### A Protest Against Certain Foreign Peddlers

A correspondent calls our attention to the practice of certain individuals from abroad who peddle glasses in the outports. They test the eyesight of patients, it is said, and within the hour supply them with lenses which are supposed to suit their requirements. Our correspondent points out that even if the tests carried out were correctly made, it would be a practical impossibility to supply the requirements in particular cases from the limited stock of lenses carried, and without possessing the grinding and edging apparatus which is needed in this business. "It is an injustice," the writer adds, "to the people who do not know the difference, and it is likewise an injustice to those who have spent time and money in making a study of this work."

Our correspondent's protest has much to justify it, and if, as he also claims, many of these peddlers have not taken out a license as required under the Act, it is a matter for the authorities to look into. The other side of the question, namely, the injury that may be caused by unqualified parties prescribing glasses for persons suffering from defective eyesight, is far more serious and demands that measures should be taken to prevent it. This is by no means the first instance of the kind that we have heard of, and in the past at any rate, to our own knowledge glasses which have been supplied by such travellers have been afterwards proved absolutely worthless and even injurious.

If this is a matter with which the Newfoundland Medical Association can deal, we trust that it will receive their attention when their annual meeting takes place.

### The British Empire Service League

The references to the matters under consideration by the British Empire Service League in Ottawa are sufficient to indicate the importance of the Conference, and further particulars will be awaited with interest. The suggestion to consolidate the various units will tend to extend the work of the organization, and with such a leader as Field Marshal Earl Haig the benefits that must accrue to the various dependencies and to the Empire as a whole cannot be estimated. One of the suggestions made is that the Naval Reserve should be re-organized in Newfoundland. It has been a constant cause of regret that this unit was disbanded, as it not only indicated the desire of the Oldest Colony to bear a part of the burden of Great Britain's responsibility, but the effect upon those who understand this course of training was of the greatest value both to themselves and to the country generally.

THE TRAINS.—The express arrived at 2 p.m. The local arrived 12:45 p.m. The express for foreign connections went out at 1 p.m.

### A Message of Greeting

FROM FIELD MARSHAL EARL HAIG. His Excellency the Governor has received the following telegram from Field Marshal Earl Haig: "July. On this the first anniversary of the outbreak of your National War Memorial, I would be grateful if you would convey to the G.W.V.A. and people of Newfoundland hearty good wishes and sincere greetings from my wife and myself. We remember most gratefully the very kind welcome which Newfoundland gave us last year. HAIG."

### Arrives From Tour of Inspection

Mr. H. J. Russell, General Manager of the Railway, and Engineer W. F. Joyce arrived by private car attached to a freight train at 8 o'clock this morning after a four days' tour of inspection along the western end of the railway. The tour extended as far as St. George's, with stop offs at Grand Falls and Corner Brook. Mr. Russell states everything is working well on the western end, particularly the line between Stephenville and Curling, where much ballasting of the road has been done of late. The main line is now in excellent shape right through to Port aux Basques, and all trains are operating successfully and moving on schedule time. Freight is being handled everywhere with despatch, although it is not as heavy as this time last year. Two trains are working daily carrying pulp wood from Terra Nova for the A.N.D. Co. at Grand Falls. While at Corner Brook a visit was made to the paper plant of the Newfoundland Power and Paper Company. Four paper machines are being installed, but only one is ready as yet, and this will be operated for a first time on Friday. The official opening of the plant takes place on August 24th.

### S.S. Caribou Due in August

The balance of the crew to bring out the S.S. Caribou, will leave here for Liverpool by the next sailing of the s.s. Newfoundland from this port. The Caribou should arrive about the second week in August. She was launched June 9th at the New Waterway Shipbuilding Company Yards, Holland. The specifications of the ship are as follows: Length between perpendiculars, 267 ft.; moulded depth, 41 ft.; moulded depth to upper deck, 25.6; deadweight capacity, 1,300 tons on a draft of 17.5; steam 15 knots; triple expansion balanced engines of the Yarrow-Schlick-Tweedy System; Cylinders, 23 1/2" x 40" x 45" stroke, 42". Two boilers carrying steam pressure of 200 lbs. on forced draught. The Caribou has accommodation for 250 first class and second class passengers.

### Store Burglarized

Burglars entered the Warren hardware store on Water Street yesterday, and breaking a safe secured about \$50 in cash. The police were apprised of the robbery this morning, and before noon the detectives had made one arrest in connection with the affair. It is thought that more than one was implicated in the job, and other arrests are likely to follow.

### PEPPY BEHIND THE SCENES.

June 29th.—Up betimes and abroad and busy all the day settling my accounts in order for the half year. But Lord, while my condition is somewhat improved yet 'tis still far from fortunate, and my gettings barely equal my spendings, which I do lay to my wife's extravagance. Forget-me-nots being sold on the streets this day, I do spend what surplus change I have in buying them. This a most successful day for the sellers, being, I learn, the largest collection for some years past. July 1st.—Up this day and to walk with Povey, the weather mighty warm and makes me perspire beyond anything I do remember. In the afternoon, to the G.W.V.A. Sports, where a goodly crowd, albeit the high wind do make it difficult for the runners. A thing that troubles me is how there are so few entrants for the sports this year, and do seem how there is not so much interest in athletics as in former years. Anon home and have little energy left for further going abroad, so do content myself with drinking tea and reading in a diverting book which is not heavy enough in matter to make me think.

### Memorial Service at Bar Haven

BAR HAVEN, July 1. On this beautiful festival day, the feast of the visitation of the Blessed Virgin Mary, solemn high mass was sung by Rev. Mr. O'Neill, who had his left arm badly burnt at the time, has practically lost the use of it, but doctors hope to bring it around again with the necessary treatment.

### Motor Cars Collide

Yesterday afternoon a collision between two motor cars occurred at the junction of Job Street and Water Street in which both cars were damaged.
