINGTON, May 16.
A United States army of one hundred and seventy-five thousand men was decided on to-day by the Senate Military Affairs Sub-Committee considering the Army Appropriation Bill.

MOST INGENUOUS.
BELFAST, May 16.
Lord Hugh Cecil, member of the Privy Council of Great Britain, who is the guest of Lord Londonderry's family in Mount Stewart, County Down, has suggested a scheme by which Ireland would be made an independent kingdom, its king to be a member of the Windsor Family, probably the Prince of Wales, to be appointed by the King. Under the scheme there would be two small parliaments, one in Belfast and the other in Dublin, and in addition "a House of Estates" of one hundred members. Complete federal autonomy would be given Ireland, but there would be a levy imposed for Imperial defence. Ireland would have an army, but no navy, and in the event of war the King would have power to suspend the Irish Constitution. Some of the Southern Irish leaders describe the scheme as "preposterous."

KILLINGS CONTINUE.
DUBLIN, May 16.
Attacks on police and military occurred in several places last night and to-day. One constable was killed and a sergeant and another constable wounded as they were leaving a church in Bansha, Tipperary, last night. The body of an unknown was found near Killybeggs, Co. Lond., Dublin, with five bullet wounds in the head. Four civilians were wounded in the shooting which followed bomb throwing in Frederick Street here to-day.

AND EMPEROR.
LONDON, May 16.
Telegrams exchanged between King George and the Emperor of Japan were made public to-day. His Majesty expressed pleasure at the visit of the Japanese Crown Prince and said: "I hope this visit may strengthen the ties of friendship which so happily unite the two countries."

COMMUNIST UPRISING.
LONDON, May 16.
A Communist uprising has occurred at Crmona, Italy, according to a Milan despatch to the London Times. Troops have been called out and have employed machine guns against insurgents, and serious casualties are reported.

EXTENSIVE DAMAGE.
NEW YORK, May 16.
Damage to the Western Union Telegraph Company's transatlantic cables, by electrical disturbance accompanying the Aurora borealis of Saturday and Sunday nights, may necessitate the raising of cables for repairs. Newcomb Carlton, its President, announced to-night.

LLÓYD GEORGE UNDER FIRE.
WARSAW, May 16.
Extraordinary measures have been taken by the Polish Government in an effort to clear up Silesian affairs, which have taken a turn for the worse, owing to Mr. Lloyd George's recent speech, accusing Poland of backing the movement which brought about the uprising. All efforts to communicate with Delbert Korfanty, leader of Polish insurgents having failed, Premier Wites himself, accompanied by Minister of Interior Skalski, proceeded to Sosnowice, just east of the Silesian frontier, from

which place they are trying to communicate with Korfanty to induce him to end the insurrection, and permit affairs to take their natural course towards a peaceful settlement. The Government asserts that it has had no communication with Korfanty since the insurrection began. Mr. Lloyd George's speech is bitterly criticized by the Warsaw press.

LOOMING LARGELY.
LONDON, May 16.
Intervention of the Whitsun holidays brought a slight easing of tension in the Silesian crisis. No new developments were reported to-day, and apparently nothing further has been decided upon with reference to a meeting of the Supreme Council, which probably will not be held before next week, as the debate in the French Chamber is expected to occupy several days. The view held in London is that the delay will serve a useful purpose in allaying passion on both sides, and providing a more favourable atmosphere for calm discussion when Council meets. Moreover, it is believed, that the French Premier M. Briand, was not averse to seeking an opportunity, afforded by Premier Lloyd George's speech, to assume a strong patriotic attitude, which would assure him a big vote of confidence, that otherwise would be somewhat doubtful, since the French press has attributed to the diplomacy of the British Prime Minister, the defeat of French plans for an immediate occupation of Ruhr.

COWARDLY BUFFIANS.
DUBLIN, May 16.
Four persons, one of them a woman, were killed in County Galway last night, by men lying in ambush at Ballyturn, a short distance from Cork. Those killed were District Inspector Blake and Mrs. Blake, Capt. Cornwallis, son of Colonel Finnes, Stanley Cornwallis, in whose automobile the car was riding, and Lieut. McCreery. The officers were attacked to the 17th Lancers. Mrs. Gregory, the only other person in the car, was not injured. The party had been spending Sunday afternoon playing tennis at the residence of Magistrate Baget, of Ballyturn House, and were returning to their homes at Cork. Reaching the end of the avenue leading from Ballyturn House, and finding the gate closed, Captain Cornwallis got out to open it, when shots were fired from the adjacent shrubbery and Cornwallis fell dead. Armed masked men, said to have numbered about forty, surrounded the car and ordered the women to leave. Mrs. Blake refused to do so, saying that she would die by the side of her husband. Mrs. Gregory was led away. Shortly afterwards the four bodies were found lying near the gate. After the shooting a number of men went to Ballyturn House and handed in a notice threatening to burn the house if there were any reprisals. Military and police reinforcements, sent to the scene, were fired upon and one constable was seriously wounded. Lieut. McCreery was only 19 years of age. Mrs. Gregory is a daughter-in-law of Lady Augusta Gregory, an Irish playwright.

MUTUAL ADMIRATION.
LILLE, France, May 16.
"With Germany still disclaiming responsibility for the war, which brought so much suffering to France and Belgium, there is no other course than to deal with her as one who must be compelled to make good for misdeeds," declared President Millerand in an address delivered to-day in presence of Albert, King of the Belgians, at a banquet tendered the King and the French President by the Chamber of Commerce of Lille. Replying to President Millerand, King Albert dwelt upon the sympathies between the two nations.

The Imperial Life

AS A LANDMARK IN COMMERCE.

Without great pretension or blare of trumpets there was launched in Toronto almost a quarter of a century ago an enterprise which, from its very beginning, was destined to become a factor of no little importance in Canadian financial affairs. We refer to The Imperial Life Assurance Company of Canada, a company which has so far been mentioned by any person in this country who is asked to name three or four of Canada's leading life companies.

At the outset the head office was housed in a single upstairs room at the corner of King and Victoria Streets, Toronto. Amidst these humble surroundings a small but serious-minded staff formulated the policies which have enabled the Company to progress at a rate never equalled in the history of life insurance in Canada. To-day the Company occupies five whole floors of its own modern fireproof building which was erected in 1912 and which was then considered ample to provide for its needs for many years, but which will very soon require to be extended.

Foremost among those pioneers who are so largely responsible for the unusual success which The Imperial Life has attained was Mr. Thomas Bradshaw, who has since acquired fame through his able administration of Toronto's civic finances during his term as Finance Commissioner, and who is now General Manager of the Massey-Harris Company.

Mr. J. F. Weston, the Company's present Managing Director, is a man of exceptional ability. He is one of the few life insurance officials who has come up through the agency ranks, and was appointed General Manager of The Imperial Life in 1913.

The Board of Directors of The Imperial Life, past and present, has comprised many of the country's most outstanding men. Its first President was Sir Oliver Mowat, Premier of the Province of Ontario, and its second, Sir Mackenzie Bowell, at one time Premier of the Dominion, while its present chief executive, Mr. G. A. Morrow, O.B.E., enjoys a unique reputation as a financier throughout Canada.

The notable character of The Imperial's personnel is not, however, confined to its directors and officials. The process of its selling forces is no less formidable. Salesmen who can sell a million dollars of life insurance in a single year, even to-day, are few and far between. The Imperial Life has on its staff a man who secured more than a million dollars of new business for the Company in the very first year of its history. Another of its agents is reputed to be the largest personal producer of business in Canada to-day. He has sold considerably over a million dollars a year, consistently for several years past.

Furthermore, a list of the holders of large Imperial Life policies reads like a copy of "Who's Who" in Canada's business aristocracy, because it comprises the names of the undoubted leaders in practically every branch of business and professional endeavor.

When The Imperial Life was established there were fifteen other Canadian life assurance companies which had been in business for different periods ranging from five to fifty years. Only six companies now have a larger volume of business on their books, and the Company is still making more rapid growth than did any of its competitors at the same period of its existence. It is interesting to note in this connection the manner in which The Imperial Life's growth is accelerating as time goes on. It now has one hundred and twenty-five millions of business in force. It took ten years to attain its first twenty millions, six years to attain the second twenty, four years to attain the third, two years to attain the fourth,

less than one year to attain the fifth, and the Company is now adding about two and a quarter millions to its business in force each month. Surely the foregoing is sufficient evidence that The Imperial Life and its business methods have met with public favour and approval, and our readers will agree with us that it is one of the many enterprises of which we may well be proud.—"The Crest."
