Centre Wellington.

MR. BROWN DECLINES THE NOMINATION.

We find the following in the *Weekly Globe* of Friday, in reference to the nomination tendered to Hon. Mr. Brown by the Reformers of the Centre Riding of Wellington. No doubt we shall have a more formal announcement from Mr. Brown, of his declining to be a candidate, but in the meantime we must accept the statement contained in the following paragraph as coming from Mr. Brown himself, else it would not have appeared in the *Globe*.

"The meeting of delegates, from the various municipalities of the Centre Riding of Wellington, assembled at Fergus on Monday last, to select a candidate for the representation of the Riding in the Commons, in the place rendered vacant by the demise of Dr. Parker. The Hon. George Brown was unanimously nominated, but he declined to be a candidate. As yet the Conservatives have no one forward."

THE NORTH-WEST.

The London *Canadian News*, from which we glean most of our information regarding the progress of negotiations for the transfer of the North West Territory to Canada, conveys the intelligence that a despatch has been received by the Hudson's Bay Company from the Colonial Minister, in which the views of the Imperial Government on the subject are set forth. The terms, which are said to be the Government ultimatum, bear somewhat of a resemblance to those mentioned in the Bill brought before the British Parliament last summer. The Company are to surrender to the Imperial Government all territorial rights to the entire property, but are to retain their existing trading posts, with a reservation of land around each, (the number of acres is not stated) and receive a proportion of the proceeds of land sales, and of the royalty on gold mines. There is no difference between these terms and those proposed some time ago, further than that the arbitrary demands of the Company are likely to be somewhat modified. The language is indefinite, but it seeks to convey this idea. The land to be secured to them around each of their trading posts is now defined as a "reasonable reservation," whereas it was previously a large number of acres. But at all events, it seems pretty certain that whenever a bargain be concluded, the best sites for towns and villages will be left in possession of the Company. The minimum price of the land under this new protocol is fixed at one shilling per acre, and as realized, is to be divided. Formerly the total monetary demand of the Company from lands and mines was set down at a million sterling, but now power is reserved to commute the amounts from these sources upon payment by the Canadian Government of a sum of money not exceeding a quarter of a million sterling. In the event of these terms being rejected, an immediate demand will be made upon the Company to organize a government for the territory which shall be adequate for the protection of the inhabitants; and to do this effectually, will require an expenditure of £25,000 a year. These may seem hard terms to the monopolists, but they have had their day, and made a good thing of it. A quarter of a million to buy them out of every place but their trading posts, would be a good investment by our Government, which could then offer some millions of acres of splendid lands to those who had the energy to till them.

TURKEY AND GREECE.

Trouble threatens between Turkey and the foolishly heroic little country, Greece. The latter has been provoking the Sultan for a long time by giving aid and comfort to the Cretan insurgents, whom all the powers of Turkey have been unable to crush. Exasperated with the conduct of the Greeks, the Sultan sent them an ultimatum, in which he requires the disbandment of volunteers in Greece, and prohibition of further volunteering; the dismantling of vessels conveying supplies to Crete; restoration to the island of Cretan refugees; punishment of persons who assaulted a Turkish officer, and a conforming with the terms of all treaties.

The latest intelligence is that the Greeks rejected the terms. This is precisely what might be expected, for although Greece is not the country it was in the days of Xerxes, it is said that the modern Greeks are very fond of remembering that they are sprung from ancestors who performed wonders in the military line. The Sultan scowls and threatens vengeance, but Greece is the ward of three great powers, and can, perhaps, afford to be saucy. At all events, while she is their particular care, Turkey will not be allowed to annihilate her. Their intervention may yet prevent hostilities.

Mr. Greeley on Duties.

Mr. Greeley paid a visit to the Corn Exchange in Montreal, and in reply to a question by the President of the Association, if he thought it fair, that when the Eastern States wanted better flour than could be produced from the wheat of the Western States manufacturers had to pay a duty of \$1.20 per barrel in addition to freight and charges, made answer as follows: That it certainly would be very pleasant for the 2,000,000 of people inhabiting the north-eastern portion of the country to receive lumber, and flour of Canada without duty, but the New England States from only a small part of the country, which contained over 30,000,000 of people, and the interests of the whole country had to be considered. The New England people were largely engaged in manufacturing, and were supported by a high tariff. Western States purchased these manufactures at a higher price than they would have to pay but for this tariff, and it would not be fair to them to allow these manufacturers to import their supplies of lumber, flour, &c. free of duty. His idea was, that something like the German Zollverein ought to be agreed to between the United States and Canada, having no custom houses on the border, and dividing duties collected on the coast proportionally. This would save much trouble, and give a great impetus to trade and manufactures in Canada. They were determined to pay their debt, principal and interest, and would soon resume specie payments, but even then, and always, there would be a considerable difference between the cost of living and manufacturing here and in the United States, which would give Canada a great advantage. If she had free trade with the States she would be able to import largely of American produce and manufacture them for export. Mr. Greeley took a very encouraging view of the mineral and other national wealth of Canada, and the great future that lay before this country, and his remarks were throughout received with deep attention.

WILD CHERRY BALSAM.—The memory of Dr. Wistar is embalmed in the hearts of thousands whom his *Balsam of Wild Cherry* has cured of coughs, colds, consumption, or some other form of Pulmonary disease. It is now over forty years since this preparation was brought before the public, and yet the demand for it is constantly increasing.

CAPTURE OF WHISKEY.—Mr. Inspector Davis, assisted by officers Renzie and Nicholas, of the Inland Revenue service, captured at Orangeville on the 18th inst., eight barrels of the spirits recently stolen from the bonded warehouse and traced to Anderson's distillery near Fergus.

It is expected that the Mayor, Reeve and Deputy-Reeve, of Galt will be re-elected by acclamation.

SKATES.

Skates, skate straps, skate gimlets, skate screws, a large variety of skates suitable for ladies and gentlemen, quite cheap, at

NOTICE TO THE PUBLIC.

The subscriber begs to intimate to the public that he will remain one month longer in Guelph, for the purpose of selling his farm and leasing his hotel. If the farm is not sold by the end of that time it will be let on shares.

JAMES O'NEIL,
Guelph, Dec. 11. daw 1m

THE GUELPH MELODEON COMPANY

Beg to draw the attention of the public to their Melodeons and Cabinet Organs, which, in the opinion of all competent judges, are the best that are manufactured, and are sold at prices from 10 to 20 per cent. lower than those of any good American maker. We do not make nameless or "metropolitan" Organs, on which we do not put our name, as those nameless instruments are made only for agents, who wish to sell cheap and inferior instruments. We were awarded

THE FIRST PRIZE

on both MELODEONS and CABINET ORGANS at the Provincial Exhibition for 1868, which was open to all the world.

As we warrant all our instruments for Five Years, the public will easily see that it is to their interest to buy from us rather than from an agent of some distant New England firm, whose guarantee amounts simply to nothing, even on instruments which they consider good enough to put their names on.

LONGCREDIT given to responsible parties, or a liberal discount for cash in full. Usual discount to Clergymen, Churches, Schools, &c. Factory and Ware-room in the Old Gore Bank Building, East Market Square.

BELL, WOOD & CO., Guelph, Ont.
Guelph, December 18th, 1868. d1w1y
