PENN. RAILROAD COMPANY.  
Office of the General Superintendent,  
Altoona, Pa., 15th Dec. 1866.

GENTLEMEN.—The watches manufactured by you have been in use on this railroad for several years by our engineers, to whom we furnish watches as part of our equipment. There are now some 200 of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and last longer, than do any other watches in the market. As you are aware, we formerly trusted to those of English manufacture, of acknowledged good reputation, but as a class they never kept time as correctly, nor have they done good service as yet. In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years.

NEW YORK CENTRAL RAILROAD.  
Locomotive Department, West Division,  
Rochester, Dec. 24, 1866.

GENTLEMEN.—I have no hesitation in saying that I believe the great advantage of locomotives to see the time when Railway Companies will generally adopt your watches, and furnish them to all engineers and conductors. In my opinion, I would greatly prefer to purchase your watches, in preference to any other watches of the kind, for their use. They run with the greatest accuracy and steadiness, notwithstanding the rough riding of an engine, and as I have never known one to wear out, they are the most reliable watches in the market.

WALTHAM WATCH CO.,  
Waltham, Mass.,  
15th Dec. 1866.

As the watches of the American Watch Company, are warranted by the American Watch Company to be the best material, on the most approved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these watches is provided with the Company's printed card of guarantee, which should accompany each watch, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

RUSSELL WATCH!  
A FEW REASONS THAT MAKE IT SUPERIOR TO  
ALL OTHERS.

- 1st.—It gives itself a reliable time-keeper beyond all question.
- 2nd.—The RUSSELL WATCH being made on correct and scientific principles, must follow as a natural consequence that it will keep time.
- 3rd.—Each part of which the RUSSELL WATCH is composed is a reflex of the perfect machine which, under skilled direction, it is produced.
- 4th.—Truth is the essential of each part.
- 5th.—Uniformity and conformity must therefore characterize the several parts in fulfilling the purpose for which they are made and brought together.
- 6th.—Reputation, as regards watch work, is simply an application of the principle that "things which are equal to the same things are equal to one another," and if there is any merit, the RUSSELL WATCH possesses that merit to a demonstration.
- 7th.—The greatest variety of price, quality and size, that confidence and perfection will admit, afforded by the RUSSELL WATCH.
- 8th.—The RUSSELL WATCH stands pre-eminently above all competitors for public favor and patronage.
- 9th.—Proofs of the foregoing, the universal testimony of all Watchmakers who have sold, and the positive statements of the thousands in Europe, the United States and Canada, who have worn the RUSSELL WATCH.

TESTIMONIAL.  
To Robert Cuthbert, Watchmaker, Wyndham Street, Guelph.

If Society was as perfect in its organization, and as obedient to the dictates of truth as the RUSSELL WATCH I bought from you is in indicating time, evil would be swallowed up in good, and happiness would become monotonous.

G. RENNIE, Guelph.
